22nd Annual Report

of the

AIRPORT MANAGER

of the

NEW BEDFORD MUNICIPAL AIRPORT

For the Year Ending December 31, 1968

BRADBURY-WARING DIVISION
REYNOLDS-DEWALT PRINTING, INC.
NEW BEDFORD, MASS.

1 9 6 9

December 31, 1968

To the Honorable Edward F. Harrington, Mayor, and the
Gentlemen of the City Council of the City of New Bedford.

Gentlemen:

The year 1968 was an excellent one for the New Bedford Municipal Airport. The management of the airport was at an extremely high level bringing favorable comments from the State of Massachusetts Aeronautics Commission, the Federal authorities and all those using the airport facilities.

Financially, the 1968 reserve was at an all time high resulting in the authorization to procure a long time needed Crash Truck. The year 1968 should lead to an even better 1969.

I am grateful to the members of the Airport Commission and to the Airport Manager for making it all possible.

Respectfully submitted,

N. B. AIRPORT COMMISSION

ISIDORE EISNER

Chairman

NEW BEDFORD AIRPORT COMMISSION

Year Ending December 31, 1968

MUNICIPAL AIRPORT

5 D

December 31, 1968

The New Bedford Airport Commission:

Gentlemen:

December 31, 1968 marks the end of the twenty-second full year during which the City of New Bedford has operated its Municipal Airport.

The number of takeoffs and landings recorded by the Federal Aviation Agency Control Tower during 1968 totaled 62,632 compared to 62,369 during 1967, an increase of 263.

The following percentages, based on the total number of takeoffs and landings of the past two years, show clearly the type of aircraft now using the field:

Type	1967	1968
Air Carrier	6.12%	3.44%

Itinerant Aircraft:

Military	3.14	2.21
Civil	<u>56.74</u>	<u>60.29</u>
	59.88%	62.50%

Local Aircraft:

Military	8.40	6.57
Civil	<u>25.60</u>	<u>27.49</u>
	34.00%	34.06%

The following chart shows the number of takeoffs and landings recorded during the years 1967 and 1968 and the number of days they were recorded:

Number of takeoffs and landings	Number of days during the year	
	1967	1968
200 or over	138	139
100 — 199	135	142
75 — 99	20	22
50 — 74	18	21
25 — 49	23	18
15 — 24	18	7
10 — 14	3	6
5 — 9	6	6
1 — 4	2	3
0	2	2

YEAR'S ACTIVITIES:

The outstanding achievement for the year was that our reserve account being unusually high allowed us to transfer the funds needed with which to acquire the long awaited new Foam Crash Truck. It is hoped that this new piece of equipment will be delivered some time during the summer of 1969.

During the year Northeast Airlines, our only scheduled air carrier, was forced to curtail its service in the months of February, March and April. This was due to the unfortunate loss of two damaged aircraft during that period. The result of this was a 40% drop in enplaned passengers as compared with the same three months during the previous year, with an overall decrease in passengers of 21% for the year. During this period of curtailment the airport commission met with Northeast Airline officials and Colonel John Dregge, a representative of the Civil Aeronautics Board. The object of this meeting was to determine whether or not Northeast Airlines could be made to supply us with adequate service. At this time Colonel Dregge made it very clear that the Civil Aeronautics Board had no jurisdiction on the scheduling or the number of flights to cities served by the airline. How-

ever it was agreed between the commission and Northeast Airline officials that as soon as the two damaged aircraft became operational they would schedule three flights daily from New York to New Bedford and return at hours consistent with the needs of the community. However, when this schedule was published without consulting the airport commission as previously agreed upon, we found that although the first two flights were well timed, the last daily flight was not acceptable. This condition was rectified some months later in the fall by the addition of a fourth flight from New York to New Bedford and on to Boston. During the period of curtailed flights Massachusetts Air Industries scheduled a late afternoon flight to New York and return which helped to relieve the problem. However it was noticed that a number of people were reluctant to take this flight in small twin engine planes, the general feeling being that they were not as safe as the larger aircraft. This feeling, I am sure, will be overcome in time.

This year a survey relative to the public's awareness of the New Bedford Airport and its facilities was conducted in the greater New Bedford and Fall River areas by students at SMTI under the leadership of Commissioner Frank Golen, Jr. who is also an instructor at that institute. This survey, although not conclusive, was handled in a professional manner and in my opinion indicated that although there was a better than average awareness of the airport and its facilities the majority of residents do very little traveling by air, or for that matter traveling utilizing other public means of transportation. As much as we need and enjoy our super highways linking us with Boston and Providence, it is an undeniable fact that these highways are one of the main contributing reasons why our growth is not keeping pace with the national trend.

Two improvements accomplished this year for reasons of flying safety were as follows:

First, the repainting of all-weather markings on Runway 5-23, the instrument runway. This job was accomplished

at the exceptionally low cost of \$717.36 due to the fact that we were able to acquire the necessary amount of paint on a donation basis through government surplus.

The other project was the defoliating of over forty acres of growth on the approach to Runway 5. This was accomplished by the use of a specially equipped helicopter which enabled us to spray more than forty acres at a cost of \$937.86. This was a great savings compared to what it would have cost if we had attempted to cut this growth by hand which would have been almost impossible. We will not know just how effective this sterilization will be or what percentage of kill we will get until late spring or early summer of this coming year. It may very well be that we will have to make a second application which, incidently, is not unusual.

After two years of efforts by Commissioner Darwell, Representative Joseph Saulnier and Senator Harold Clasky an all beverage liquor license was issued to the City of New Bedford to be used in conjunction with our restaurant operation. Although this license has not been issued as yet we hope to have a combined restaurant-lounge in operation before next summer.

In September New Bedford Aviation leased approximately one acre of property between the City Hangar and the Fire and Crash Truck Station on which they plan to erect a hangar for their flying school and Mooney dealership activities.

During the latter part of the year Massachusetts Air Industries became Cessna dealers and at the same time greatly improved their flying school operations. This now gives us two active flying schools and for the first time since the city took over the airport two active aircraft dealerships. All this, I feel sure, will help to generate more business for the entire airport complex.

The industrial air park still remains status quo. However, the Redevelopment Authority has applied for govern-

ment funds which are needed to start the necessary initial development such as roads, water and sewerage. Once this is accomplished there is little doubt that this undertaking will become a success.

One of the highlights of the year was the air show in October featuring Bill Sweet's National Air Show production sponsored by our local Civil Air Patrol squadron. It was estimated that approximately 35,000 persons viewed the show and a good time was had by all. It is my hope that this will be an annual event with variations from year to year.

During the year we acquired a three ton fork lift and a platform truck through the United States Government surplus program at no cost to the city. Both of these pieces of equipment were in excellent condition and have been put to good use.

Recommendations for the year 1969:

1. If money is made available under the Federal and State Aid to Airports Program:

- a) Overlay taxiways to Runways 14 and 23.
- b) Taxiway lighting for Runway 14-32.
- c) Extend apron area between administration building and Massachusetts Air Industries.

2. Continue efforts to obtain graphic symbol signing on Routes 195 and 140.

3. Continue efforts to complete the Shawmut Avenue clean up program.

Finally, I want to thank the members of the commission and all other city officials for their cooperation and kindness extended to me throughout the year.

Respectfully submitted,

JASON G. TAYLOR,
Airport Manager

NEW BEDFORD, MASSACHUSETTS**

SUPERINTENDENT AND INSPECTOR OF BUILDINGS

ANNUAL REPORT

1968

In accordance with Chapter 5, Section 3-511 of the City Code of the City of New Bedford, I hereby submit a report of the activities of the Superintendent of Buildings for the calendar year of 1968.

BUILDING DEPARTMENT

A total of Six Hundred Thirty-Three (633) permits were issued in 1968 amounting to Five million, one hundred thirty-eight thousand, three hundred sixty-nine dollars (\$5,138,369.00). This was fifty-one (51) less than 1967 and the total valuation was One hundred fifty-eight thousand, seven hundred and twenty-five dollars (\$158,725.00) less than in 1967.

List of some of the large permits issued in 1968:

Simons Supply Co. E.S. Mt. Pleasant St. Erect a supply house building	\$100,000.00
Cape News Co. Cor. Potomska St. and MacArthur Dr. Erect a building	50,000.00
Ernest J. Robillard W.S. Acushnet Ave. Erect a store	25,000.00
Timo Realty Co. 847 Kempton St. Erect a building	20,000.00
City of N. B. School Dept. Congdon, Clifford, Devalles and Ottiwell Schools Install piers and facilities for educational buildings	35,000.00
City of N. B. School Dept. Locate 14 above buildings	200,000.00

4E SUPERINTENDENT AND INSPECTOR OF BUILDINGS

Fernandes Twin City Realty S.E. Cor. W. Rodney Fr. Blvd. and David St. Erect a retail store	400,000.00
Fernandes Twin City Realty W.S. Rockdale Ave. Erect a retail store	300,000.00
Hyacinth Saulnier S.S. Mosher St. Erect two apartment houses	30,000.00
Mass. Gas and Elec. Supply Co. N.S. Coggeshall St. Erect a store building	40,000.00
Briden Realty Trust W.S. Belleville Ave. Erect 30 apartment building	75,000.00
St. Luke's Hospital 101 Page St. Erect addition to boiler room	189,711.00
Arnold Briden 503 North Front St. Alter for additional apartments	25,000.00
NEGEA Service Corp. 292 South Water St. Alter interior of building	65,000.00
N. B. Gas and Edison Light Co. E.S. Water St. Erect a warehouse and office	183,000.00
Medical Arts Building Inc. Cor. Brigham and Tabor Sts. Erect a medical office building	100,000.00
Supesah Realty Co. N.S. Duchaine Blvd. Erect an addition	25,000.00

Menco Ind. Inc. Duchaine Blvd. Erect an addition	65,000.00
Ice Engineering Co. N.S. Fish Island Drive piles and erect ice house	53,000.00
Olivier and Sons Inc. 479 Mt. Pleasant St. Erect an addition	20,000.00
L. Touissant 1225-1227 Acushnet Ave. Make repairs after fire	20,000.00

Ted Simpkins 63 Adams St. Remodel for additional apartments	25,000.00
R. & V. Trucking Co. W.S. New Cape St. Erect a trucking warehouse	33,500.00

In January of 1968 the Building Department prepared specifications for installation of an electrically operated overhead door at the City Garage. Bids were sought and the work was awarded to the lowest of three bidders, Door Sales Company, New Bedford for \$589.00. Door was completed February 9, 1968.

Final payments of retentions and for landscaping at the Campbell School addition were approved by the Building Department, March 7, 1968, in the amount of \$3,723.01. This was the final payment of a contract with De Loid and Gomes Construction Corporation, dated September 20, 1966, for \$284,857.91.

The Building Department prepared plans and specifications for repairs to roofs and flashings at the service building in Pine Grove Cemetery in June of 1968. Three bids were obtained and the work was awarded to the Glennon Roofing Company for their low bid of \$350.00. Work was completed in July, 1968.

There were numerous fires at the former City Infirmary during 1968. Extensive vandalism and increasing dilapidation became a major problem to the Building, Police and Fire Departments. Signs warning of the danger to trespassers were continuously removed by youths immediately after their erection. With the approval of Mayor Edward F. Harrington, the Building Department engaged the services of a large crane and demolition ball and demolished all combustible wood frame buildings at the site. With the co-operation of the Fire Department and the Department of Public Works most buildings were leveled and all combustible materials burned on the site. Cost of the hired equipment was \$683.18. Burning took place in October 1968. This has all resulted in the removal of the possibility of a major conflagration and the lessening of the dangers to young people playing in vacant dangerous buildings. Some rubble remains on the site and the Department of Public Works is continuing to demolish and remove debris, when their

men and equipment are available and not required for their regular duties.

Work continued, during 1968, under the Federal Demolition Grant, Project No. Mass. M-4, Contract No. 2. The contractor, Gracia Bros., Inc., was delayed in completing his contract because of the difficulty encountered in relocating the family at 431 South First Street and the owner-occupant at 3 Harpers Court. The last Proceed Order, No. 9, was issued to Gracia Bros., Inc., on September 30, 1968 and final payment was made on October 7, 1968. The original bid was \$51,550.00 and after deletion and addition of buildings the final amount of this contract was \$45,600.00.

A new list of dilapidated and unsafe buildings was compiled during 1968 by the Planning Department and some of these buildings will be ordered repaired or demolished by the Building Department and others by the Board of Health, Division of Minimum Housing Standards. Bids were opened on November 18, 1968 for demolition of these buildings under the Federal Demolition Contract. The low bidder was Kidd Construction Co., Tiverton, R. I. Project No. Mass. M4, Contract 3, was awarded to Kidd Construction and the contract was signed on December 30, 1968. Amount of their bid was \$104,650.00 for sixty-five buildings. This amount will be substantially reduced because some property owners will comply with orders to make satisfactory repairs or demolish themselves.

Bids were also received on November 18, 1968 for demolition of the former Cedar Street School building. The contract was awarded to D. W. White Construction, Inc., Acushnet, Mass., and signed on December 31, 1968. Amount of the contract was \$2,895.00.

SUMMARY OF BUILDING PERMITS

1968

*NEW CONSTRUCTION	Permits	Estimated Cost
Dwellings	148	\$2,236,100
Stores, Bus., Mfg.	29	1,519,018
Garages	34	48,540
Schools, Hospitals, Institutions	2	235,000
Swimming pools	26	64,200
Filling stations	2	37,600
	<hr/> 241	<hr/> 4,140,458
**ALTERATIONS AND ADDITIONS		
Dwellings	248	286,800

	<hr/> 307	<hr/> 991,211
*New Construction	241	4,140,458
**Alterations and Additions	307	991,211
Heating	13	6,700
Demolitions	72
	<hr/> 633	<hr/> 5,138,369

There were One hundred forty-eight (148) new dwellings and thirty-two apartments added by conversion.

Comparative Summary of Construction for the Last Five Years

Year	No. of Permits	Estimated Cost
1964	790	\$6,296,401.00
1965	713	9,204,241.00
1966	705	7,095,749.00
1967	684	5,297,094.00
1968	633	5,138,369.00

The Department made 31 special investigations during the year 1968. Special investigations are made as a result of a complaint by a tenant or a neighbor relative to a violation of zoning or building code.

There were 34 sign applications during 1968 which were forwarded by the City Clerk to be approved by this Department as to construction, site of location and method of erection and maintenance.

There were 21 appeals from the ruling of the Inspector of Buildings during the year 1968 relative to the application of the zoning ordinances.

Granted	16
Denied	1
Withdrawn	3
Dismissed	1
	<hr/>
	21

Appeals that are granted are reversals of the rulings of the Inspector of Buildings; while appeals that were denied upheld the Inspector's ruling.

Places of assembly must be carefully examined according to Chapter 143 of the General Laws, as amended, before a license for their use can be obtained. This includes every building or part thereof, used as a place of public assembly and capable of accommodating 50 or more people; where 10 or more people are employed; rooming houses and apartment houses having eight rooms or 10 people above the second floor.

The following places of assembly were checked and issued certificates during 1968.

	Renewal
Cafes, Clubs, etc.	54
Industrials	36
Mercantile	1
Funeral home	1

During the year 1968 29 Rooming Houses having 557 rooms, were inspected. A report of each inspection was forwarded to the State Department of Public Safety.

Inspections were made on Boarding Homes, Convalescent Homes, and Nurseries providing day care services for children.

Under the Subdivision Regulations, as adopted in 1964, the Superintendent of Buildings was empowered to endorse sub-division plans not requiring Board of Survey approval. During the year of 1968, sixty-seven of sixty-nine plans submitted for endorsement were so endorsed.

BUILDING MAINTENANCE

Employees of this division of the Building Department have been actively engaged in maintenance work on all city owned buildings except public school buildings, and have erected speakers' stands and bandstands for various public functions and civic organizations. They have also been engaged in miscellaneous jobbing and trucking for other departments.

Maintenance painting, plumbing and carpenter work has been done at the former Isolation Hospital in connection with installation of new equipment, by the Board of Health, in the laboratory and x-ray clinic.

All fire stations have required some maintenance, notably Station #4 where extensive interior and exterior painting was necessary.

In addition, plumbing, electrical and carpentry repairs were made in the Municipal Building, North and South End Comfort Stations, Welfare Building, Library buildings, Police Stations, Airport and the Refuse Incinerator Plant.

Respectfully submitted,

EVELYN HENDRICKS

Clerk of the Cemetery Board

BOARD OF CEMETERY COMMISSIONERS

To the Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

The Cemetery Board herewith presents its seventy-fourth Annual Report for the year ending, December 31, 1968.

Our department participated in the Annual Kiwanis Club Spring Flower Show which was held at the Lincoln Park Pavilion March 28 through March 31, 1968.

The Rural Cemetery office building, the Oak Grove Cemetery office building and the east side of the greenhouse exteriors were painted by the employees of the Building Department.

Glennon Roofing Company was given the contract to reshingle the Pine Grove Cemetery building, over the boiler room, which was done through the Building Department, therefore, we were only charged for the materials.

A water break was found under the concrete floor of the Pine Grove Cemetery office building, and it was repaired by the Water Department employees, who installed a brand new service, in from the road. The inside plumbing, that was in need of attention, was also repaired.

It was decided to have a Burglar Alarm System installed at the Oak Grove Cemetery toolhouse, because it had been broken into twice within a short time.

New overhead doors were installed on the Oak Grove Cemetery toolhouse, and the Rural Cemetery toolhouse doors were painted.

The sidewalk on the west side of Ashley Boulevard, which is on the unused side of the Pine Grove Cemetery, was cleaned, weeded and filled in with loam by the employees of the Department of Public Works. Our employees seeded it and will maintain it from now on.

It was voted, May 22, 1968, to allow azaleas to be planted on lots, with the approval of the Superintendent, provided that the lot is at least a six-grave lot.

On December 20, 1968, it was voted to discontinue servicing vaults for the Coburn Wilbert Vault Corporation of Whitman, Massachusetts, as of January 1, 1969, and not to service vaults for any other concern selling vaults.

December 20, 1968, it was voted that vigil lights are not to be allowed on any lots, in the cemeteries under our jurisdiction.

In 1968, three of our employees retired. Mrs. Doris E. Parker, Principal Clerk, who had nineteen years of service, retired under the Contributory Retirement System, April 26th; Mr. John A. Francis, Chauffeur-Laborer, retired under the Contributory Retirement System, for ordinary disability, with fifteen years and eight months service in the department, March 9th, and Mr. Francis J. Taylor, laborer, with nine years of service retired under Accidental Disability, July 12, 1968.

Three of our employees were promoted to Cemetery Foreman, April 28th, namely; Mr. Joseph Costa, Mr. Albert Santos and Mr. Joseph Souza.

Mrs. Marguerite S. McCuen was promoted to Principal Clerk, September 29, 1968, and Mrs. Alice E. Crook and Mrs. Wanda M. Lisak; Clerk-Janitresses at the Oak Grove and Pine Grove Cemeteries, respectively, were transferred to the main office permanently following the retirement of Mrs. Doris E. Parker, Principal Clerk.

Mrs. Rosilda Allen was appointed as Clerk and Janitress at the Pine Grove Cemetery, August 6, 1968, in place of Mrs. Sharon L. Costa who had been appointed, July 22, 1968, but resigned after working a little over a week.

One of our Laborers, Mr. Gilbert Rego, resigned to accept a position in the New Bedford Park Department as Park Keeper, July 20, 1968.

After a short illness, Mr. Louis Duarte, a laborer, passed away July 1, 1968. He had worked for our department six years.

Mr. Ronald McCuen and Mr. Antone S. Frade were appointed as Permanent Laborers, November 18, 1968.

The following equipment was purchased in 1968:

One (1) Solid Overhead Door.

One (1) Vee Type Snow Plow mounted on Model 50 Chevrolet Truck.

Six (6) Jacobsen 21" Turbcone Rotary Power Mowers.

Five (5) 5 lb. Dry Chemical Fire Extinguishers.

Four (4) Heavy Duty Rotary Mowers.

Two (2) 600 Watt-1800 R.P.M. Portable Electric Generating Plants.

One (1) 1968 Truck Chassis and Cab with Dump Body.

One (1) 1968 Station Wagon.

One (1) Sump Pump.

Securities were purchased with funds deposited for the perpetual care of lots, and they are the following:

8M Consolidated Edison Company of New York, Inc. First and Refunding Mortgage Bonds, registered, 6.85% Series FF, due October 1, 1998.

30M Southern California Edison Company First and Refunding Mortgage Bonds, Registered, 4 $\frac{5}{8}$ %, due September 1, 1983 (Series K).

80M Southwestern Bell Telephone Company Bonds,
Registered 6 $\frac{3}{4}$ % Debentures, due June 1, 2008
(Triple A).

Our department turned over, to the City Clerk's office, recording fees amounting to two hundred sixteen dollars (\$216.00), representing payments for the following transactions:

Cemetery	Graves Sold	Lots Sold	Transfers of Lots and Graves	Burial Right Assignments	Total
Rural	34	34	9	25	102
Oak Grove	00	6	9	14	29
Pine Grove	26	44	9	6	85
	—	—	—	—	—
Totals	60	84	27	45	216

The need of new mowers and trimmers cannot be too strongly stressed, as we cut grass on approximately five thousand lots, each year. In order to fulfill our contract with the lot owners and keep our own property in satisfactory condition, we must replace the equipment, annually.

We take this opportunity to express our sincere thanks and appreciation for the kindness, assistance and cooperation received from His Honor, the Mayor, Members of the City Council, Department Heads and our own department personnel.

Respectfully submitted,

JOHN E. MEDEIROS, Chairman

JAMES E. FERRY, Secretary

RALPH E. SALTUS

J. TUNSTALL PARHAM

LIONEL J. SOUZA

SUPERINTENDENT'S REPORT

To the Board of Cemetery Commissioners
Gentlemen:

I, herewith, submit the annual report of the work done under my supervision during the year 1968, and recommendations for 1969.

RURAL CEMETERY

With the cooperation of the Building Department employees, the office building was painted and minor repairs were made. A leak was found in the roof, and we were advised by the Building Department that it should be re-shingled. I recommend that this work be done in 1969.

Two large elm trees, affected with Dutch Elm disease, were cut down and removed by the Department of Public Works Forestry Division.

Vandalism continues to be a great source of trouble. During the past year, the toolhouse was broken into and one hundred forty-eight (148) headstones and monuments were turned over. Many of these stones were broken beyond repair. The stones that could be reset were placed in their original position by our employees. Seven water faucets were replaced in this cemetery.

OAK GROVE CEMETERY

An underground water pipe burst, causing water to flow into the greenhouse boiler room pit. It was necessary to purchase a sump pump to relieve this condition until the water pipe could be dug up and repaired.

The office building and east side of the greenhouse were painted on the outside and a new overhead door was purchased for the west side of the toolhouse.

Part of the east wall in the cemetery, on the south side of Parker Street, was rebuilt. Because of breaks into the toolhouse, a burglar alarm system was installed in this building.

The Jewish Plot in Peckham West Cemetery was

rededicated on May 30th by the Greater New Bedford Jewish Relief Society.

Seven water faucets were broken off by vandals, in the late fall, and will be repaired in the Spring of 1969.

PINE GROVE CEMETERY

All water leaks into the garage building were halted by the installation of a new paper tar and gravel roof. The Water Department installed a new copper pipe water system in the entire building and installed an inside main shutoff, which will enable us to shut off the entire building, in case of any inside water breaks.

The sidewalk on the west side of Ashley Boulevard was rough-graded by the Department of Public Works. We hope to fine-grade and seed it in the Spring of 1969.

Vandals overturned one hundred thirty-two (132) stones and tried to get into the Bishop Grace Tomb. The lock on the tomb was damaged, making it necessary to call a locksmith to repair it.

We hope to grade the last portion of the single grave section "21", in 1969.

GENERAL

To avoid a fire hazard, five fire extinguishers were placed in our several buildings. The type purchased can be handled by any of our employees.

Two samples of Slurry Seal were applied to our roads with very good results; therefore, I recommend that six thousand dollars (\$6,000) be added in our budget requests for 1969, to carry out this type of work.

For our display in the Kiwanis Flower Show, we were awarded a blue ribbon and our greenhouse men are to be commended for this fine showing.

In-as-much as prices and wages continue to rise, I recommend that a new schedule of prices for sales of lots and services be made in 1969.

I express my thanks for the assistance I have received from your Honorable Board, His Honor, the Mayor, Members of the City Council, Department Heads, and their personnel and to the employees of the Cemetery Department for their cooperation during the year 1968.

REPORT OF CARETAKER
of
SOLDIERS' AND SAILORS' GRAVES

New Bedford, Mass.

January 1, 1969

To the Honorable City Council of the
City of New Bedford

Gentlemen:

I, hereby, submit the following report of the work done, during 1968, on neglected lots and graves where soldiers and sailors are interred, as authorized in Chapter 218, Acts of Legislature, 1920:

	Care of Lots and Graves
Rural Cemetery	178
Oak Grove Cemetery	145
Pine Grove Cemetery	22
Peckham West Cemetery	24
Congregational Church Cemetery	2
Griffin Street Cemetery	9
	<hr/>
	380

The amount appropriated for this work was \$2,500.00, and this amount was expended for cutting grass.

Respectfully submitted,

JOHN THORNHILL

Caretaker of Soldiers' and
Sailors' Graves

ANNUAL REPORT
BOARD OF CEMETERY COMMISSIONERS,

ANNUAL REPORT
OF THE
CITY AUDITOR
OF THE
CITY OF NEW BEDFORD
MASSACHUSETTS

FOR THE YEAR 1968

REYNOLDS-DEWALT PRINTING, INC.
NEW BEDFORD, MASS.
1 9 6 9

CITY OF NEW BEDFORD

Office of the City Auditor

To His Honor Edward F. Harrington, Mayor of New Bedford, and the Honorable City Council:

Submitted herewith are the following statements and schedules showing the receipts and expenditures for the City of New Bedford for the calendar year ending December 31, 1968 and the financial conditions.

Exhibit A—Balance Sheet as of December 31, 1968.

Exhibit B—Statement of Receipts for the year ending December 31, 1968.

Exhibit C—Statement of Expenditures for the year ending December 31, 1968.

Exhibit D—Summary of Receipts and Expenditures for the year ending December 31, 1968.

Exhibit E—Schedule of Indebtedness Payable at the close of the calendar years 1945 through 1968.

Exhibit F—Schedule of Bonded Debts and Sinking Funds as of December 31, 1968.

Exhibit G—Summary of Bonded Debt and Sinking Funds as of December 31, 1968.

The City of New Bedford closed the calendar year 1968 with a balance of \$676,507.87 in the Excess and Deficiency Account.

I certify that in the course of the audit of the books and records of the City of New Bedford the cash on deposit and several trust funds in the custody of the trustees and city treasurer were verified and found that the same were in agreement with reports and records rendered by said trustees and city treasurer to the City Council.

Respectfully submitted,

CARL M. PEREIRA,

City Auditor

AUDIT

The audit of the accounts of the City of New Bedford, for the period beginning January 1, 1966 and ending July 23, 1967, made by the Director of Accounts of the Department of Corporations and Taxation, was submitted to the City Council March 14, 1968, and is on file in the records of the City Council meeting of that date. This may be seen by any citizen at the City Clerk's Office, as any public document.

CITY COUNCIL

This year's body has been most active, a condition caused in part by the operations of a large number of federally- and state-subsidized projects. The South Terminal Redevelopment has crystalized to the extent where its potential is readily discernible. The advent of a Model Cities Area has called for study, deliberation and cooperation with its architects. The proposed North Terminal and North Terminal Bulkhead projects have called for time-consuming examination. These matters have burdened the City Council with additional work at a time when the ordinary and usual functions have become more exacting. Every member of the City Council has conscientiously and energetically applied himself to the tasks at hand.

The City Council organized on January 1, 1968 and after the public inaugural exercises in the City Council Chambers, elected Councillor Ralph J. Saulnier as President for the year 1968. Councillor Saulnier presided with dignity, fairness, dispatch and a careful adherence to the rules of parliamentary procedure. By keeping his finger on all matters within the jurisdiction of the City Council, he had a most efficient term of office.

Despite the fact that an ordinance was enacted, reducing the number of regular meeting nights in the summer to one for July and one for August, it was still a busy year, with 22

regular meetings, 17 special meetings, in addition to four budget hearings.

On February 20, 1968, the City was hit by a power failure which left the municipal building without heat and light from 11:15 a.m. to about 8 p.m. This was the night of a regular meeting, which had to be held in the Clerk of Committees' room because the city council chamber was like a refrigerator.

Mayor Harrington submitted his budget in the amount of \$25,180,646.83 on February 15, 1968. Following the accepted procedure, the budget was referred to the City Council sitting as a quasi committee of the whole. Four public hearings were held and finally on March 28, 1968, the budget order was adopted as amended in the amount of \$25,061,572.83.

On August 15, 1968, the City Council adopted an order authorizing the Mayor to execute a collective bargaining agreement with the Police and Firefighters Association for the period ending December 31, 1968. On June 11, 1968, the sum of \$366,657.50 was appropriated to provide money for the police and fire departments budgets to take care of salaries and wages under the agreement.

The Municipal Employees Association, Local 841 failed to get together with the administration on a 1968 collective bargaining agreement. On December 12, 1968, because of the aforesaid failure of negotiations, money was appropriated to provide a \$200 "bonus" for all permanent employees.

An Industrial Development Financing Authority was authorized on January 4, 1968. Shortly thereafter, the members organized; and a charter was received from the Secretary of the Commonwealth on April 11, 1968.

On February 15, 1968, as the result of a resolution introduced by former Councillor Anthony F. Zielinski, and adopted by the City Council, the American Flag was hoisted to the top of the flag pole on the roof of the Municipal Building, where it is destined to fly 24 hours a day until the cessation of hostilities in Vietnam. At night it basks in the lights that surround it.

April 16, 1968, after the required public hearing, ON-BOARD, INC. was designated as the Community Action Agency.

June 10, 1968, Mayor Harrington was authorized to execute a contract for a Model Cities Planning Grant.

June 10, 1968, Land was taken for off-street parking in the north end.

June 10, 1968, Land in the Parker Street area was taken for school purposes (new high school).

An ordinance providing for salary increases for certain employees not covered by collective bargaining was vetoed by the Mayor and the City Council at a Special Meeting on December 31, 1968, failed to override his veto.

November 14, 1968, an ordinance was ordained providing for three Assistant City Solicitors.

One of the most controversial topics dealt with the proposal to establish a Town in Town facility on the grounds of Fort Rodman. In order to forestall this, an ordinance was passed September 26, 1968, which provided that any new territory annexed to the city should be automatically zoned as Residence A. This ordinance was vetoed by the Mayor, but his veto was overridden on October 16, 1968.

The members of the City Council have been most cooperative, and in so doing have contributed greatly to the orderly and efficient handling of matters coming within the jurisdiction of the City Council.

I have been most fortunate in having a dedicated staff of employees ably supervised by Miss Ellen M. Gaughan, Assistant City Clerk.

Respectfully submitted,

CHARLES W. DEASY,
City Clerk

ANNUAL REPORT

City Clerk, for the year 1968

CHARLES W. DEASY,
City Clerk

Annual Report
of the
CITY SOLICITOR
of the
CITY OF NEW BEDFORD
Massachusetts

For the Year 1968

December 1, 1969

To the Honorable
The City Council

Gentlemen :

In compliance with Section 1-208 of the City Code, I hereby submit the annual report of the City Solicitor's office for the year ending December 31, 1968.

30 legal opinions were rendered to the Mayor, City Council, Committees and Commissions of the City government and to heads of departments. In addition to the foregoing written opinions, this office was constantly called upon to give advice and oral opinions to department heads and city officials.

274 claims were filed and processed under the Workmen's Compensation Act, resulting in several conferences and hearings before Industrial Accident Board members.

147 claims for personal injuries and property damage were filed against the City during the year. These claims were mostly the result of accidents due to defective streets and sidewalks, and automobile collisions involving city-owned vehicles.

103 claims were honored and paid, the total sum of all disbursements being \$13,953.20. Of these claims, approximately one-third of the settlements were for personal injuries and two-thirds for property damage.

30 cases in which court action was instituted against the city for personal injuries or property damage were resolved in the total sum of \$24,945.01. Approximately two-thirds of these cases were claims for personal injuries and one-third for property damage.

212 contracts were submitted to this office for review and approval as to legality and form.

This office prepared numerous legal documents such as deeds, leases, easements, agreements, and contracts, as well as numerous City Council orders for land takings, street layouts and street discontinuances.

\$5,466.04 was collected by this office on accounts due the city for damage to city property, and for work performed and services rendered by city departments.

During the course of the year considerable time was spent by this office in negotiating with organizations representing municipal employees and city police and fire fighters under the collective bargaining law. Due to the considerable amount of additional work imposed upon the staff of this office by the requirements of municipal bargaining, a request was made by this office for the appointment of an additional Assistant City Solicitor, which request was complied with by the amendment of Section 1-207 of the City Code so as to permit the appointment of three Assistant City Solicitors. In December of 1968, Arthur J. Caron, Jr. was appointed as an Assistant City Solicitor.

Among the other matters handled by this office during 1968 was the equity action brought against the New Bedford Teachers Association for holding a one-day "Professional Day". This office obtained, in behalf of the New Bedford School Committee, a temporary restraining order and preliminary injunction prohibiting the teachers from withholding their services.

As of September 1, 1969 the following cases in which suit was brought against the City prior to January 1, 1969, were still unsettled and pending further court action:

A. Personal injury cases arising out of alleged defects in public ways:

NAME OF PLAINTIFF:

Hilda Baptista	Madeline Martin
Bernadette Bazinet	Frances Mello
Clara & Walter Beahn	Kathy Mello
Leo Bennett	Maria Nunes
Linda M. Chase	Maria V. Perry
Mildred Cleinman	Stephen Paul
Richard Dunn	Mary Silva
Paul Jaffe	Pauline T. Sol, et al
Albert W. Lowe	Laurinda Teixeira
Helen Maciel	

B. Personal injury or property damage cases arising
out of motor vehicle accidents:

NAME OF PLAINTIFF:

Manuel F. Carvalho	Edward F. Lima, Jr.
Cynthia Correia	Manuel & Irene Lopes
Leo P. & Julia Duarte	Vito R. Morra
Patricia Faria	Mary & Francisco Motta, Jr.
Louis Ferreira	Leo St. Don, Administrator of
Hartford Insurance Co.	Estate of Rose Mary St. Don
Mary Lou Horne	Ernest Santos
Elmer W. Hubbs	Carl Sylvia d/b/a
Yvonne M. Joaquim	Pilot House Cafe

C. Miscellaneous cases against the city or its employees:

NAME OF PLAINTIFF:

Children's Hospital Medical Center -- welfare aid rendered.

John A. Tierney -- Minimum Housing "handrail" case.

Suburban Excavators, Inc. -- Claim re: Contract for
reconstruction of golf course

Valerie MacKoul, et ali -- dispute over distribution of
literature at Municipal Bathing Beach.

Frank M. Goldys et ali -- land damage case re:
North End Off-street parking.

New England Development
Associates, Inc -- land damage case re:
Parker Street taking.

Following is a list of cases in which the City is the plaintiff and which remain unsettled and pending further court action :

NAME OF DEFENDANT

Bento Arraujo -- hydrant damage
Edward A. Arruda and Willie Shaw -- hydrant damage
Rosalind C. Arsenault -- hydrant damage
Donald T. Bumpus -- motor vehicle

FOURTH ANNUAL REPORT
OF THE
CONSERVATION COMMISSION
OF THE
CITY OF NEW BEDFORD
MASSACHUSETTS
FOR THE YEAR 1968

January 1, 1969

To His Honor, Mayor Edward F. Harrington
and members of the City Council of New Bedford, Mass.

Gentlemen :

The Conservation Commission presents its Annual Report for 1968.

Respectfully submitted,

SAMUEL S. WAGSTAFF,
Chairman

EARLE M. CARTER, SR.

DANIEL F. GABRIEL, JR.

ALLEN C. HASKELL,

FLORA B. PEIRCE

DAVID C. THOEN

WILFRED VALLIERE, JR.

REPORT OF THE CONSERVATION COMMISSION

Herewith is the fourth annual report of the Conservation Commission of New Bedford, 1968 being the fourth year of activity of the commission. The City Council adopted the enabling act under Section 8C, Chapter 40 of the General Laws, Acts of 1957, and amended, and authorized the New Bedford Conservation Commission June 6, 1963. A seven member commission organized the following June 1, 1964.

Yearly reorganization of the commission in June 1968 elected Major Samuel S. Wagstaff, chairman, Wilfred Valliere, Jr., vice-chairman, and Miss Flora B. Peirce, secretary. The appointments of Mr. Valliere and Mr. Earle M. Carter Sr., by the Mayor and Confirmed by the Council for three year terms replaced expired terms of Mr. Charles Francis, Jr. and Mr. Edwin F. Spencer who no longer could attend scheduled meetings.

Two representatives from their respective organizations interested and active in conservation work, Mrs. Seabury Cook, Garden Club of Greater New Bedford, and Miss Huldah Hathaway, Paskamansett Bird Club, affiliated with the Massachusetts Audubon Society, became associate members in January. Mr. Dennis I. Ackerman, urban planner in the Planning Department, was voted an associate member in February. Mr. Guy Volterra, associate member and legal advisor for the commission, resigned because of the pressure of professional duties.

The commission met monthly during the year in the Park Board office with the exception of July and August. Regular meeting days were the third Wednesdays.

The commission continued membership in the Massachusetts Association of Conservation Commissions and the Massachusetts Forest and Park Association.

Promotion and development of natural resources, protection of watershed resources, and a program for the preservation and proper utilization of open spaces and wetlands are the purposes that provided guidelines for formulating the three-fold plan of the commission. The plan consists of three projects.

1. Paskamansett River Project

Current objective - Development of a nature trail for the public.

2. Turners Pond (proper) Project

Long-range objective - Development of multi-purpose conservation and recreation programs (includes a three acre lot of the commission on the northwest corner of Shawmut Avenue and Plainville Road).

3. Acushnet Cedar Swamp Project

Objective - Bird and Game Sanctuary ; preservation of a stand of outstanding Atlantic White Cedars.

In implementing the above purposes, the commission exercised other functions given to conservation commissions by General Laws 40, 8C. Coordination, information, and education were mediums of communication to reveal the principles and goals of conservation and to stress the aims and programs of the New Bedford Conservation Commission. Speaking engagements, slide programs, displays, and pamphlets were avenues of approach to the public. Three times during the year, teachers and school children participated in conservation education through the efforts of the commission.

The omission of an appropriation to a conservation fund, inasmuch as the commission has requested each year, impedes progress in the New Bedford commission's programs. Section 5, Chapter 40, of the General Laws, and amended, gives municipalities the right to appropriate money to a conservation fund to be expended by the commission

for its purposes. The money shall be held by the city treasurer who may deposit or invest the proceeds and any income derived shall be credited to the conservation fund. It is a vital tool for conservation programs.

G. Frank Grenier, owner of property adjoining land under the jurisdiction of the commission for a nature trail, granted, released and dedicated perpetual right and easement to the commission for conservation purposes, together with all right title and interest in and to the Paskamansett River. The agreement consists of three parcels; Assessors' Plat 124, Lot 52, one acre; Assessors' Plat 124, Lot 26, two hundred (200) foot width along the Paskamansett River; and Assessors' Plat 122, Lot 2, two hundred (200) foot width east and two hundred (200) foot width west of the River. The easement facilitated a wider trail on both banks of the Paskamansett River and made possible a trail that would not deviate around private property. The commission acknowledges the gift of easement with appreciation and thanks to Mr. Grenier. Approval by the Council and signed by the Mayor, the grant of easement was recorded in the Registry of Deeds May 1, 1968.

The nature trail, eight feet wide and one mile and one-half long, is located across from Turners Pond in the northwest section of the city with an entrance of steps leading to the path from the south side of Plainville Road. It is blazed on land acquired by three devices; license from other city departments on property under their jurisdiction, easement, and outright purchase. Volunteers under the supervision of Major Samuel S. Wagstaff cleared the path and build three bridges across the River. The commission extends its thanks to the men from the 483rd Army Reserve Engineer Battalion, to the Dartmouth and New Bedford girl scouts, and to the boy scouts, Troop 24, St. Joseph Church. Girl scouts of various troops coordinated by Mrs. F. Omer Grenon, conservation coordinator of District 1, Plymouth Bay Girl Scout Council, Inc., waded hip deep to

clear out the River - one of their projects in the area! The nature trail at this date is nine-tenth completed.

To be erected is a sign to the nature walk and a sign designating the three acre Conservation Area of the Conservation Commission on the northwest corner of Shawmut Avenue and Plainville Road. Another area under the jurisdiction of the commission, a Wildlife Refuge, north of the Whaling City Golf Course, comprises about twenty-five acres and at present without indication.

Major Wagstaff photographed the nature walk as it was developing and showed the slides to the commission members and guests. He presented the slides, accompanied with a talk on plans for the area, to the Junior Chamber of Commerce and the Lions Club of New Bedford.

At the February meeting, Mr. Charles E. Roth, education director of the Massachusetts Audubon Society, spoke to commission members and their guests from the Acushnet, Dartmouth and Mattapoisett Conservation Commissions. His talk concerned nature trails. He told the group about the construction techniques and maintenance and the value of booklets for educational purposes in reference to nature walks.

Pursuant to its objectives, the commission held a special meeting the first of the year with guests from the Massachusetts Division of Fisheries and Game, Mr. Lewis C. Schlotterbeck, wildlife manager of the Southeastern District, and Mr. Charles A. Stiles, district game manager; and from the Massachusetts chapter of The Nature Conservancy, Dr. George C. Shattuck, chairman. The Division of Fisheries and Game would like to acquire the Acushnet Cedar Swamp as a reservation for wildlife and the adjoining uplands for recreation, mainly hunting. The Nature Conservancy interest would preserve an exceptional stand of Atlantic White Cedars found in the Acushnet Cedar Swamp. Dartmouth Conservation Commission members

attended in the interest of their acquisition program which includes property adjoining the New Bedford commission's desired acquisition. Costs, values, and problems of the acquisition program were discussed in a closed meeting.

Subsequently, Dr. Shattuck invited Miss Peirce to the annual meeting of The Nature Conservancy, May 10, 1968, in Boston, to present the potentials of the Acushnet Cedar Swamp. Mr. Paul Mugford, state ornithologist, reported for Mr. James M. Shepard, director of Fisheries and Game, on the interest of the division in the Acushnet Cedar Swamp and the uplands.

The three school programs sponsored by the commission in 1968 included for the third year Conservation Education Days and two new school programs in cooperation with the School Department.

In the spring, a new innovation introduced teachers and pupils of fourth grades to the Turners Pond area. Description of the area, tabulation of historical facts, lists of trees, wildlife, and birds in the area, its potentials and proposed programs of the commission were assembled in pamphlet form for the use of the teachers. Copies of the Conservation Plan Map of the Conservation Commission were distributed to the teachers. Mr. Gordon W. Johnson, audio-visual director in the School Department and organizer of a historical tour for the fourth grades, included the Turners Pond area. It proved to be successful. It was an excellent way to introduce the region, its natural aspects, and the program of the commission to the schools throughout the city. Mr. Ackerman, associate member, suggested the area and planned with Mr. Johnson the inclusion of Turners Pond area in the route.

June 4 and 5 were set aside for Conservation Education Days with a change of locale from the previous years to Myles Standish State Forest, South Carver, Massachusetts. Buses, financed under a federal program, carried approxi-

mately forty-five pupils each day with teachers and aides to participate in the program. Sixth grades from the Thomas Donaghy and the Abraham Lincoln schools took part on the Tuesday and Wednesday, respectively. The setting gave the instructors excellent opportunities for teaching conservation and demonstrating good conservation management practices. Mr. Alden E. Cousins, assistant regional supervisor in the Massachusetts Division of Forests and Parks, was coordinator of the program. Other personnel of Myles Standish State Forest assisted Mr. Cousins in the instruction. Mr. Stiles from the Division of Fisheries and Game and Mr. Richard D. A. Vieira from the regional Soil Conservation Service, U. S. Department of Agriculture, instructed also. Stations for instruction, discussion, and participation by the pupils were set up around the fire pump, fire tower, in the woods, and in three clearings of the Wildlife Management Area where pheasants and quail were released and where the children planted seedlings. The commission's gratitude is extended to the instructors who provided and directed a stimulating and instructive conservation program. Literature and seedlings were distributed to the pupils. After lunch in the picnic area, the groups were returned by way of Plymouth and Cape Cod Canal, noting historical places. The program was made possible by the assistance of Miss Mary A. Keneally, Assistant Superintendent in the School Department. The commission appreciates the cooperation of Miss Keneally with the three school programs.

The third school program was conducted in November at the site of the nature trail along the Paskamansett River. Mr. Johnson planned the schedule for the commission. The sixth grades, thirty-eight pupils, from the Thomas Donaghy School on Tuesday, the 5th, and from the Clarence A. Cook School, twenty-five pupils of the sixth grades, on Friday, the 15th, were bused to the site and walked the nature trail. Mr. Wilfred Valliere, Jr., commission member,

guided the groups and Miss Huldah Hathaway, associate member, instructed. The parochial schools were invited to participate in the program. The Superintendent of the Diocesan Schools, very much interested, made further inquiries. Unfortunately no date could be arranged in seasonable weather. The main objective of the program was to acquaint teachers and pupils with the Conservation Nature Area. It is hoped that in the future teachers would conduct conservation education school programs in the area.

Other organizations guided walks on the nature trail. In late August, in cooperation with the Recreation Department, the Conservation Commission sponsored a tour in the Turners Pond area of approximately seventy-five children from the Monty and Riverside Playgrounds.

With the objective of projecting the aims and programs of the commission before the public, a display arranged by Mr. Ackerman was on exhibit for weeks at the entrance of the Council Chamber, City Hall. Major Wagstaff assisted the girl scouts with a display depicting the nature trail at the New Bedford Kiwanis Flower Show at Lincoln Park. Miss Peirce, on several occasions, spoke informally to groups and was the speaker on the subject, "Conservation" for the New Bedford chapter of the Daughters of the American Revolution. The attractive pamphlets, previously described in this report, were distributed to the city councillors, teachers, and others on local and state level. The Massachusetts Association of Conservation Commissions requested copies for distribution at the spring conference of the association. These pamphlets were the art work of the commission member, Mr. Daniel F. Gabriel, Jr.

The Conservation Commission supported state legislation in the field of conservation including the important inland wetlands bill, signed into law June 26, 1968. The new law necessitated an available map outlining the inland wetlands of New Bedford for a useful instrument of the com-

mission and other departments of the city, in particular, the building department, to implement the law and to make it effective. Pertaining to the subject of wetlands, notices, from the Department of Natural Resources in regard to construction on wetlands in the city, were investigated by the commission. Another map project in process is a natural resources inventory by a Natural Resources Team, regional professionals, in cooperation with the commission. This is a follow-through from a previous request by the Conservation Commission.

The Conservation Commission thanks Mayor Edward F. Harrington and the members of the City Council for their interests and cooperation. The commission expresses appreciation to the city departments and their personnel for assistance rendered with special gratitude to the Planning Department.

Respectfully submitted,

FLORA B. PEIRCE

Secretary

ANNUAL REPORT
OF THE
CHIEF
OF THE
FIRE DEPARTMENT

NEW BEDFORD, MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31, 1968

Richard T. Gaughan, Chief of Department

BAKER PRINTING
NEW BEDFORD
MASSACHUSETTS
SEPTEMBER, 1969

FIRE DEPARTMENT REPORT

Mayor of the City of New Bedford —

Dear Mr. Mayor:

I respectfully submit the Annual Report of the operations and functional status of the Fire Department for the year 1968, together with the recommendations that I consider necessary for maintaining and increasing the efficiency of the Department.

The total alarms received for "Fires" and "Non-Fires" for the year 1968 is 2763.

SUMMARY OF ALARMS RECEIVED

Fires	1,144
Emergency Calls, other than fires	1,028
No Fire Found, Sprinkler Trouble, Etc.	218
False Box Alarms	321
False Telephone Alarms	48
Out of City Responses	4
	<hr/>
	2,763

Of the actual 1144 fires, 923 originated as "Still Alarms" and in 359 cases were followed by "Box Alarms" for the same fire. Of the actual 1144 fires, 221 originated as "Box Alarms" and in 25 cases, calls for additional apparatus were sent out by "Still Alarms" for the same fire.

Total "Still or Telephone Alarms" transmitted from Headquarters	1,260
Total "Box Alarms" transmitted from Headquarters	854
	<hr/>
	2,114

Of the total alarms transmitted, there were 1144 actual fires. There was no Second Alarms during the year.

The total fire loss for 1968 is \$408,623.33, of which the loss in buildings is \$262,390.48; the loss of contents of buildings is \$117,596.72; the loss on auto fires is \$23,099.13; the loss on boats is \$5,537.00. The per capita loss of \$4.08 compares most favorable with the national average of \$6.05.

The Department responded to 1,028 emergency services which include resuscitator efforts, pumping out of flooded cellars and boats, removal of refrigerators that were leaking sulphur dioxide gas, and numerous other types of services which this department classes as emergency Public Service. May I state that the above calls were made as a part of the emergency service this Department provides the citizens of our City.

As authorized by Section 19 of Chapter 148, General Laws, I granted 7 permits for Blasting.

The capable staff of Chief Officers who are responsible for administrative and firefighting efficiency in their respective Districts, in addition to a myriad of other duties related to the Fire Service, are to be congratulated for their unquestioned dedication and support to this office.

Deputy Chief Frank H. Cleveland, District Chiefs Charles J. Armanetti, Edward J. Jablonski, Daniel L. Piekut, Alphonse Piekut, Fred Osuch, Gordon W. Graham, Oreste A. Savino, William H. Barney, Manuel Almeida and Joseph P. Silva made approximately 412 inspections during the year to check out complaints and remedy hazardous fire conditions. They granted 908 Open Air Permits after visitation for assurance of fire-safe conditions.

The Home Inspection Program was continued under direction of Deputy Chief Frank H. Cleveland. I wish to compliment our personnel in this phase of fire prevention. The diplomatic and efficient manner in which Company personnel conducted these inspections is highly commendable. A total of approximately 2,733 occupancy and 2,085 building inspections were made. In addition to the Home Inspection, schools, hospitals, theatres, and convalescent homes were inspected quarterly. A continuing phase of this most important fire prevention measure also included every church in the City. If we may prevent the loss of just one life through the efforts of our Fire Prevention measures, then I would say the program is justifiable.

The Fire Alarm Division, our communications center, which services both telegraphic and radio transmission and reception continues to operate in a most efficient and progressive manner under the direction of Assistant Superintendent of Fire Alarms Clifford J. Snell.

Fourteen new Fire Alarm boxes were installed and approximately 3,400 feet of aerial line and associated equipment installed to service these boxes. 8,000 feet of underground and approximately 1,200 feet of old overhead line wire was replaced.

As in the past, assistance was given the Wire Department relative to the Christmas Display at the Common Park.

Routine maintenance work was done by the fire alarm crew which included tree trimming, line inspection, change over to new poles, ground testing, and painting outside equipment.

All fire alarm boxes were tested and inspected and the interior circuits from master boxes were tested.

At the close of 1968 the number of fire alarm boxes throughout the City totalled 487; of this total 275 are Public and 212 are Private Boxes, 104 of the latter being the master type connected to sprinklers, heat detectors, or auxiliary pull stations.

The Repair and Maintenance Division under Master Mechanic Kenneth M. Haddock is charged with the upkeep and repair of all mobile units, many of which are specialized requiring service uncommon to most motor vehicles. The Repair Shop also maintains, repairs, and many times fabricates the special equipment and accessories peculiar to firefighting.

Care of the eleven (11) buildings under the fire department jurisdiction, requires that our repair division perform carpenter, plumbing, and heating repairs which otherwise would require the services of an outside contractor.

Fire Prevention Division is headed by Acting Head Lieutenant Edwin L. Albino assisted by two Lieutenants and two clerks. This division is responsible for administering one of the most important phases of Fire Department functions, namely Fire Prevention and Investigation.

Their duties embrace the entire field of Fire Prevention and Investigation including issuing of relative permits as required by law, inspection duties, fire prevention lectures to schools and public service organizations, and investigative work in relation to suspicious fires.

Permits issued by the Division are as follows:

Power Oil Burners	226
Range, Cabinet and Space Heaters	4
Garage and Filling Stations	5
Fuel Oil Storage	16
Liquified Petroleum Gas Storage	50
Underground Tank Removals	22
TOTAL	321

The Drill and Training Program is directed by Captain Raymond W. Cobb. Its function is to maintain efficiency in all phases of firefighting through classroom instruction and fire ground training at the Drill Tower and various other locations.

Captain Cobb, through his attendance at the Massachusetts Institute of Fire Department Instructors monthly meetings is able to keep astride of the most modern techniques of firefighting.

Annual Underwriter service tests for all pumping engines, first aid instructions and lectures to the Military, Civil Defense, and Industrial fire brigades are all a part of the duties of our Drillmaster.

Refresher courses in radiological monitoring were given to all members of the department. The various instruments employed in detection of radioactivity are provided by the Civil Defense Agency and are kept operational and in readiness at all Fire Stations throughout the City.

The New Bedford Protecting Society Officers and Personnel constitute a most dedicated and capable body of citizens who, with a most modern salvage vehicle provide invaluable assistance to the Public and Fire Department. Serving without remuneration, the members of the Society avail themselves at any hour, day or night, in their effort to help keep the City's fire losses low. The Public should be more aware of their excellent service.

APPARATUS IN COMMISSION

- 11—Motor Pumping Engines, 6-1,000 G.P.M. and 5-750 G.P.M. Engines, all with booster hose and water tanks. Four have built-in liquid foam tanks used for flammable liquid fires. Six carry large deluge guns for use on large fires.
- 4—Aerial Ladder Trucks, 2-85 Ft. tractor type and 2-75 Ft. non-tractor type, all equipped with ladder pipes.
- 1—City Service Ladder Truck.
- 1—Rescue and Fire Boat, on trailer - available on call.
- 1—Hose Wagon with Booster and Water Tank, equipped with forestry hose, wet-water device, flammable liquid fire fighting appliances - on call.
- 1—Automobile for the Chief.
- 1—Automobile for the Deputy Chief.
- 4—Automobiles for the District Chiefs.
- 1—Automobile for the Drillmaster.
- 2—Fire Alarm Trucks.
- 2—Repair Division Trucks.
- 3—Automobiles for Fire Prevention Division.
- 1—Van for towing of Rescue SCUBA and Fire Boat.
- 1—N. B. Protecting Society Salvage Truck.

APPARATUS IN RESERVE

- 1—Motor Pumping Engine, 200 G.P.M. with power take-off pump and water tank.
- 1—Motor Pumping Engine, 500 G.P.M.
- 1—High Pressure Fog Truck with 435 Gallon Water Tank.

FIRE HOSE

- 800 feet of 3-inch hose
- 26,900 feet of 2½-inch hose
- 19,700 feet of 1½-inch hose
- 1,000 feet of 1-inch hose
- 4,500 feet of ¾-inch hose
- 800 feet of ⅝-inch garden hose
- 127 Waterproof salvage covers carried on apparatus
- 10 Waterproof salvage covers carried on Protective Truck

NEW EQUIPMENT ACQUIRED DURING THE YEAR

- One new Maxim Pumping Engine
- Two new Station Wagons
- Two new Fire Alarm Boxes
- Fire Alarm Iron Wire and Cable and related equipment
- Fire Alarm C & D Batteries

FIRE DEPARTMENT

7 L

Fire Alarm rectifiers
Five new Air Masks
1,000 feet new 2 ½-inch hose
One Fire Alarm Bucket Truck
One Repair Shop Truck
Two Electric Dewatering Pumps

My sincere thanks to the Mayor and City Council for the continuation of their excellent cooperation and good relationships with this Department.

Inter-Department cooperation is on the highest level. I extend my thanks to the Building, Wire, Water, and Public Works Departments.

Our news media including the Standard-Times, radio stations WNBH and WBSM are outstanding in the presentation of fire ground activity and various other newsworthy items related to the functions of the Fire Department. Without their fine support our Educational and Fire Prevention programs would be impossible to achieve their objective - namely, "reaching the people".

The Salvation Army, Volunteers of America, and American Red Cross who faithfully dispense hot coffee and refreshments to our men at multiple alarm fires, deserve and receive our special thanks. May our fine relationship continue.

Many thanks to Civil Defense Director Mrs. Anne Fitch and her personnel, for invaluable assistance in the fields of traffic, lighting, and availability of their Rescue Truck at multiple alarm fires.

Special recognition and many thanks are extended to the Company Officers and Firefighters who on many occasions have demonstrated their ability to fulfill their duties in the highest tradition of our service. Their participation in the many civic endeavors of our City is worthy of admiration.

RECOMMENDATIONS

ONE (1) NEW 1,000 G.P.M. PUMPING ENGINE: The efficiency of a fire department is, to a large degree, predicated on the dependability and capacity of its' pumping engines both active and reserve. Our pumping engine posture is rapidly becoming acute. Reserve status is for all practical purposes negative, which means if an active piece of apparatus breaks down and requires extensive repairs, there is no dependable replacement - some area of the City will be exposed to inadequate protection.

Engine #2, a 1947 Ahrens-Fox pumper, located at Station #2 is one of the engines charged with the protection of our high value district. This pumper is over 21 years old and because of its design is extremely difficult to maneuver through our narrow streets. It shows signs of needing extensive motor repair. If replaced, it would be placed in reserve and help to improve our situation in this area.

Our present active pumping engine age is as follows:

1947 — one	1948 — one
1950 — one	1952 — one
1953 — one	1954 — three
1955 — one	1956 — one
1965 — one	

It is obvious from the above that a long range plan for gradual replacement should be instituted. I sincerely hope serious and forthright consideration be given to the above request.

REQUEST: \$33,000.00

ONE (1) NEW AUTOMOBILE: Passenger type vehicles, of which we have eleven, are used by the Chief, Deputy Chief, District Chiefs, Fire Prevention Inspectors, Drillmaster and Master Mechanic.

The above vehicles are necessary in the performance of the day and night duties of the aforementioned. In the move towards economy, the practice of this department is, through the "hand-down" process, get the most out of each vehicle. Two of the above vehicles, which are of the 1953 vintage, should be replaced.

The new automobile would replace the Deputy Chief's car (1955 Ford) which would be handed down to replace a 1953 model.

REQUEST: \$3,200.00

TWO (2) NEW FIRE ALARM BOXES: With increased new construction in residential areas it becomes imperative that such areas be protected by adequate distribution of fire alarm boxes. Our citizens need and deserve such protection for the notification of fire.

REQUEST: \$505.00

FIRE ALARM LINE WIRE, UNDERGROUND AND OVERHEAD CABLE, AND RELATED EQUIPMENT: Fire alarm wire, underground and overhead cable and related equipment are integral units of our telegraphic Fire Alarm system. They serve as the carriers of a fire alarm signal from the various fire alarm boxes throughout the City to our Central Station at Headquarters. Much of the wire and cable has deteriorated through age and weather and must be replaced. Failure to replace such wire and cable could very well result in serious consequences, for a breakdown would negate the receipt of a signal from a fire alarm box that was pulled on that particular circuit. One such section that needs a change is on Tarkiln Hill Road from Lunds' Corner to Ashley Blvd., Station #9. This cable was installed when Station #9 was built and contains a box circuit and fast and slow circuits to Station #9. This old cable is deteriorated and should be replaced. The approximate cost for this one section alone is \$2,500.00.

REQUEST: \$4,000

FIRE ALARM C & D BATTERIES: Batteries on fast time circuits to the stations need replacing. These batteries were purchased in 1956 and have a life expectancy of 14 years.

REQUEST: 460.00

FOUR (4) BELLS: These bells are to replace old bells in stations that are over 50 years old and badly worn.

REQUEST: \$600.00

ONE (1) SLOW TIME TRANSMITTER: This transmitter is for transmitting alarms to fire stations. The transmitter now being used is approximately 50 years old and badly worn.

REQUEST: \$1,500.00

ONE TYPEWRITER: Considerable clerical work is processed in our main office and Fire Prevention Bureau. Due to the age and constant use, I recommend a replacement for the typewriter in the Fire Prevention Bureau. The older unit would then be handed down for use in one of the stations that presently does not have one.

REQUEST: \$250.00

FIRE STATION REPAIRS AND PAINTING: We have tried with the aid of the Building Department to effect certain minor repairs and painting of certain stations. However, major repairs are urgently needed in several stations. Station #9 water enters through the porous bricks on the south wall of the station and runs down the brick and plaster inside of bedrooms, severely damaging walls on the second floor. This condition has persisted for several years and should be corrected. We should begin a long range program of station repair to eliminate further damage to the interior of the station.

REQUEST: \$2,000.00

FIRE DEPARTMENT

NEW 2½ INCH HOSE: During the past year an extremely large amount of 2½ inch hose was lost through use at fires and during the required pressure tests. We had 37 lengths of hose damaged during the eight days that were required to extinguish the fire at the Garbage Plant and other lengths were lost during other fires and during the hose tests. The minimum amount of hose that each company should have is a complete body change. At the present time we are 50 lengths of hose below this requirements.

REQUEST: \$3,000.00

HYDRAULIC LIFT: A hydraulic lift for the Repair Shop to facilitate the repairing of many fire department vehicles; includes installation.

REQUEST: \$2,000

JET X FOAM NOZZLE AND FOAM SOLUTION: This device would be of immeasurable value in handling fires in fishing vessels, inflammable fluids, etc.

REQUEST: \$550.00

HOSE COUPLING EXPANDED: This device is used to re-couple damaged hose. The present device has been in use since before 1920 and is now in a state of disrepair. The repair shop re-couples hundreds of lengths of hose per year which would cost the city \$2.50 for each length of 2½ inch hose that would have to be re-coupled by a private concern.

REQUEST: \$1,400.00

SIX WALKIE TALKIES: These devices increase the efficiency of the department when working at fires covering large areas such as hospitals, factories, woods, etc. With walkie-talkie, information can be sent back to a command post or fire headquarters directly from anywhere on the fire grounds without having to come back to the apparatus radio.

REQUEST: \$3,792.00

Respectfully submitted,

RICHARD T. GAUGHAN,

RTG/arj

Chief

FIRE DEPARTMENT

RECORD OF FIRES, FIRE ALARMS, AND DEATHS

For the Year Ending December 31, 1968

[illegible]

A FURTHER BREAKDOWN OF THE CLASSIFICATION OF THE FIRES

ON THE PREVIOUS PAGE IS LISTED BELOW

Residential	Includes—Dwellings, Tenements, Apartments, Hotels, Rooming & Lodging Houses.
Non-Residential Assembly	Includes—Office Buildings, Theatres, Churches, Hospitals, Institutions, Schools.
Mercantile	Includes—Retail & Wholesale Trade, Restaurants, Bars, Repair Shops, Filling Stations.
Manufacturing	Includes—Factories, Breweries, Canneries, Bakeries, Launderies, Printing & Other Manufacturing Processes.
Storage, etc.	Includes—Warehouses, Piers, Wharves, Grain Elevators, & Storage.
Public Utilities	Includes—Power Plants, Pumping & Transformer Stations, Poles, Etc.
Miscellaneous	Includes— <i>a.</i> Detached Private Garages & Barns. <i>b.</i> All Other Buildings.
Grass and Brush	Includes—Grass and Brush Fires ONLY.
Motor Vehicles	Includes—Motor Vehicle Fires ONLY.
All Other Fires	Includes—Outdoor Fires, such as Boats, Lumber Yards, & Machinery.
False Alarms	Includes—Mischievous and Maliciously False Alarms.
Accidental Alarms	Includes—Smoke Scares, Honest Mistakes, Wrong Locations, Sprinkler Troubles, & Accidental Alarms.
Emergency Calls	Includes—First-Aid, Accidents, Emergency Calls, Etc.
Out of the City	Includes—Out of the City Calls ONLY.
Deaths	Includes—Deaths among Firefighters and Civilians.

CAUSES OF FIRE — 1968

- 11 Acetylene and blow torch carelessness
- 14 Arcing wire
 - 1 Anti-freeze on motor
- 34 Burning food
 - 7 Burning with a permit
- 38 Burning without a permit
- 10 Carburetor backfire
 - 1 Careless use of candle
 - 5 Careless use of inflammables
 - 2 Careless use of matches
- 276 Careless smoking
- 262 Children with matches
 - 14 Combustibles in contact with stoves, etc.
- 62 Defective and faulty carburetors
- 11 Defective wiring
 - 7 Exposures
 - 2 Firecrackers
 - 2 Fumes ignited by sparks
 - 5 Hot ashes
 - 5 Leaking gas pipes
- 19 Leaking gasoline, oil or kerosene
 - 1 Lightning
 - 6 Overheated brake bands
 - 5 Overheated drying machines
- 11 Overheated gasoline or electric motors
 - 3 Overheated exhaust pipes
- 10 Overheated flatiron, electrical appliances
- 15 Overheated grease
 - 2 Overheated stoves, ovens or fireplaces
 - 5 Overheated stacks, pipes or chimneys
 - 4 Overheated fluorescent transformers
- 27 Overturned street flares
 - 2 Overturned lanterns
- 31 Oil burners
- 12 Rekindles
 - 3 Set by unknown persons
- 100 Short circuits
 - 43 Sparks from incinerators
 - 3 Sparks from stoves and fireplaces
 - 1 Spark from grinder
- 21 Sparks from chimney
 - 6 Spontaneous combustion
 - 1 Undetermined
 - 3 Under investigation
- 7 Wilful and malicious burning of property
- 2 Explosions
 - 1 Suspicious origin
 - 1 Broken hydraulic fuel line and duct in manufacturing plant
- 2 Vandalism

To His Honor, the Mayor and
Gentlemen of the City Council:

Pursuant to provisions of Section 28 Chapter 111 (Tercentenary Edition) of the General Laws, we herewith present to your honorable body the report of the activities of this department for the year ending December 31, 1968.

Respectfully submitted,

MANUEL F. SOUSA, M.D., Chairman

ALICE FRIAS

ARTHUR P. SANTOS

Board of Health

ADMINISTRATION

Alphege Landreville, Director of Public Health

Isaac H. Schwartz, M.D., Medical Officer

Mary E. Leahy, Head Clerk and Stenographer

Lorette C. Viens, Senior Clerk and Typist

Pauline Mercer, Senior Clerk and Typist

Judith A. Mendes, Junior Clerk and Typist

Stasia Brule, Junior Clerk and Typist

DENTAL CLINIC

Edward J. Mee, D.M.D., Director of Dental Division

Leonora G. Perry, R.N., Public Health Nurse

MILK AND FOODS

Alphege Landreville, Inspector of Milk and Provisions

Romuald A. Mailhot, Dairy Farm Inspector

Bernard G. Cambra, Supervising Laboratory Technician

Carol L. Galego, Laboratory Technician

PUBLIC HEALTH NURSING

Mary F. MacFarlane, R.N., Supervisor

Catherine L. Donohue, R.N., Evelyn S. Ponichtera, R.N.

Roberta T. Gorman, R.N. Frances S. Sokol, R.N.

Judith J. Hart, R.N. Lucille B. Trojak, R.N.

REFUSE DISPOSAL SYSTEM

Joseph W. Carreau, Supervisor
Joseph Gendron, Assistant Supervisor
Dorothy Cunha, Senior Clerk and Stenographer

SANITARY INSPECTION DIVISION

Francis J. Quinn, Sanitary Inspector
William E. Pendergrast, Sanitarian

TUBERCULOSIS CLINIC

Marcio M. Bueno, M.D., Physician
Mildred D. Murphy, R.N., Public Health Nurse
Charlotte M. Mitchell, R.N., Public Health Nurse
Robert B. Tweedie, Pharmacist
Cynthia A. Botelho, Junior Clerk and Stenographer
Thelma Gouveia, Junior Clerk and Typist

PEDIATRIC CLINIC PHYSICIAN

Bernard A. Portnoy, M.D.
Anne D. Saunders, M.D.

REPORT OF THE DIRECTOR OF PUBLIC HEALTH

As Director of Public Health, I wish to make a few comments concerning the evolution, if not the revolution, that is taking place in the approach to providing public health services to the people of this country by Congress having passed a Comprehensive Public Health Program in 1965 and 1966.

The goal of such a program is not only the prevention of sickness which has been largely a responsibility of health departments such as we carry out in New Bedford but now means the total health picture of the population. The prevention of illness as well as the care of the sick for many health departments means entering into a new field because this has largely been a responsibility of physicians and hospitals. It is now intended that the medical profession, hospitals and both public and private health agencies cooperate toward giving better health care to the people. This involves a task of tremendous magnitude.

In New Bedford the so-called Salisbury Report was presented in 1967, indicating some of the improvements that could be made in preventing duplication of services among the public and private health agencies. The planning by Model Cities is another area where health facilities are being programmed. This is also true with ONBOARD as well as Headstart and in schools where there are classes for non-English speaking children. All these programs are being planned contrary to the recommendations of the Salisbury Report and the intent of Congress when it passed laws recommending comprehensive public health planning programs. In other words, on the one hand we are providing an endless number of agencies to conduct public health functions and on the other hand we are bemoaning the fact that already fragmentation of public health services does not provide adequate protection to the people.

The foregoing problems are being pointed out at this time in the hope of clarifying the confusing picture which exists in attempting to carry out the intent of Congress.

Seven regions have already been established in Massachusetts which will constitute central locations from which will emanate public health programs for given areas in the State. In turn, these regions will probably be cut up into smaller areas to better service the communities contained therein.

The proposed plan for carrying out these services in Massachusetts will, of course, eliminate most of the geographical boundaries which now exist between cities and towns and will thus make available services to the small communities which they have never enjoyed before. It is to be hoped, however, that all of the agencies, federal, state and local, which are now going in their own separate ways to plan for public health services will not be a stumbling block to consolidating their efforts under regional planning.

While Congress envisioned a program of comprehensive public health planning for the entire nation could be instituted within a period of approximately five years it is the opinion of the writer that it will take from ten to fifteen years before such a plan operates smoothly. For this reason, a great deal of patience will have to go into the thinking on the part of both public and private agencies if we are to provide the highest quality of service for each and every citizen.

The Board of Health wishes to thank its personnel for their diligence in conducting the various programs of the department. It also wishes to thank Mayor Edward F. Harrington, members of the City Council, the Building, Police and School Departments and the private agencies which have in many ways contributed to the success of our activities.

ALPHEGE LANDREVILLE,
Director of Public Health

ANNUAL REPORT

OF THE

INSPECTOR OF WIRES

POLICE SIGNAL SYSTEM

STREET LIGHTS

TO THE CITY COUNCIL

For the Year 1968

BAKER PRINTING

1969

Annual Report

New Bedford, Massachusetts

July 8, 1969

To the City Council of the City of New Bedford:

Gentlemen:

I respectfully submit the annual reports for the departments of Inspector of Wires, Police Signal System and Street Lights for the year 1968.

During the year, I investigated and reported to the City Council on eighty five (85) petitions of the New Bedford Gas and Edison Light Company and the New England Telephone and Telegraph Company for pole and underground conduit installations.

There were two hundred ninety eight (298) inspections after fires. There is no doubt that some of these fires were caused by defective wiring such as overloaded circuits, the use of oversize fuses, misuse of electrical cords and by wiring done by unlicensed persons. The inspectors of this department are ever alert to electrical hazards and as a result of our work, potential fire hazards are corrected.

Included in the 5267 inspections made were the St. Luke's Hospital, Briarwood Development, 14 portable school houses, Industrial Park buildings, Cornell Dubilier (new distribution), Acushnet Process and the completion of Pine Hill Acres.

An ordinance will be sent to the City Council in 1969 relating to aluminum sidewall installations. Grounding is an important factor and the removal and re-installation of electrical conductors and fixtures on the exteriors of these buildings must be performed by only licensed electricians. As chairman of the Electrical Code Committee, I have held several meetings on this subject. Local installers, electricians and engineers from aluminum companies attended these meetings with the hope that a uniform code will be enacted. At the end of the year the proposed ordinance is 70% complete.

The annual Christmas Display was again set up on the Common. The following departments contributed their help to make the display a success: New Bedford Vocational High School, Art, Carpentry and Electrical Departments; Public Works, Fire, Police, Civil Defense, Water, Building, Park and the Police Signal Systems.

Mrs. Anna M. Jacintho was appointed temporary Clerk and Typist on May 13, 1968.

The following is a breakdown of the work completed this year:

2W receptacles	3593
3W receptacles	283
New buildings	50
110V motors	89
220V motors	160
440V motors	20
550V motors	9

Salaries and Wages	38,591.36
Pension	2,368.60
New Equipment	—
Christmas Decorations	4,870.96
Encumbered	711.10
Totals	<hr/> \$48,156.30

It will be necessary in the very near future to employ at least two additional inspectors and one office clerk to keep up with the work load. South Terminal new construction, new homes for the elderly, new housing and the new High School to be erected in the very near future will require additional help in this department.

POLICE SIGNAL SYSTEM

New traffic signals were installed at the following intersections:

Hathaway Road and Shawmut Avenue
Church Street and Tarkiln Hill Road
Church Street and Nash Road

Traffic Signals installed by the Commonwealth of Massachusetts at Coggeshall Street and Acushnet Avenue and Coggeshall Street and Ashley Blvd. were transferred to the Police Signal System.

The traffic signals at Ashley Blvd. and Dean Street were discontinued by an order from the Traffic Commission on May 31, 1968. They were ordered to be re-installed also by the Traffic Commission on July 1, 1968.

At the end of the year there were 32 intersections equipped with traffic signals with 7 more intersections to be added in 1969 upon completion of Phase #1 in the South Terminal area.

In the very near future, it will be necessary to employ at least 2 new Police Signal Electricians to keep abreast of the necessary maintainance of the system, not only traffic signals but the Police Box Call System. Daily inspections are made of each intersection to detect lamp burnouts and improper operation of the traffic signals.

With the installations of new and modern solid state controllers and other equipment, the Police Signal System will be forced to carry a much larger inventory for replacement purposes.

In January the Police Signal System vacated the Repair Shop and Garage at 36 South Second Street and

moved to temporary quarters in the old Water Department Shop at 213 North Water Street.

Besides our regular work, installations and repairs to electrical systems were performed for the following departments:

Police Department, Dept. of Public Works, Park Department and the Water Department. Band stands were wired and maintained for band concerts and special events. Trees were trimmed in all sections of the City where branches came into contact with Police Signal overhead lines.

The following is a breakdown of the work done by the Police Signal Electricians:

Station No. 5 - Repairs	4
Inspections	7
Station No. 1 - Repairs	33
Inspections	8
Police boxes - repaired	10
painted	12
Underground cables - repaired	22
Overhead Lines - repaired	38
Cross Arms - Changeovers	31
Traffic Lights - Repaired	273
Inspected	243
Painted	8

The operating expenses for the year were:

General Expenses	\$26,739.70
Salaries and Wages	17,174.17
New Equipment	—
Encumbered	3,943.32
	<hr/>
	\$47,857.19

STREET LIGHTING

New Mercury lighting in Phase #1 of the South Terminal Urban Renewal Project, as designed by your Superintendent of Street Lights was ordered by the Street Lights Committee.

Phase #2 lighting and lighting for the North Terminal are being designed and will be presented to the committee in 1969.

New lighting and increases to the existing lighting were ordered in all sections of the City. Surveys have been made in Dartmouth Street, Rockdale Avenue, Hathaway Road, Phillips Road, North Front Street and several other areas. An annual increase of at least \$10,000.00 in the Street Lights Budget will be required before a workable program can be set up for modernization of the street lights.

There were 47 - 1000 lumen lights increased to the 2500 lumen type. I hope to continue this program on a larger scale during the very near future.

At the end of the year there were 6034 street lights in operation in the City of New Bedford as follows:

1691 - 1,000 lumen O.H. Open	@ 23.76 per year
2052 - 2,500 lumen O.H. Open	@ 31.32 per year
281 - 2,500 O.H. Enclosed	@ 34.02 per year
926 - 2,500 lumen Post Top	@ 34.02 per year
8 - 2,500 lumen U.G. Open	@ 71.82 per year
43 - 2,500 lumen U.G. Encl.	@ 74.52 per year
1 - 2,500 lumen U.G. Encl. new loc.	@ 74.52 + 35.00 per year

INSPECTOR OF WIRES

80 - 4,000 lumen O.H. Encl.	@ 40.50 per year
59 - 4,000 lumen Post Top	@ 40.50 per year
65 - 4,000 lumen U.G. Encl.	@ 81.00 per year
1 - 4,000 lumen U.G. Encl. new loc.	81.00 per year — 35.00
93 - 6,000 lumen O.H. Encl.	@ 45.90 per year

ANNUAL REPORT

First Annual Report of the

MODEL CITIES ADMINISTRATION

For the

Year Ending 31 December 1968

LETTER OF TRANSMITTAL

31 December 1968

To: Honorable Edward F. Harrington, Mayor
and Honorable Members of the City Council

Gentlemen:

Attached herewith is our Annual Report for the year 1968, during which time the City began its planning for the Model Cities Program, in competition with over seventy other cities, in an effort to vastly improve the quality of urban life.

Mandates from our constituents, and Federal guidelines, require that our planning be comprehensive, carried out in concert with citizens and agencies alike, and lead to more expeditious and innovative solutions to existing problems.

At the end of this year, the planning phase of the program is only approximately half completed, but we are pleased with the progress made. With your continued encouragement and support, the City's Comprehensive Demonstration Program will be one of high quality and will be completed on schedule.

We are grateful for your assistance and look forward to the year ahead.

Sincerely,
Richard A. Pline
Director

ANNUAL REPORT

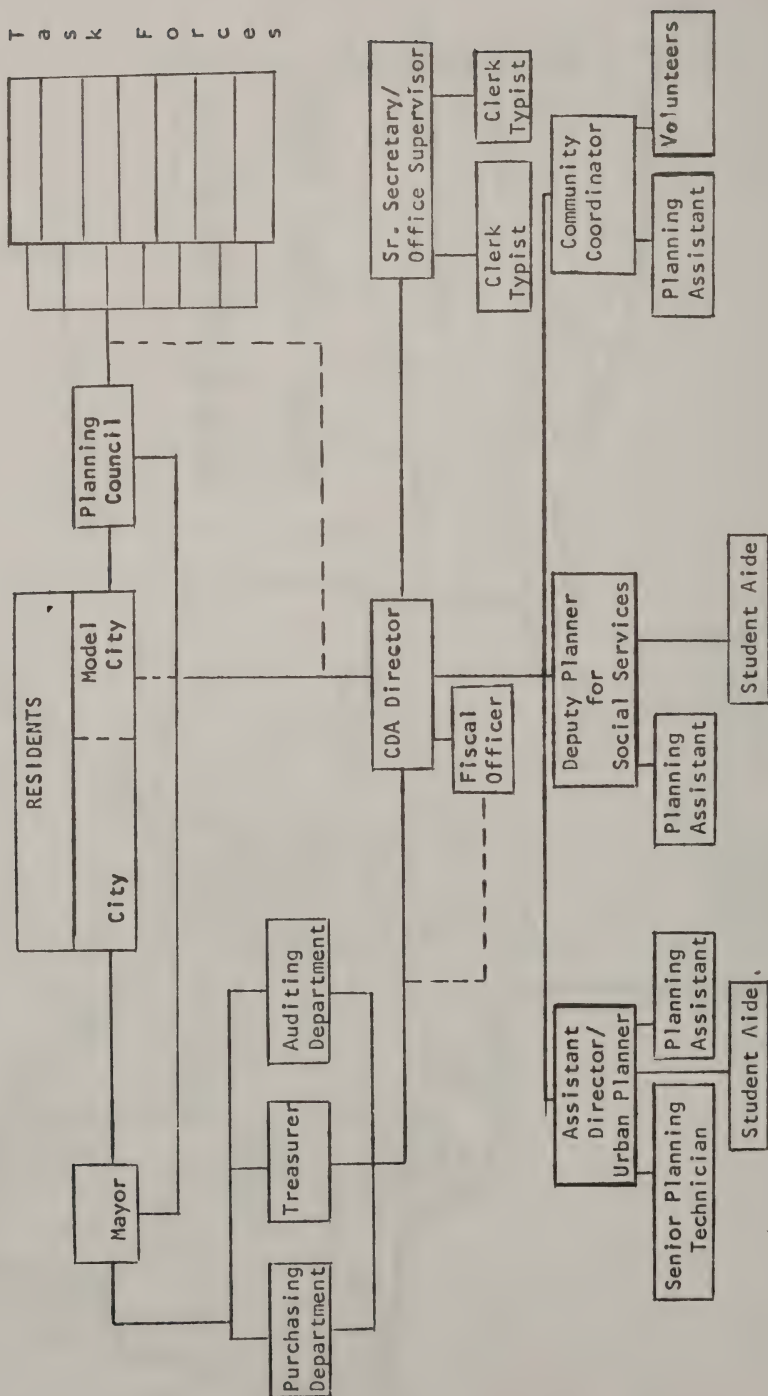

Model Cities Administration

New Bedford, Massachusetts

For the Year Ending 31 December 1968

CONTENTS

1. Model Neighborhood Area Map
2. Organization Chart
3. Members of the Model Cities Planning Council
4. Model Cities Administrative Staff
5. Narrative Report
6. Cost Control Statement
7. Statement of Financial Condition

3. MEMBERS OF THE MODEL CITIES
PLANNING COUNCIL *

(as of 31 December, 1968)

AREA 1

Alvaro Duarte Treasurer	209 Acushnet Avenue
Alice Fonseca	255 South Second Street
Edwin Livramento Chairman	526 Purchase Street
Cynthia Morris Secretary	283 Pleasant Street

AREA II

Charles Carmo	109 Nelson Street
Arthur DeMello	164 Blackmer Street

salary: \$1,040	
Barbara Lopes	Student Aide (Part-Time)
salary: \$1,040	
Margaret Lopes	Student Aide (Part-Time)
salary: \$1,040	

5. NARRATIVE REPORT

The City of New Bedford was approved for a Model Cities Planning Grant in March, 1968, several months after the majority of "first round cities". The original application for a Planning Grant was submitted by the City in April, 1967. The Model Cities Program is outlined in Federal Legislation called, "The Demonstration Cities and Metropolitan Development Act of 1966". The program is administered by the Federal Department of Housing and Urban Development (HUD).

The structure developed locally to administer the Model Cities Program is as follows:

The City recognized an elected Planning Council of twelve (12) members from the Model Neighborhood area (MNA) as the citizen's policy-making body. The Planning Council was elected in a "mini-election", supervised by the City Election Commission, on 27 February 1968.

The Planning Council prepared its own By-Laws, incorporated in the revised Work Program submitted to HUD in April, 1968, which gave the Planning Council final approval over all plans to be submitted to the City Council and the Mayor. It was decided during these actions by the City and the Planning Council, that new staff would work as the primary technical resource for the Planning Council. The Model Cities Administration is a branch of the Executive Department.

The purpose of the Model Cities Administration and the elected twelve member Planning Council, the Task Forces, and other citizen groups, is to respond to the problems of the Model Neighborhood Area by developing a Comprehensive Program which is scheduled to be executed over a five-year period to alleviate these problems by developing in-

notative solutions to them. While the Program is delegated to the City Government, there is a requirement for widespread citizen participation, and for dialogue between the City, its institutions, and the residents of the MNA.

The development of the Comprehensive Plan will be carried out over a number of months involving numerous meetings of Task Forces, Planning Council, neighborhood groups, and meetings with agencies and departments in the City. It is expected that the Comprehensive Plan will be completed and submitted to the New Bedford City Council during April, 1969.

The Model Neighborhood Area (MNA) contains approximately 15,850 people in the South Central and South portions of the City. It covers an area of 132 city blocks, or about 560 acres. It contains 5,614 dwelling units. The area is bounded roughly by School Street on the North, the South Terminal Renewal Area on the east to Potomska Street, then by the waterfront along the remainder of the eastern portion, to approximately the northern boundary of Hazelwood Park, then by the waterfront along Clarks Cove to Orchard Street, to Thompson Street, to County Street, back to School Street. The area is primarily residential in character, although it contains four strip commercial areas of neighborhood-oriented businesses. Industrial complexes are within the boundaries and are an integral part of the environment. Approximately one-third of the land area is used for residential and related purposes, with one-third developed for business and industrial purposes, and the remaining third being streets and highways or some undeveloped vacant land.

Some significant characteristics of the MNA are its ethnic mix and its increasing populations, mostly caused by immigration. Over half of MNA residents are of Portuguese descent, and represent a variety of Portuguese cultures. In addition, there are Cape Verdean and Puerto Rican

populations, and other recognizable ethnic groups are: French-Canadian, Polish, Afro-American, and English. There is generally a strong family structure and a good identity with the City and its institutions. The problems of the MNA have been well-documented in the City's initial application, and generally center on employment, housing, education, and recreation.

A Letter to Proceed was approved by the Department of Housing and Urban Development on 8 April, and the Planning Grant Contract on 21 June. In September the Planning Grant was amended, increasing the total program cost to \$160,812 including a \$32,162 local share. A total of \$25,000. in cash was supplied by the City toward the local share.

Other major steps were completed in stages as follows: April 1968; the Director began work. During June an office was established on West Rodney French Boulevard, and the Assistant Director and Urban Planner was hired. During June the Contract was signed with HUD and in July the Community Coordinator began work. In August the Social Planner was hired. Additional clerical staff was hired in the months between April and June. Additional staff consisting of a Fiscal Officer, three (3) Planning Assistants, and three (3) Student-Aides were hired during October and November, through an amendment to the Planning Grant which provided additional funds for these purposes.

To aid the Planning Council in involving more residents of the area and to develop plans for specific problem areas, several Task Forces were organized which will report their recommendations to the Planning Council for approval. The Task Forces are: Housing; Education; Recreation; Highway; Police-Community Relations; Youth; Health, Welfare, and Social Services; and Business, Manpower and Economic Development.

An additional form of assistance to the planning effort is a \$30,000.00 Federal share increase in the Community Renewal Program (CRP) which is being conducted by the City Planning Department. This amendment to the CRP will involve extensive survey work, both physical and social, which will further indicate problem areas in the MNA and compare such problems with other parts of the City.

One item of major concern to the Model Cities Program is a bill passed by the General Court, which exempts Model Cities Staffs in Massachusetts from the requirements of State Civil Service for a two year period ending 1 August 1970. Up to thirty (30) persons per staff will be exempt. Passage of this bill allowed greater freedom in hiring residents of the MNA and generally facilitated staffing of the program.

Assistance was provided to the Legislative Research Bureau in recommendations in areas relative to problems involved in conducting the Model Cities Program, and in outlining new legislation which would be helpful in developing new approaches to solving these problems.

A design contest was held to develop a symbol for use on all stationery, posters, and other printed information. Over seventy (70) entries were received and a three judge panel selected a winner and four honorable mentions. The contest attracted considerable interest. The winner, Mr. Philip Nichols, is an art student at the Swain School of Design.

The first of several planned briefings was held with the New Bedford City Council on 16 December. This was a joint meeting with the Planning Council and staff. The City Council was advised of progress of the planning effort to date, as well as objectives and general approaches in several areas of major concern.

Beginning in December, Issue Papers, prepared by the staff in cooperation with the Task Forces and Planning Council, were discussed in several workshops with the Planning Council. Issue Papers dealt with specific problem areas such as education and housing, and were drafted so as to develop detailed dialogue on basic problems in the MNA. When these Papers are fully discussed, they will be redrafted and combined with updated data to form the basis for Part I of the Comprehensive Plan, which is known as the Problem Analysis. From this will be developed goals and objectives and general program approaches. Part II of the Plan will then outline, for the stated goals and objectives, fiscal needs for the five-year execution period, Part III will detail the projects and activities proposed to meet the goals and objectives of Part II, and propose the cost and administrative structures to carry on this work for the first action year.

While the planning effort as of the date of this report, has only begun, several major areas have been identified for concentration, and brief statements concerning these areas are as follows:

1. The Model Cities Administration is participating in a broad interagency effort to deal with certain crisis situations which various families have had regarding finding adequate housing. Some of the problems encountered by such families have to do with lack of available housing and need for social services.
2. Discussions have been held regarding the coordination and concentration of certain social services in the MNA with a view toward developing a Multi-Service Center.
3. The extension of the JFK waterfront arterial highway has been discussed by reviewing the proposed route outlined in the Master Plan for 1980, and examining possible alternate routes which might assist

in the redevelopment of the South Water Street Area. The extension of the highway would not be a Model Cities activity, and probably would not occur for possibly five to ten years from the present date, but adequate planning must be done in order to coordinate other action programs.

4. The Housing Task Force has identified an area in the northern portion of the MNA, adjacent to the South Terminal Renewal Area, as a site for a limited renewal program where new housing could be constructed first without demolishing inhabited structures.
5. The Education Task Force has defined a number of areas of concern, including initial adjustment of children to school, a very high failure rate in the early grades, precipitating a high dropout rate at the secondary level, and curriculum development. Examination of the older physical facilities is continuing and will be related to a proposal to relieve racial imbalance which exists in three (3) of the six(6) elementary schools. A consultant has been selected to assist in the analysis of educational problems in the MNA, and to propose solutions and alternatives.
6. It has been found that MNA residents are in need of counselling services related to housing, which would include information on existing and future programs, as well as financing, housekeeping, budgeting, and access to information on rehabilitation. Consideration is being given to the establishment of a counselling and financial assistance center which could provide these services to all MNA residents.
7. The Recreation Task Force has focused attention on land known as the Standard-Times Field, where physical improvements and additional supervision would assist in completing efforts to make this a community recreation area.

8. Efforts are being made to study the needs of new and developing businesses in the Rivet and County Street areas, and to provide for the improvement and renovation of the South Water Street area. In addition, recent problems in the fishing industry have led the Business, Manpower, and Economic Development Task Force to consider what studies or programs might be of assistance in strengthening this industry.
9. The Police-Community Relations Task Force is planning a pilot program in police-community relations to develop dialogue between members of the Police Department and residents of the MNA.

The Department of Housing and Urban Development has notified the City that the original target figure of approximately \$1,205,000 for supplemental funds to execute the first year of the Program will be increased to \$2,109,000. This figure is not a reservation or a commitment, but is a planning figure so as to assist the City in developing projects and activities for the first year.

As of this time, analysis of the original planning schedule indicates that the planning efforts are on target and that good progress is being made.

CITY OF NEW BEDFORD
BOARD OF PARK COMMISSIONERS

December 31, 1968

To the Honorable City Council:

Gentlemen:

The Seventy-fifth Annual Report of the Board of Park Commissioner on Parks together with reports on Bath Houses, Playgrounds and Militia under the control of this Board is herewith presented in accordance with provisions of law for the fiscal year ending December 31, 1968.

The Board held eleven regular meetings and four special meetings during the year. They organized in May, 1967, for the ensuing year and elected Harrie W. Johnston as chairman and Manuel P. S. Macedo, secretary. William Smith, Carl R. Anderson, Frank Vieira and Mr. Macedo continued to serve as hold-overs as Mayor Edward F. Harrington did not appoint replacements.

The 1967 Brooklawn Park Concession permit held by John W. Clauretie was extended for the month of May, 1968, at one twelve (1/12) of the present yearly rental, which amounted to Ten Dollars and 42/100 (\$10.42) due to the late advertising of the department. There were no bidders for the refreshment concession at Brooklawn Park for the 1968 season.

Lloyd B. Miller of 1598 Purchase Street was awarded the Buttonwood Park concession for one year, beginning June 1, 1968, and ending on May 31, 1969, for his bid of Two Thousand Five Hundred and fifteen Dollars (\$2,515.) The only other bidder was Mr. Clauretie of 546 County Street who submitted a bid of \$2,250.00.

The renewal of a lease for the rental of a house at 521 Hathaway Road was granted to Stanley A. Brown for four years commencing January 1, 1969 and ending December 31, 1972. Mr. Brown will pay \$240.00 annual rental to the City plus water bills, taxes on the house and provide a \$5,000 fire insurance policy.

The care, custody and control of city-owned property lots, located on Almy, Everett and Elwood Streets between Route 140 and Acushnet Avenue; Plat 134, Lots 55 through 70, inc., Lots 83 through 91, inc., Lots, 109, 101, 114, 115, 116 and Lots 139 through Lots 143, inc., were transferred from the jurisdiction of the Committee on City Property to the Park Board for recreational purposes.

The care, custody and control of city-owned property located on Rodney French Boulevard East at the foot of Butler Street Plat 12, Lot 216, waterfront property on the East side of Rodney French Boulevard at the intersection of a 24-foot way, was transferred from the jurisdiction of the Committee on City Property to the Park Department for recreational purposes.

A memorial plaque was erected at the base of a flag pole in the center field of the #4 Little League Diamond in Brooklawn Park for Marine Corporal Robert R. Gonneville, a 19-year old youth killed November, 1967, in Vietnam. The cost of the flag pole was absorbed by the Private Poirier Post and State Representatives J. Louis LeBlanc and Donald R. Gaudette.

The New Bedford Jaycees formed a Zoological Society named "The Greater New Bedford Zoological Society" for the primary purpose of improving and benefiting the But-tonwood Park Zoo. They have undertaken the appropriation of fund-collection from industry and the citizens in the greater New Bedford area for construction of an all-

purpose building in Buttonwood Park Zoo to house ten or more species of animals year round. The Jaycees also purchased tranquillizer equipment and eight coin-operated animal vending machines which were installed in the Buttonwood Park Zoo area.

The first annual field and fair day sponsored by the New Bedford Zoological Society was held September 1 and 2 at Buttonwood Park. The \$2,500 proceeds from the two-day event went toward the society's building fund.

The Greater New Bedford Society for Handicapped Children, Inc. of 195 West Rodney French Boulevard were granted permission to blacktop the frontage of the Center at the Boulevard address from the cement walk to the public highway. The Department of Public Works undertook the project without cost to the Center or the Park Department.

The D. W. White Construction Company, Inc., of 867 Middle Road, Acushnet, Massachusetts, was awarded the contract to excavate, fill and grade the Robert J. Lawler Field. They were the only bidders at \$3,450.00.

The New Bedford Civil Defense was granted use of Marine Park on May 5 for the purpose of setting a display of emergency vehicles and equipment to commemorate Civil Defense week.

The area around the Buttonwood Park Bear Den was named Oliver Circle after a former Zoo Caretaker, Manuel Oliver, who died January 29, 1968.

The Board of Election Commissioners were granted use of Brooklawn Park Warming House as a polling place for the Presidential Election on April 30, the State Primary on September 17 and the State Election on November 5, 1968.

The 1968 Committee of the Feast of the Blessed Sacrament was granted use of the Riverside Playground at the corner of Belleville and Coffin Avenues on August 2, 3 and 4 for the purpose of a fireworks display.

Post 1, American Legion Whalers Senior Drum and Bugle Corps were granted use of Marine Park every Tuesday and Thursday for rehearsals.

The New Bedford High School ROTC was granted permission to hold their Annual Field Day Exercises at Buttonwood Park from 1-3 P.M. on May 31.

Appropriations and expenditures for the entire year are shown in the various tables incorporated in this report.

The Board of Park Commissioners thanks the Mayor and the City Council for their interest and encouragement and also thanks the heads of the city departments who contributed in any way to make the work of the Park Department a success.

Respectfully submitted,

HARRIE W. JOHNSTON, Chairman

MANUEL P. S. MACEDO, Secretary

WILLIAM SMITH

December 31, 1968

To the Honorable Board of Park Commissioners:

Gentlemen:

Herewith is submitted the Annual Report of the Park Department and its subdivisions for the year 1968.

As in the past it has been the aim this year to make as many permanent improvements to park properties and buildings as our finances would permit. Progress was made as follows:

At Victory Park, the skating area was drained and graded; and fences surrounding the Warming House were repaired and painted.

At Hazelwood Park anchor fencing was installed around the Bowling Green. Benches and picnic tables were painted and repaired. Playground equipment was also repaired and replaced. One Hundred seventy-five trees and 8 flowering shrubs were planted. One National Mower was acquired for the Park and Dike maintenance. Holes caused by erosion and tides in the seawall on the west side of Hazelwood Park were repaired, and a cement stairway was built from the seawall to the beach area. Restrooms in the stone-house were also painted and repaired.

A new anchor fence was installed around Beauregard Park, and six maple trees were planted in this area. Also, benches and playground equipment were painted and repaired.

All benches and playground equipment were painted at Ashley Park.

At Buttonwood Park two cement block buildings were erected for the deer and aoudads. These buildings replaced the wooden frames which had completely deteriorated. New cages and a cement platform were erected for the wolf and racoons, and additional bars were welded around the elephant area to keep the animal confined. Two donkey carts and a travel cage were built to transport animals for display. Three hundred young evergreens were planted

around the Buttonwood Pond area and Buttonwood rest-rooms in the Warming House were painted and repaired.

Stone dust was purchased and ball diamonds were maintained satisfactory in all parks and playgrounds.

A tot-lot was built by the Park Department on Elm between Cottage and Cedar Streets. Playground equipment was installed.

The Clarence W. Arey Memorial Bandshell was completely painted inside and out.

The department participated in the annual Spring Flower Show of the Kiwanis Club of New Bedford at Lincoln Park.

Thirty varied decorative species of trees were planted at the Common Park and numerous evergreens and shrubs were planted for the beautification of Marine Park.

At Brooklawn Park a wooden fence was installed around the Kiddie Coral Tot-Lot, to be opened in the spring of 1969.

The bleachers were painted grey and a new open air shower was installed near the duck pond for the children.

The Lawler Field playground was started. The playground bowl was constructed, limed, fertilized and seeded. Two hundred fifty evergreens and three hundred shrubs were planted in the area.

Four hundred fifty pine seedlings were planted in Brooklawn Park plus twenty-five deciduous trees and thirty-three flowering shrubs.

To the members of the Park Board, the employees of the Park Department and various Departments heads, I wish to extend my thanks for the co-operation given to me during the year.

Respectfully submitted,
HARRY J. WAREING,
Superintendent of Parks

RIFLE RANGE

The New Bedford Rifle Range facilities from April to October, 1968 were constantly used by the military. Prior to induction for active duty, the 211th Artillery Army National Guard Battalion conducted proficient small arms firing at the range. Also, in scheduled, organized, and instructed groups, personnel of the following military organizations: 489th Engineer Battalion, U. S. Army Reserve, 3 U. S. Naval and 2 U. S. Coast Guard components were familiarized, trained, and qualified in the use of small arms.

Local police departments held classes on the various usages of the weapons in their arsenals. Boy Scouts with their adult instructors on two occasions had classes of instruction and competitive rifle matches. Civilians holding range permits were at the range daily when weather was conducive to good shooting.

Customary maintenance was carried out as usual and the repairs of target racks was a necessity this year due to usage.

Respectfully submitted,
ARTHUR LEE, SMC. USN, Retired
Range Control Officer

FORTY-FOURTH ANNUAL REPORT

OF THE

PLANNING BOARD

NEW BEDFORD, MASSACHUSETTS

For the Year 1968

**BAKER PRINTING
NEW BEDFORD, MASS.**

1969

PLANNING BOARD

PLANNING BOARD REPORT

City of New Bedford

February 18, 1969

To the City Council of the City of New Bedford.

Gentlemen:

The Planning Board submits its Annual Report for the year ending December 31, 1968.

Six meetings were held during the past year for the purpose of holding hearings on changes on the zoning map. Twelve petitions for proposed zoning changes and three ordinances were received for consideration by the Planning Board.

A summary of the cases with the action of the Board therein is set forth in the following table.

EDMUND J. TOOMEY,

Secretary

**Granted Conditionally*

PETITIONS FOR ZONING CHANGES — 1968

<i>Location</i>	<i>From</i>	<i>To</i>	<i>Recommendation by Board</i>	<i>Date of Meeting</i>
1. A certain parcel of land, Plot 123, lot 40, as it appears on the Assessors Plots of the City of New Bedford.	Residence B	Business	Granted*	February 26, 1968
2. 85' north of Staron Street between Church Street and Phillips Road, Plot 132 Balance of lot 482 to the depth of the lot. Amended: All the land in the block bounded by Church and Staron Streets and Phillips Road.	Industrial A Residence B Business	Residence A	Granted only Plot 132 B Lots 4, 5, 6, 7, 8 & 9	February 26, 1968
3. Certain parcels of land to include that part of lot 249 on Plot 130C, Lot 248 on the same plot, the remaining part of Lot 683 on said plot, and Lots 22, 23 and 24 on Plot 130B.	Residence B	Business	Granted	February 26, 1968
4. The block bounded by Harwich, Dawson Streets and Belleville Avenue, down to Belleville Avenue, to include the rest of lot #12 on Plat #119.	Residence B	Business	Tabled Granted	April 22, 1968 ; May 27, 1968
5. That the existing Business zone at the northwest corner of County Street and Morgan Street be extended westerly on Morgan Street to include Plot 52 Lot 326.	Residence A	Business	Granted	April 22, 1968

6.	East side of Shawmut Avenue from present location near Airport south to Nash Road.	Residence B	Industrial A	Withdrawn	April 22, 1968
7.	All the land east of Shawmut Avenue, north of Nash Road, south of the Airport and south of the cemetery, and west of Mount Pleasant Street with the exception of Plot 123, Lot 15, the Sacred Heart Cemetery.	Residence B	Industrial A	Granted	May 22, 1968
8.	That the zoning ordinance of the City of New Bedford be amended to provide that any and all territory henceforth annexed to the municipality be immediately and automatically classified as Residence A and that the zoning ordinance map be amended to conform with said classification.			Granted*	August 12, 1968

Amended as follows:

"That the zoning ordinance of the City of New Bedford be amended to provide that any and all land of premises hereafter so conveyed as to vest title in the City of New Bedford shall, if previously unzoned, zoned as a non-conforming use, or already zoned as residential district (A, B, or C) retain its residential zone classification, or be immediately and auto-

<p>9. matically classified as 'Residence A' and that the zoning ordinance map, upon acquisition of such title, be amended to conform with said classification."</p> <p>Sec. 2. This ordinance shall not apply to land and premises acquired by the City by virtue of tax title proceedings, nor to any such land and premises zoned "Business" or "Industrial "A," "B", or "C" at the time of acquisition.</p> <p>That a two hundred foot (200') strip of land on the west side of Phillips Road, from the New Bedford Gas and Edison Light Company easement southerly to land of Palmeda Sylvia now zoned for Residence B and Business, be rezoned for Industrial C use. Said land is shown on the New Bedford Assessors Plans as Plat 132, Lot 2, and Plat 134, Lots 5, 6, 7 and 9.</p>	Residence B & Business	Industrial C	Denied	August 12, 1968
<p>10. Resolution by the New Bedford Planning Board approving the establishment of an Urban Redevelopment Corporation in accordance with</p>			Granted	August 12, 1968

Chapter 121A, the General Laws of the Commonwealth.

Whereas, the Planning Board has been requested by the Mayor of the City of New Bedford to hold a public hearing concerning the petition of Harborview Towers to establish an urban redevelopment corporation in accordance with the provisions of Chapter 121A, and the General Laws of the Commonwealth; and whereas, Harborview Towers intends to construct improvements on land located in the South Terminal Urban Renewal area and Whereas, the City Council of the City of New Bedford on December 12, 1963 approved a resolution authorizing the New Bedford Redevelopment Authority to file a survey and planning application for the South Terminal Urban Renewal Project Area and declared said project area as substandard and decadent; and Whereas, the planning Board of the City of New Bedford on April 14, 1965 adopted a resolution approving the South Terminal Urban Renewal Project and again on August 18, 1967 approved an amendment, thereto; and Whereas the City Council of the City of New Bedford on May 28, 1965 adopted a

PETITIONS FOR ZONING CHANGES — 1968

<i>Location</i>	<i>From</i>	<i>To</i>	<i>Recommendation by Board</i>	<i>Date of Meeting</i>
-----------------	-------------	-----------	--------------------------------	------------------------

resolution approving the South Terminal Urban Renewal Plan and entered into a Corporation agreement with the New Bedford Redevelopment Authority to carry out said urban renewal plan; and Whereas the Planning Board on April 18, 1967 adopted a resolution stating that the proposed redevelopment of the South Terminal Urban Renewal Project area Conforms to the Master Plan for 1980 and the Central Area contained, therein and resolved that the carrying out of the South Terminal Urban Renewal Project would be in the best interest of the City of New Bedford.

Now Therefore Be It Resolved by the Planning Board of the City of New Bedford that:

1. The Planning Board hereby reaffirms its finding that the South Terminal Urban Renewal Project Area is a blighted, substandard and decadent area; 2. The Planning

Board hereby reaffirms its findings that the development proposed by the Harborview Towers as described in its application is in conformance with the Master Plan for 1980 and the Central Area Plan contained therein; 3. The Planning Board reaffirms its finding that the subject project would not be detrimental to the best interest of the public, or the City or to the public safety and convenience and is consistent with the development plans for the City of New Bedford as outlined in the South Terminal Urban Renewal Plan; 4. The Planning Board reaffirms its findings that the project will constitute a public benefit in that standard housing units will be made available for the benefit of the citizens of New Bedford; 5. That the Planning Board hereby directs its clerk to notify the Mayor of New Bedford as to these findings and the discussions concerning the establishment of an urban redevelopment corporation; 6. The Planning Board hereby approves of the establishment of an urban development corporation in accordance with the provisions of Chapter 121A, the General Laws of the Commonwealth and in accordance with the petition and application of Harborview Towers.

PETITIONS FOR ZONING CHANGES — 1968

<i>Location</i>	<i>From</i>	<i>To</i>	<i>Recommendation by Board</i>	<i>Date of Meeting</i>
11. That land now zoned other than business and bounded by Samoset Street on the north there measuring 258.34 feet; on the east by Lots 445 and 233 on Plat 132 of the Plans of Assessors of the City of New Bedford, there measuring 185.25 feet, more or less; on the south by Pequot Street, a private way, there measuring 341.49 feet; and on the west by Avery Street there measuring 173.76 feet be rezoned to business.	Residence B	Business	Denied	August 26, 1968
12. Report "Zoning of New Bedford, Mass."			Accepted	August 26, 1968
13. That the property presently zoned Residence B and located at number 11 Robeson and the south side of Hazard Street, New Bedford, more particularly described as Plot 71 Lots 322, 323 and 324 on the assessing maps of the City of New Bedford be rezoned to Business. FORTY-THIRD ANNUAL REPORT
OF THE
BOARD OF APPEALS

NEW BEDFORD, MASSACHUSETTS

For the Year 1968

BOARD OF APPEALS

City of New Bedford

February 18, 1969

To the City Council of the City of New Bedford.

Gentlemen :

The Board of Appeals submits its Annual Report for the year ending December 31, 1968.

Meetings were held on the first and third Wednesdays of each month except when there were no appeals.

Twenty-two appeals, under the Zoning Ordinance were received for consideration during the year. Nine of these appeals were granted, one was denied, and seven were granted conditionally, three were withdrawn and two were dismissed.

A summary of the cases, with the action of the Board is set forth in the following table.

EMERIC H. CHENEL,

Clerk

**Granted Conditionally*

REMARKS AND RECOMMENDATIONS

Set out below is equipment and apparatus acquired in 1968 which will facilitate the expediency and increase the efficiency of the Police Department. The Office of the Chief of Police is ever alert to adopt new practices which will strengthen the security of our citizens and upgrade the protection of all people in our community.

During the year 1968 there were six (6) retirements: one (1) Lieutenant, one (1) Sergeant, and four (4) Patrolmen. Four (4) active Patrolmen, one (1) retired Acting Chief, six (6) retired Patrolmen, and one (1) retired civilian employee died. Three (3) Lieutenants, three (3) Patrolmen, and one civilian employee resigned.

Ten patrolmen and one police matron were appointed. Six Sergeants were promoted to Lieutenant and nine (9) patrolmen were appointed to Sergeant.

Five patrolmen (new appointees) attended The Brockton Police Academy for a six-week basic course in accordance with Mass. G.L. Chap. 504 of the Acts of 1967. Twelve Ranking and Superior Officers attended seminars and classes in different categories of Police Duty at eight separate schools.

A safe to secure valuables and evidence for the Detective Division was bought and placed therein.

Because of the increased traffic in narcotics, a narcotic analysis kit was obtained to make tests, on the job, before the evidence is sent to the Mass. Dept. of Public Health.

A photo dryer was purchased to replace a smaller model which had become inadequate for our work load.

Eight new Ford Police Special Patrol Cars were put into service to replace eight motor vehicles with speedometer readings of 80,000 to over 100,000 miles.

Charging a fee (\$2.00) for the taking of finger-

prints was instituted by the Identification Bureau.

In order to maintain the best of police services to the public, it is respectfully recommended that the following suggestions be adopted in 1969.

Acquire an Oil Burning Furnace to replace a coal burning furnace which is approximately fifty years old. The oil burning furnace would supplement another oil burning furnace now being operated in conjunction with the coal burning furnace. Both furnaces are over-taxed. The acquisition of another oil burning furnace would make it possible to institute a two-zone heating system. This would provide uniform heat throughout the building, causing a decrease in the consumption of oil thereby creating a savings in the cost of heating Police Headquarters.

Install aluminum railings on the Spring Street side and on the Second Street side of Police Headquarters on the outside stairways leading into the building. This is recommended as a safety measure for the protection of the public.

Eight motor vehicles for patrol duty. Six sedans and two station wagons to replace the same number and type of motor vehicles.

An ambulance to replace the 1960 Chevrolet at Police Headquarters. As of November 8, 1969 this vehicle had a speedometer reading of 97,000, is operating with a rebuilt engine and the general condition of the body of the ambulance is dilapidated.

A four-wheel drive pick-up truck to replace a 1956 Ford ½-ton pick-up truck. This vehicle has a speedometer reading of 69,000, is operating with a rebuilt motor and the body is deteriorating.

Two new desks to replace two old metal desks that have been in use approximately thirty-five years. Friction caused by rolling the tops open and shut creates metal dust which finds its way about the desk and over any object thereon.

Two electric typewriters are requested.

Eight (8) hand manual resuscitators for first aid to be carried in patrol cars. Civic organizations have donated six (6). Eight would allow all patrol cars, 10 plus 2 spares, and the two ambulances to be supplied with one each.

For in-service training it is respectfully requested that \$1000. be allocated.

More equipment is recommended to be added to the police arsenal for the protection of the public and the safety of our police officers.

Let me say I am grateful to His Honor, Mayor Edward F. Harrington, and to the members of our City Council for their cooperation in all matters of mutual concern. Without their interest in law enforcement and their efforts to minimize and curtail incidents relative to Crime, we of the Police Department would be lacking in much of the knowledge and equipment needed to enforce the laws in a competent and vigorous manner. Every year we have been fortunate to have the assistance of many city departments. Our appreciation goes out to these Departments and their executives for the help they have extended to us over the years. To the radio, television and the newspaper media we are thankful for your understanding of conditions where discretion and secrecy are essential to the ultimate success of a criminal situation and we are thankful for the occasions when your media through its facilities has been responsible for the solution of a crime or the apprehension of a criminal. The general public of New Bedford is our greatest concern. By our diligent performance of duty we hope to continue the good public relations we have enjoyed with our residents over the past several years.

THOMAS F. CAWLEY,

Chief of Police

TFC/a

ANNUAL REPORT

Chief of Police of the City of New Bedford, Massachusetts, for the year ending December 31, 1968.

OF THE

CITY PURCHASING

DEPARTMENT

CITY OF NEW BEDFORD

MASSACHUSETTS

For the Year 1968

Reynolds-DeWalt Printing, Inc.

1969

December 31, 1968

The Honorable Mayor and City Council
City of New Bedford
New Bedford, Massachusetts

Gentlemen:

We have the pleasure of submitting to you our report for year 1968.

We have continued to work closely with all of the City departments in an effort to effect for them every saving possible. Their cooperation has been excellent. We are also grateful for your continued support and cooperation in our endeavors to improve our system of operation and methods of procurement.

Your continued confidence in this Department and full support have provided the incentive for our accomplishments.

Respectfully submitted,

Fernando P. Cruz,
Purchasing Agent

**CITY OF NEW BEDFORD, MASSACHUSETTS
PURCHASING DEPARTMENT**

REPORT OF THE PURCHASING DEPARTMENT - 1968

The work of the Purchasing Department during 1968, the twelfth full year of its operation, is summarized in the schedules of Requisitions, Purchase Orders and Contracts listed on the following pages.

The operating expense for 1968 follows:

Salaries & Wages	\$17,388.64
General Expenses	<u>2,634.68</u>
	\$20,023.32

In 1968 69,522 Xerox copies were made for all City departments.

1968

MISS MARY A. KENEALLY
Assistant Superintendent
Elementary Education

Office of
Superintendent of Schools
New Bedford, Mass.

December 27, 1968

Honorable School Committee
New Bedford, Massachusetts

Mrs. Ferreira and Gentlemen:

In accordance with the laws of the Commonwealth and the adopted policy of the New Bedford School Committee, I have the honor of submitting my eighth annual report as Superintendent and the one hundred and eighth annual report of the New Bedford Public Schools.

Strict and factual listing of events in chronological order does have the value of keeping the record accurate for future reference but it does not indicate the months of preparation, study and effort which most often precede the actual occurrence of an event. This year a combination of both description and listing will be given.

January — This month was marked with considerable absenteeism on the part of both pupils and teachers due to illness. The new accounting machine, Burroughs E-4000, was installed and by February it was programmed for the first financial statement. This fulfills a long felt need, namely, to have presented not only a cash balance obtained by subtracting bills paid from appropriations but a net balance which takes into consideration funds encumbered by either contracts or orders.

Neil Fitzgerald, teacher of English at Roosevelt Junior High School, was presented with the Award of Teacher of the Year for Massachusetts by the Governor, the Commissioner of Education and the New Bedford School Committee. His recognition was based on not only his devotion to helping the disadvantaged student but his success in doing so.

After the Christmas vacation, a sharp increase in numbers enrolled in the Non-English Speaking Project was noted and it became necessary to place some classes

on double shift. It was at this time the need for additional space in September was predicted and the prediction came true.

The 1968 budget was presented and approved by the School Committee with an increase for certified personnel holding a master's degree, Master's plus 30 semester hours, Certificate of Advanced Graduate Specialization and the Doctorate. Also authorized were the following additional personnel:

- 1 Assistant Principal — Ottiwell School
- 1 teacher — Normandin Junior High School
- 1 teacher — N. B. High School
- 1 remedial reading teacher
- 1 art teacher
- 3 custodians
- 1 clerk

It was noted at the time of budget presentation that General Expenses would be in the "red" by December but that a transfer of funds could be accomplished. This prediction came true.

February — A report of progress was sent to Dr. Thomas Curtin, Deputy Commissioner of Education, describing the efforts made by New Bedford to correct racial imbalance. Two schools were still imbalanced but the voluntary pupil transfer program has been increased to include the Cook School as a sending school. Work with the Model Cities Project and a Westend Project is being pursued with the objective of a permanent solution to the problem which the schools inherit from housing patterns.

February also marked the presentation to the School Committee of ten alternate sets of plans for a new comprehensive high school. After a public showing of these plans on slides and much discussion during subsequent hearings, on March 29, 1968, the School Committee voted to authorize the architect to proceed with preliminary plans using Scheme #10 as a basis.

March — For the first time the City Council cut the Public School's operating budget. The cut of \$25,000 was restored by vote of the City Council after the Superintendent, authorized by the School Committee, explained

the urgency of this money for the installation of oil burners in the schools.

Upon notification that New Bedford was a successful applicant for a Model Cities Project the Superintendent attended a three day workshop in Washington, D. C. to become familiar with the criteria of the educational component of the application. Close cooperation and work with Model Cities personnel has continued throughout the following months.

April — Project COD (Center for Organization and Development) was initiated by the appointment of Gerald Johnson as Director. This is a Title III ESEA Project designed to provide a resource center for 22 communities in Southeastern Massachusetts with New Bedford as the sponsoring agency. Curriculum development on both the secondary level and the elementary level was envisioned and is taking place.

As a result of an Advisory Committee formed earlier, Dr. George Michael and his staff from the Massachusetts Department of Public Health, Division of Food and Drugs, came to New Bedford with a program concerning drugs and their abuses. The program, still continuing, consists of films and discussion materials designed to vividly demonstrate the dangers of the drug habit.

May — On May 10, 1968, the School Committee awarded the contract for the installation of oil burners in the remaining seven coal-burning schools. This completes the modernization of all heating plants and allows a 40-hour work week to become feasible.

An agreement between the New Bedford School Committee and the American Federation of State, County and Municipal Employees, AFL-CIO, State Council 41, Local 641 was signed on May 29, 1968. This was the first contract signed by the School Committee with Civil Service personnel and culminated many months of negotiations.

This month also was the month when an agreement was reached with state officials to fund the Perceptually Handicapped Program with \$42,000 from Title I of ESEA and \$50,000 from Title VI of ESEA. The discussions also included a warning that next year the money for this project must come from local sources to be reimbursed at 50% under the state project which was recently authorized by a newly adopted state law.

June — School Committee gave tentative approval to preliminary plans for a new high school. These plans detailed more of the features than previously shown and it was agreed that they should be presented to School Building Assistance Bureau for approval.

School ended for the pupils this year on June 14th giving them an 11-week vacation. This ending of school when the 180th day of instruction was completed was in accordance with the new terms in the teachers' contract.

The Principals' Association voting separately from the Teachers' Association accepted a \$450 raise as of September 1968 while the same offer was rejected by the New Bedford Teachers' Association. The results of a fact finder's report were not accepted by the School Committee although they were agreeable to the NBTA. The time for setting the tax rate passed and no agreement was reached with the teachers. Hence, no pay raises were included in a supplementary budget which had been submitted to take care of raises for Civil Service personnel, Principals and administrative personnel not covered by contracts.

With 14 classes on double sessions and an ever increasing number of immigrants, from the Azores especially, it was decided to lease 14 relocatables on a three year basis with option to buy for \$1.00 at the end of the lease. The project for the perceptually handicapped child was voted to be housed in the Ashley School rather than renting space in a private school. Bids were solicited and action taken to accomplish this took place during July and August.

Upon petition of parents of children attending the Greene School the School Committee voted to continue the school in operation for one more year. Closing of the school was under consideration because enrollment had dropped to 103 pupils and it was racially imbalanced.

July — On July 3rd plans for the high school were inspected in New Bedford by officials from Boston and on July 17, 1968 the written official approval was received. The architect was authorized now to proceed into the final drawing stages including the site preparation.

August — Both months of July and August were months of heavy maintenance work, sub-dividing spaces so as to obtain needed classrooms, major overhaul of motors, painting and replacements of glass. This last item

was purposely left until the last few weeks because the vandalism this year for glass replacement alone cost \$15,000 in comparison with \$5,000 for the year 1967. The constant use of the buildings during the summer with close to 3,000 students in summer school or projects of some kind contradicts the often heard statement that our buildings "lie idle for most of the year."

September — Recruitment of teachers continued without stopping during the summer months and the predictions of crowding at the Campbell School and in the Non-English Program proved correct when school opened.

On September 16, 1968, approximately 400 teachers did not report for duty in protest, according to their communication, for the failure of the School Committee to act. Only seven of the 31 schools were in operation that day while the majority of the teachers met to consider the status of contract negotiations. Acting for the School Committee, the City Solicitor obtained a court injunction and all schools were operating the next day.

Both Model City Agency personnel and personnel from Project COD began their curriculum development work in earnest shortly after the opening of school. Both are still continuing in their respective areas of development. Involvement of both professionals and citizens from other than educational fields are characteristic of both efforts.

The first week of school was marked by a successful workshop for Grade One teachers. Introduced were the new approaches to the teaching of reading utilizing a more phonetic approach. The elementary school science curriculum benefitted from an NDEA grant and the work of a summer workshop. Continuing efforts to individualize instruction is taking place in all schools.

October — Model Cities Agency personnel met with the School Committee to exchange views concerning the philosophical approach to the solution of the problem of meeting the needs of the target area. The October 1st census revealed that the Acushnet Avenue, the Greene, the Donaghy and the Cook Schools were racially imbalanced as defined under Massachusetts law. The census results were discussed with the agency.

As a result of the interest of some parents, 16 out-of-district white children enrolled in the Greene School.

While this "reverse" bussing demonstrated the interracial understanding of these parents, the problem of imbalance still remains. A new faculty at the Greene School, one new to the teaching profession as well, requires not only much support but also direction.

A more permanent solution to the racial problem is hoped for by means of the Model Cities Project in the South End. The Cook School district will be affected by a low cost housing development tentatively planned for the Sargent Field area in the West End.

This West-End project plus a noticeable increase in developing the Hathaway Road area points to the necessity of expanding the Brooks School.

The overcrowding at the Campbell School and the present need for relocatables only emphasize the need of a new elementary school in the Sassaquin area.

November — More meetings were held with the Model Cities Agency and a resolution was voted indicating cooperation with the stipulation that administrative and operating control over any school erected was considered by the School Committee to be the prerogative of the School Committee. This was indicated as the difference between a school which is community orientated and a school which is "community controlled."

December — On December 13, 1968 the final plans for the new high school were presented and approval was voted by the School Committee. Also voted was the recommendation from the architect that immediate work begin on the site as a method of saving money i.e. by loading certain areas now and allowing this to continue for the next six months much could be saved in both time and money.

This has been a year of increased activity in the area of federal support of education. While some of the directions have changed the Title I expenditures will indicate the activity:

Fiscal '68	Title I ESEA	\$720,624.90
Fiscal '67	Title I ESEA	\$562,276.90
Increased Expenditures		\$158,348.00

Following is a list of the projects actively funded:

Pre-School Development Centers

A Project Designed to Develop Language Skills
for the Non-English Speaking Child

A Pupil Transfer Plan to Improve Motivation,
Achievement and Interracial Understanding

Ungraded Class for Pupils Who are Scheduled to
Repeat the Seventh and Eighth Grades

Program to Meet the Needs of Elementary Stu-
dents Identified as Perceptually Handicapped

Continuing Expanded Program in Reading and
Language Skills

Teacher Aide Program

The Summer Educational Day Camp Title I Project conducted during the summer of 1968 was evaluated as outstanding by the U. S. Office of Education. A description of the New Bedford Project appeared in a national publication titled: "Profiles in Quality Education, 150 Outstanding Title I ESEA Projects."

Because we were authorized to write programs using up to 80% of our authorization from last year and at this date we still are not fully informed of our current year authorization, we do have some programs written but not funded. In addition, we have been told that Title I funds will be cut at least 10%.

The problem of year-to-year funding is unrealistic when long range plans are required and even more complicated by the fact that the federal fiscal year does not correspond with the local school budget year. We may be faced with a situation in September 1969 when persons on federal projects will be unable to be paid for a matter of four to six weeks. This happened in many communities this year and could well happen to us next year.

A LOOK TO THE FUTURE

It has always been recognized that the Superintendent must chart a course between the "rock" of status quo and the "whirlpool" of change. Essentially the success of this course is the measure of the success of administration. However, more and more does the course become increasingly difficult because of the multiplicity of the "rocks" and the "whirlpools".

It is accepted without argument that these needs should be studied and met:

- ... closer cooperation with private business
- ... community involvement in school planning
- ... professional involvement in social and economic changes
- ... use of technology for improving instruction of the individual student.

However, valid guidelines to how these needs should be met as yet have not been written. If private business or separate neighborhoods have sufficient influence to "take over", then the public school system of the nation will be chaotic. If the professional educator "takes over" in the social and economic areas, the wreckage could be equally disastrous. If technology becomes the idol of the classroom, then the proven philosophical foundations of education will topple.

The major complaints against the public schools of high cost, low quality and discrimination against minorities can be justified in specific instances but in general they do not stand the scrutiny of close examination. For every complaint of high cost, dozens of examples of low cost in terms of job completed can be given. Low quality can be matched by many, many examples of superior quality. Discrimination against minorities can be dispelled by examples of Bureau of Labor statistics showing clear cut gains.

However, the American public continues to look to the schools to solve the social problems of the 1960's and probably will during the 1970's. The fundamental problem which is most neglected is the providing of the necessary tools to do the job which needs to be done. One of the tools, of course, is an adequate source of finance and to this end there is no question that the trend is towards more state and federal financing. Less local control and greater state and federal control are recognized as inevitable by all except only the most unsophisticated.

Another often neglected tool is the organizational structure. The tables of organization of the 1940's in most industries have undergone a drastic change during the past quarter of a century. If one and only one recommendation for the future were to be required, that recommen-

dation would be a study of the organizational structure of the public school system operating on the local scene.

A school system operating 31 school buildings enrolling 15,700 students, employing over 1,000 full- and part-time personnel should have a superintendent, deputy superintendent and an assistant superintendent in charge of each of these areas: curriculum, personnel, business and research. It would be most interesting to see how closely an independent survey by a management consultant firm would validate these recommendations.

In these difficult times, requiring long hours of patient, painstaking effort, understanding and cooperation, I must express my sincere appreciation to my staff and committee members. For the coming year I can promise only more of the same. Hence, for those who have the courage and true welfare of the children as their prime motivation, let us start that 365 day journey together, again!

Respectfully submitted,

JAMES R. HAYDEN

ANNUAL REPORT

DEPARTMENT OF SECONDARY EDUCATION

The crisis of our age has been defined as a search, by the individual, for his identity . . . a hunt through childhood and adolescence for the answer to the oldest question mankind knows. "Who am I?" The hunt is more serious, more important, often more desperate — the answer more difficult to discern — than a casual glance can disclose. Education — formal, public school education — plays a vital role in this search. The schools and their curriculum help the student to establish a firm, sound basis for the achievement of his identity by offering a variety and breadth of educational experiences which foster youthful interests and abilities and stimulate and shape youthful aspirations. To do this well, to make of such matters something more than resounding, empty platitudes, the schools must offer individualized instruction and well-informed personal counseling. These, together, can lead the student along the unchartered path to that self-realization and to that attainment of identity which is vitally necessary to the youth of our times.

Increasingly in the educational world of today, the emphasis is being placed on the individual. The days when students lock-stepped through a school system from kindergarten to a high school diploma are destined to change. Students can no longer be pieces moved in conformity to rigid patterns on the educational chessboard, for such conformity does not produce the creative, independent, and flexible student who can survive in today's complex, highly technical, permissive world. Education is not (and never was, to be sure) a process restricted to school premises, to the talents of a teacher or the facts in a textbook. Education is a process of life that requires, not a mere accumulation of relevant facts, but the ability to interpret those facts and put them to use. One critic has said, "In the present emphasis on know-how and know-what, we overlook the importance for know-what-for." What have we of the New Bedford schools done to insure that neither we nor our pupils overlook the importance of know-what-for?

Perhaps the most important single step we have taken towards the goal of a relevant, vital, meaningful education

in New Bedford is the planning of a new comprehensive high school. Such planning goes far beyond the bricks-and-mortar specification of the architect; it must and does cover a program of curriculum development that involves one and one-half years of work and which will cover not only the 10th, 11th and 12th grades, but all the grades from the 7th grade through the 12th.

Taking part in this curriculum planning have been school administrators, educational specialists, teachers, parents, students and the general public. Spearhead of this planning has been Project COD — the Center of Organizing and Developing Educational Programs. COD work is funded under Title III of the Elementary and Secondary Education Act and it represents cooperation between state and federal educational interests. Project COD will bring together New Bedford residents and school system personnel to explore the meaning of modern society, ponder the validity of past and present ideas about the business of learning, instruct participants in different ways of learning and involve all concerned in developing a curriculum for the new high school. Students themselves are not being overlooked. Underway now are student roundtables, each involving a different group of ten to twelve young people in each secondary school, who present their ideas, their expectations and their suggestions on present and future high school programs.

With the new high school planned as a comprehensive institution, special attention must be paid to the needs, desires, goals of the average non-college-bound student. If this new school is not relevant to the needs of this student — a large majority in any high school — then the new school will not be pertinent to the real needs of New Bedford. There must be a complete overhauling of academic offerings for these students — new courses in such areas as industrial arts, home economics, journalism, arts and crafts, philosophy, drama, speech, computer mathematics, distributive education, the humanities, work-study programs (in cooperation with local business and industry).

Will the building of our new high school bring us any closer to the total solution of the dropout program? It may not eliminate the problem, but it may drastically cut the tragic toll of students who never finish high school and suffer the rest of their lives for the lack of a high

school diploma. How can the new school cut back the dropout rate? By offering new, appropriate and interesting courses such as the ones mentioned above, revising and re-shaping the curriculum to afford a diversity of courses that are germane to the world in which today's youth finds itself. Work-study programs and courses in distributive education (i.e., retail sales and retail business operation) can capture the attention and interest of a student, giving him or her a definite, practical and patently useful goal to achieve in school because of immediate and obvious benefits following the end of formal schooling. This and similar tailor-made programs will demand and even force an expansion of counseling work. Ideally, our new high school should have twelve guidance counselors, each with a workload of about two hundred and fifty students. Such a number means each boy and girl can benefit from individual attention and personal, properly-oriented advice from their particular guidance counselor and team of teachers.

A growing number of non-English speaking students now are entering our secondary schools; in many cases, their parents want them to leave school at sixteen to get a job and help contribute to the support of their families. Such a desire is understandable, but it can also lead to a tragic short-changing of talented young minds because long-term educational goals are bypassed in favor of relatively short-term economic goals. Additional guidance and counseling work, including home visits and talks with parents and students alike, may alleviate this situation which can be fairly described as economically understandable though educationally deplorable.

The City Council voted to take the land for our new school on Parker Street by eminent domain on June 19. The School Committee voted to approve that the architect be authorized to proceed with final drawings on July 26. On December 13, 1968, the School Committee approved these plans with some recommended additions. Major decisions included:

1. Instruct the architect to make provisions for expansion from a 3000 pupil school to a 4000 pupil school by providing "rough" space for thirty-two additional classrooms.
2. Air condition the central core of the facility.

3. Keep the natatorium in the plans as an alternative bid.
4. Add space at the cost of about \$72,000 for "career opportunity classrooms."

Construction should begin in late summer or early fall of 1969 with a planned target date for completion in September, 1971.

Another important step taken during 1968 by the School Committee was the Committee's approval on September 28 of Project COD as the consulting agency in continuing the development of the comprehensive high school curriculum. Details of this work have already been cited.

The work under way on our new high school must not obscure the work, the challenges, the goals and the needs of our three junior high schools — Normandin, Keith and Roosevelt. (Principal John Gracia describes problems and progress at New Bedford High School in a separate report.)

At Roosevelt Junior High School, the ungraded program, expanded to include 7th and 8th grade repeaters, is continuing to render effective service. Parent-guidance counselor conferences have proved most successful and beneficial.

An over-all look at specific aspects of our three junior high schools shows some progress, some failures to attain desirable goals. At this writing, meetings with the principals and a committee of teachers are being held to re-evaluate the rotation-omission schedule, its merits, deficiencies and inequities; and to examine the possibility of adopting some other schedule which will encompass the programs of pupils and teachers alike in a more efficient manner.

In the Language Arts English program at the three junior highs, this has been a year spent in completing and perfecting. Textbook supply has been augmented and a new series of texts for the 7th, 8th and 9th grades ("Composition Models and Exercises," Harcourt, Brace) has been tested, approved and adopted. The Summer Reading Program was offered, as usual. A survey has been made of all tests and materials to acquire useful information toward the matter of new curriculum development. "Scope," a periodical aimed at the slow learner has proved extremely useful. A beginning has been made

toward the assessment of the present junior high school English program with stress on developmental reading. Urged is an in-depth study of the entire secondary school English program; local or federal funds to pay for in-service courses for English teachers; methods of cutting down the high turnover of English teachers.

In the history department, a new study of newspapers in the classroom was conducted on an experimental basis in Grade 9A at Normandin Junior High School and in Grade 12, Problems of Democracy at New Bedford High School. New audio-visual equipment, including overhead projectors, has been acquired by all three junior high schools with funding assistance through NDEA, Title III. Grade 8 United States history now includes the period from 1865 to the present day; 7th Grade history currently covers the period of the Civil War, 1861-1865. It is again recommended that there be a required two year course in U. S. History and Modern Problems (three semesters of U. S. History, one of Modern Problems); that we provide additional supplementary reading materials; and that we consider the possibility of replacing the Grade 11 English History elective course.

Confronting the mathematics department in our secondary schools is the fact that all pupils entering the 7th Grade in September, 1970 will have studied the new modern mathematics. Present textbooks will have to be re-evaluated and replaced if no longer suitable. Larger classes, especially with the slower divisions, still pose an instructional problem, and the use of teacher aides should be explored.

In the home economics department, 9th grade classes have been changed to allow a more exploratory course in preparation for future classes in the new comprehensive high school. With this new school in mind, the following curriculum ideas have been suggested: Training in areas of food service, home nursing, child care, interior designing — all vocationally concrete for boys and girls.

In the vital — and soon to be expanded — area of industrial arts, the remodeling of the Roosevelt Junior High School machine shop into a modern metals laboratory can be counted a valuable gain. The new laboratory has facilities for pupils to explore machine shop work, welding, foundry, metal bending, sheet metal and heat treating. Ninth grade boys at Roosevelt Junior High

School all changed to a second shop experience in January, 1968 to explore a different type of work; the results were excellent and all 9th grade boys in all junior high schools have this dual experience in this current school year. Plans are now being made to use Title III funds of NDEA for major changes in the Roosevelt Junior High School print shop to create a modern graphic arts laboratory capable of handling offset printing, photography, bookbinding and relevant art work.

Additional needs at the junior high schools include the addition of two teacher-aides for physical education classes; evening conferences with parents at regular intervals during the school year; the addition of full-time tutors to the staff during regular school hours (possibly through the use of Title I funds) to work with pupils from elementary school non-English speaking classes; the expansion of the remedial reading program; the introduction of a remedial mathematics program. Expected increase in enrollments of non-English pupils at Roosevelt and Normandin Junior High Schools will require additional teachers in each school in September, 1969.

For the third year, a project worth reporting on is Camp ECHO, on Sconticut Neck, Fairhaven, a summer educational day camp for selected deprived children and operated under Title I ESEA. Dropout rates at the camp were low, reflecting high interest by both parents and children, and the dedicated work of camp staffers. Conventional camp activities were augmented by daily tutoring sessions and special care was taken to make sure every camper received at least one award — a matter of importance to children who have experienced the inevitable discouragement attendant upon severe learning difficulties. Total number of campers for the first four-week session was 140 (69 boys, 71 girls); for the second session, 164 (88 boys, 76 girls). The camp staff believed the sessions helped, materially, the disadvantaged children it served. Parents indicated ninety-nine percent approval of the program. Staff empathy and the rural setting of the camp contributed significantly to the mental, physical, social and spiritual growth of disadvantaged youngsters.

Our sixth year of Summer School, held from June 24 to August 2, met with the usual success of previous years. There was an enrollment of 888 students, 283 from other than our own secondary schools. Of those enrolled, sixty-

seven percent took courses to make up deficiencies in one or two subjects. As a result of their success, twenty students earned graduation diplomas from New Bedford High School and seventy-nine students were awarded junior high school diplomas.

Tutorial Centers after school hours were held in each secondary school for the third year. Funds for their operation were provided by ESEA Title I. A total of 352 students participated, sixty-three percent of whom passed for the year in the subject in which they had been tutored. Unfortunately thirty percent of all participants dropped from the program for a variety of reasons, without official sanction and in spite of personal counseling. Additionally, a number of students, considered by guidance counselors to be prime candidates for the type of help provided, rejected participation in the program. Although the director's evaluation indicated no evidence that the program was any less effective than in past years, the project submitted this year is for tutorial services to be offered students during school hours, particularly at the High School. At this writing, the project has not been funded because there has been a general curtailment of Title I appropriations, and other programs have been given higher priority.

From the present perspective, we look back upon the past year, therefore, as a significant one in the continuing resolve and attempt to achieve the individuality, the variety, and the excellence of education which is the birth-right of our young people. We are now committed to the development of a school program that has relevance for youth existing in an aerospace-electronic age, an age which, by its very definition and implication, makes incalculable demands upon public school education. For these are times marked by turbulent societies spreading confusion and disillusionment and frustration in their wake — among adults, students and teachers alike.

Nevertheless, these are times which contain the seeds of promise for the attainment of order, justice and tranquillity among men in an amount and scope never before attained or envisioned. Education must nurture these seeds by committing itself, not to the maintenance of rigid programs of academic studies, but to the exploration and exploitation of genuine human values, values which

are determinable by the sustaining of a continuing dialogue between all those concerned — students, teachers, administrators, the public. For this dialogue could be the heart of the matter, since it is the fundamental civilizing instrument of just and creative societies. This be our watchword, then — continuity and commitment — to the end that our children achieve the fruition, that identity, that all human beings desire, seek and intrinsically need.

1968 ANNUAL REPORT DEPARTMENT OF ELEMENTARY EDUCATION

INTRODUCTION

Education is a major undertaking in the United States and the world. The New Bedford Public Schools are among many throughout the country which are unquestionably feeling the impact of the present revolution in America today.

People have suddenly attached a new importance to education as the primary force to redirect changes in society. They expect solutions overnight to problems which have long been with us and are growing to enormous proportions.

This past year we have struggled with problems of classroom space, rising problems of delinquent pupils, bus problems, as well as a major problem of control at the Thomas A. Greene School.

NEW SCHOOLS NEEDED

Federal Programs, such as the Pre-School, Perceptually Handicapped, and Non-English are now occupying sixteen (16) classrooms in our buildings, exclusive of the fourteen (14) relocatables located in the north and south ends of the city purchased for the use of pupils in the Non-English Program.

The extensive building of new homes in the extreme North End has so increased the enrollment at the Elwyn G. Campbell School (629) that the new wing of six additional rooms is fully occupied.

One kindergarten teacher has been struggling with the burden of seventy-six (76) pupils to teach, although she has now been assigned a teacher-aide. Another small group of kindergarten children from this area was allowed to register at the Jireh Swift School. One hundred (100) pupils are enrolled in the present Grade One.

A new elementary school in this area must be given immediate consideration as the Campbell School is now at capacity level.

Serious thought must also be given to the addition of classroom space at the Elizabeth Carter Brooks School within the next year or two. A new residential area is now being created in an area northwest of the school.

Homes are also being built east of Rockdale Avenue, north of Parker Street.

The Thomas R. Rodman School with only ten rooms does not adequately care for all children enrolled, and mixed grades are a necessity year after year. With additional rooms at the Brooks School, boundary lines could be changed and pupils transferred to the larger building.

IMPROVED CURRICULA

READING IN THE ELEMENTARY SCHOOLS

Emphasis in beginning reading is necessarily upon "de-coding", that is, changing printed symbols into the sounds of language or Phonics. This skill unlocks the doors to meaning, thinking and reasoning which are ultimate reading goals. To accomplish the learning of these skills, the approach selected for our pupils in 1968 is eclectic — a variety of texts and workbooks serve the needs of the children at progressive levels. The new Lippincott Series is being used as a core guide, designed to systematically take the pupil through sequential sound-and-word patterns while also developing interpretation, comprehension and advanced reading abilities.

Children are prepared for the formalized process of "de-coding" in kindergarten where they acquire skills in auditory and visual discrimination, motor coordination and relevant readiness training on an informal basis.

An In-Service course for teachers, allowing released time, was approved by the State Board of Education and conducted for all first grade teachers on the first three days of school (September 4, 5 and 6) to study the rationale and techniques of the new reading approach.

Administrators and Grade One teachers are already noting the progress of first grade pupils in gaining greater reading facility as a result of the thorough phonic skill and reading power introduced in September 1968.

SCIENCE

The upgrading of the Elementary Science program continues to progress. All schools were equipped this past year (1968) with modern experimental science kits for classroom use through the NDEA of 1965. This coming year more valuable items are forthcoming which will provide a wealth of science materials for all elementary schools.

To insure that this equipment will be properly used and cared for, thirteen (13) science co-ordinators will be appointed and assigned to supervise the equipment and to act as a resource person to assist teachers not having a strong science background in the preparation of science experiments.

Several In-Service courses for all teachers were conducted by science co-ordinators from Harcourt, Brace & World this fall. The State Department of Education has already promised to conduct more such in-service courses for us early in 1969 with possibility of released time for teachers being granted.

TEXTBOOKS

Currently the Committee on Elementary Mathematics is studying a textbook to be selected as a co-basal for classroom use. It has been placed on a trial basis in several schools and has received excellent recommendations from the teachers who have worked with it.

Spelling textbooks are being examined also by members of the Spelling Book Committee, and this group is to submit its choice for a 1969 adoption very soon.

Early in 1969, representatives from several Maps and Globes Companies will be in New Bedford to exhibit their modern equipment, and the Committee for these materials will then make recommendations for the adoption of new, and the eliminating of, outdated equipment.

NEED FOR ELEMENTARY SPECIALISTS

An existing pattern for all elementary schools for many years has been to have a specialist for all grades in music, art, physical education and foreign languages.

The gradual enrichment of the elementary school curriculum over the past years has led to difficulties with

the teacher generalist concept. Currently he is expected to teach a great variety of lessons in areas in which he is partially or poorly prepared. It is hoped that teacher colleges will soon implement changes in their Elementary Education Program of Studies that will prepare elementary teachers for strength in major subjects. As a result, our children would be assured of higher quality teaching. In turn, this would call for more departmentalization and team teaching in the elementary classrooms.

NEED FOR RELEASED TIME

It has become increasingly difficult, since teachers have become organized, to schedule meetings with classroom teachers for in-service courses. Released time for such a purpose would prove extremely beneficial to the entire elementary department, even if we had to lengthen the time of pupil attendance in order to obtain it. Much good could be accomplished by providing an opportunity for teachers on the same grade level to work together. Demonstration lessons, presentation of research, progressive methods and materials, revision of curricula, and educational films would be the greatest part of such a program. Specialists in the areas of art, music, physical education and audio-visual equipment also have long desired this type of meeting. A definite schedule would be well-planned ahead, to make every session a valuable one.

BUS PROBLEMS

The many serious problems arising in pupil busing in the school year 1968-69 make us keenly aware of the steadily increasing population growth in the Pine Hill Acres section of the North End. We are now transporting large numbers of pupils to the Campbell School, St. Mary's Parochial School, and Normandin Junior High School. Parents constantly complain about the early hour of pick-up which has been necessary because of very heavy schedules. This year close to seventy (70) Perceptually Handicapped students attending the Charles S. Ashley School from all areas of the city are transported by our buses in addition to the regular travelers.

It may be advisable for the parents to petition the Union Street Railway for public transportation for Pine Hill Acres students before September 1969 or the New

Bedford Public Schools may have to invest more of its money in additional bus transportation.

CHANGE IN SCHOOL HOURS

Continuous revision is part of a well-cut pattern of teacher cooperation for curricula improvement. But to participate, teachers must meet. A tremendous obstacle at present is the lack of permission to set aside at least one afternoon per month for various in-service meetings. Teachers are most reluctant to attend such sessions after working all day. As elementary schools close rather late in comparison to the secondary schools, it may be possible to alter the present schedule and have an earlier opening and closing time. Morning and afternoon sessions could commence fifteen minutes earlier, thus realizing one-half hour at the close of the school day when teachers would remain for meetings and parental conferences.

THOMAS A. GREENE SCHOOL

Federal funds, secured under Title I of the ESEA in 1968, made possible the plans for establishing the Greene School as a "magnet" school which would be experimental in the initiation of enriched curricula and which would be organized gradually as a non-graded school.

Viewpoint of the members of this Council and the Administration have somewhat clashed because of the insistence on the part of the former group that implementation of non-graded classes be undertaken without delay. A Greene School faculty composed of five (5) completely inexperienced teachers prohibited the commencement or success of any such undertaking.

Non-grading calls for superior teachers, exceptionally well-prepared with in-service training. Perhaps one of the greatest deterrents to the success of non-grading in other areas has been the too eager rush to implement it before the school staff has learned to think "non-graded".

Greene School teachers have been allowed to visit experienced teachers in other buildings, and experienced teachers have taught in their classrooms for them. They were also allowed a visiting day to a non-graded school in Newton.

Dr. Florence L. Mahon, Curriculum Co-ordinator, has devoted one noon hour each week to meetings with this

faculty, discussing problems and providing suggestions and assistance. She has also met with them in afternoon sessions and attended Council sessions.

Miss Mary A. Kaharl, Principal, has held numerous staff meetings with this faculty, and has taught demonstration lessons for them, in an effort to improve the quality of teaching techniques.

Discipline, or the lack of it, has been a real bothersome problem at this school, mainly due to the inexperience of teachers in organizing an elementary classroom.

In November, pupils in Grades Four, Five and Six were placed on a departmental plan whereby the teachers will work in the area of their greatest strength. This arrangement should assist them by lessening the amount of varied preparation necessary.

It is my firm belief that had the parents of the Greene School and interested citizens refrained from being involved in the election of the faculty and left its organization for the school administrators, the Greene School today would be more educationally structured, with a minimum of discipline problems that have racked the building. Recommendations from the Council and joint meetings with the School Administrators would then have proven more meaningful and beneficial.

LOOKING TO THE FUTURE

As we approach the 1970's, many of us are realizing that certain old, accepted values must be reappraised. We are looking hard at the areas of needed improvement in our New Bedford Public Schools —

1. There is a growing need for clerical help in the elementary schools, as more and more paper work denies the principals the time for classroom visitations and supervision.
2. Specialists in the areas of reading, mathematics, science and handwriting would improve the quality of education in these fields, especially in Grades Five and Six. Educators are finally realizing that elementary classroom teachers cannot possibly be a master of all general subjects they are now required to teach.
3. Overage pupils in our fourth, fifth and sixth grades are still a major concern. Until we

can provide a different curricula for them, these children are destined to become dropouts. Workshop programs for both boys and girls would provide them with an opportunity for meeting their needs and interests. As our three junior high schools and at least four elementary buildings are already equipped with creative arts equipment, the cost of implementing such a program on an experimental basis would be negligible.

4. Several more elementary adjustment counselors are sorely needed to work between the schools and the homes, for the ever increasing load of problem cases can no longer be adequately handled by the two counselors we now employ.

TEACHER AIDE PROGRAM

Beginning February 2, 1968, and ending with the close of school sessions in June, 1968, all schools, public and parochial, which met the criteria for being located in disadvantaged areas were included in the Teachers Aide Program. Under the direction of Dr. Florence L. Mahon, 47 paid aides and 12 volunteer aides were assigned positions in 18 schools. Their duties freed teachers from routine and non-professional activities so that the teacher could provide more individualized instruction for the children in the classes. On alternate Friday afternoons the aides were released from duty to attend an In-Service program conducted by Dr. Mahon wherein matters concerned with responsibilities of the aide were discussed and basic concepts in phonics and mathematics were presented.

Due to the lack of sufficient Federal funds under Title I, this program was discontinued in September, 1968 except for the appointment of 3 aides assigned to 3 schools where conditions warranted assistance for the teachers on an emergency basis. It is of the utmost importance that the expanded program receive consideration at the earliest possible time because of the proven benefits to both teachers and students.

NEW BEDFORD HIGH SCHOOL

The enrollment at New Bedford High School this past September again showed a slight decrease from 2567 to 2510. The figures since 1963 have been 2654, 2513, 2535, 2592, 2567, and 2510. This would seem to indicate that our enrollment has become stabilized at about 2550. The number of graduates each June, the number of students attending summer sessions each year, the number entering the sophomore class each September have also become quite stabilized. However, this stability continues because the dropout rate in the sophomore class continues to be all too stable. This distressing factor will only be corrected with the new curriculum in the new school. In our present building a new curriculum because of our crowded conditions is impossible. The immediate years ahead are to be used for the development of a new curriculum, and progress is now going on under the supervision of the Center of Organization and Development (COD) in which not only the faculty will be involved but the entire community itself. In the interim we will continue to maintain the high standards of our present curriculum.

For the first time under this administration the physical condition of the school must be reported as unsatisfactory. During the summer a third study hall (Room 236) was divided into two classrooms. This is the third subdivision in three years executed in order to increase the number of faculty to take care of more classes and thus keep the class sizes down. The average size of classes throughout the school this year is 25.49. For the second summer less maintenance work was done in comparison with previous summers, and the evidence is all about us. Basement staircases need resurfacing; student desks need resurfacing; corridor walls need replastering and painting; many corner rooms need repainting because of building leaks; more floors need resurfacing in the East building; *all* windows need to be reputtied and sills painted; outdoor stone steps need to be repointed; the bell system needs constant checking; the lighting fixture changes of some years ago have never been completed. The new high school is at best three years away. It is recommended that the summer of 1969 be used to rehabilitate this building and that the high school summer session be held at one of the junior high schools.

DEPARTMENT REPORTS

English Department

In the area of the Language Arts, the school year was not a year of change so much as it was a year of development. For the first time, teachers taught the subject under the aegis and philosophy of the new Curriculum Guide. Books and other materials in sufficient numbers were provided and put to use. The Audio-Visual Aids Department was generous in supplying unprecedented numbers of rented films and in purchasing additional filmstrips to give further visual support to the content of instruction.

About one hundred and fifty eleventh and twelfth graders made the trek to Cambridge, Massachusetts, once again, to view an excellent performance of Sophocles' *Oedipus Rex*. This trek was in cooperation with the Boston Herald-Traveler's noteworthy drama project held each year.

As a result of the growing concern with minority problems, teachers joined with the Department Head in an inquiry into materials and classroom situations which involve the Negro — either as a human figure or as the center of one of America's social problems. Statistical evidence was sufficient to show that minority problems are of growing concern and that this concern is mirrored in English instruction.

As always, students were invited to participate in the Summer Reading Program, with about average results. The high school bookstore continued, moreover, to supply the reading needs of these students.

The English Department head attended two conferences during the year: one on the Humanities, at Bridgewater State College in January; the other, at Yale University, in April. Both conferences were informative, the content of both of these being imparted to the members of the entire Department.

English teachers cooperated at all times in the preparation for the building and curriculum of the new high school. Thorough perusal of projected plans for the classroom arrangement, structure, and content in the new high school was made, and recommendations, in detail, were submitted to the Assistant Superintendent of Schools.

A Committee of teachers functioned as a committee of inquiry into the future prospects concerning the shape and content of a new curriculum. Examination was made of a possible structure of a program of studies and the possible relationship of English to that program. Weaknesses and strengths of the present English Curriculum were assessed. Finally, a comprehensive English program of studies was envisioned, necessitating the addition of new departures in point of view, method, and content of instruction.

Restatement of Department Objectives:

It is the purpose of the Department of English to provide those experiences, in and out of class, which will result in proficiency in, and appreciation of, the skills and knowledges which are the nucleus of the study designated as the Language Arts. All learning takes the direction of making students better readers, writers, speakers, and listeners — with the added objectives, better thinkers and citizens.

Recommendations:

1. That an in-depth study of the entire Secondary School English Curriculum be instituted and activated.
2. That local or Federal funds be obtained to finance a series of in-service courses for English teachers — courses designed to give them a new awareness and understanding of their function, and courses to directly increase the efficiency of their instructional skills.
3. That a new "ditto" machine be purchased for the Department at the High School level to replace the present imperfect one.
4. That some way be found to attract the more capable students of English to the local system and to keep them here permanently. The rapid turnover of English teachers is a phenomenon of the times. Its result has been a serious loss in the effectiveness of the junior high school English program in particular.
5. That the teaching "load" of the Head of the Department of English be reduced to one class per

day in order to provide him with the time to carry out, efficiently, his extra-instructional functions.

Social Studies Department

As in the past the Department aims at a continuous, varied and up-to-date program for all levels. A review of some of the activities of the year is listed below.

Thirty students attended the National Crime Prevention Program, New Bedford Exchange Club, February 15.

The American History Month and American Negro History Week Auditorium Assembly was held on February 16.

In March, the Department participated in the Annual Massachusetts Student Government Exchange Program, Civic Bureau of Education.

In April, John Thompson won first place, boys' division, and Christine San Juan won first place, girls' division, V. F. W. Americanism Essay Contest.

In May, the Department cooperated with WGBH's televised program series, *One Nation, Indivisible*, which was designed to increase racial understanding.

"A Study of the Newspapers in the Classroom" was conducted on an experimental basis in Grade 12, Problems of Democracy.

The *Follette United States History Study Lessons*, Follette Company, a new remedial reading approach series, is now being used in Grade 11, United States History, General Curriculum.

In the spring, the Department participated in an experimental simulation series conducted by WGBH. Students at a selected group of high schools played "United Nations" by viewing television in their respective schools.

In April, the following basic and supplementary textbooks were adopted:

Public Issues Series, Harvard Social Studies Project
(Grade 11, U. S. History, Business)

Basic Concepts in History and Social Sciences, Heath
and Company (Grade 12, U. S. History, College)

A Global History of Man, Silver Burdett (Grade 10,
World History, Business)

England in the Twentieth Century, Penguin Books
(Grade 11, English History, College)

The Department cooperated with all the other departments in the preparation for the building and curriculum of the new high school. Projected plans for the classroom arrangements and structure were analyzed and recommendations submitted to the Assistant Superintendent.

Recommendations:

1. Require a two year course in United States History and Modern Problems. (Three semesters of United States History and one semester of Modern Problems.)
2. Provide additional supplementary reading materials for all grade levels.
3. Consider the possibility of replacing the Grade 11, English History, College 3 Curriculum, elective course.

Mathematics Department

The Mathematics Department, as in the past, is cognizant of offering an up-to-date program of courses, one that will allow the student to reach his potential and to prepare himself for his future endeavors. Our efforts are limited to some extent by lack of space which in turn restricts the flexibility of the scheduling. The heavy enrollment in the mathematics classes was eased this year by the appointment of an additional teacher to the Department. The classes now average nearer the desired goal of less than thirty, allowing for more individual instruction.

For the first time the State Supervisor for Mathematics planned meetings of the area heads of department. Current problems and innovations of curricula, courses of study and programming were discussed. Attendance was good and each one felt the meetings productive and worthwhile.

Two of the faculty have attended a series of lectures and practice in Computer programming in anticipation of such a facility becoming available to the faculty and students.

The Head of the Department was privileged to attend the Boston Convention of the National Council of Teachers of Mathematics. This was an inspiring experience. To teach mathematics today is not only important but exciting.

The Department cooperated with the Assistant Superintendent of Schools in the study of projected plans for the classroom arrangement, structure and content in the new high school.

Recommendations:

1. Establish a modified course of college preparatory mathematics, Grades 10, 11 and 12, lacking the rigor of the regular course.
2. Consider "quality points" for position in class and eligibility to Honor Society.

Science Department

The Department continues its research in content and material to keep pace in the ever expanding world of science.

The *Ford Future Scientists of America Awards Program* is sponsored annually by the Ford Motor Company and conducted by the National Teachers Association. This program is designed to reach as many potential able future scientists as possible, beginning at the time when scientific interest commonly becomes manifested in students. Its purpose is to help identify and encourage students with unusual ability in science and the potential to pursue a career in science.

Three of our students were named regional winners in the *Annual Ford Future Scientists of America Awards Program* this year. They were Joseph Frizado, Evelyn Heyman, George Saulniers.

The three projects were ranked among the top 240 of the 4000 projects entered from throughout the nation. The winners received certificates and fifty dollar savings bonds.

The following students also claimed 7 of the 1000 Honorable Mention Awards:

Paul Blecharczyk	Ira Israel	Gary Thomasset
Richard Cembalisty	Andrew Miller	Alan Weinschel
	John Pelczarski	

N.D.E.A. TITLE III: PROJECT 80361S

A sum of \$1890 was appropriated for the purchase of new equipment under NDEA Title III. Twelve L60PD-S1 American Optical Series Sixty Student Microscopes were included in the new equipment purchase.

PILOT SMOKING PROGRAM

A group of outstanding New Bedford High School students conducted a series of four lectures in the elementary schools. The students included top athletes, outstanding scholars and all around good school citizens. Brief, to-the-point talks were given on the health, social, and economical aspects of smoking. The program was a success and we now know that the smoking program does begin in the lower grades . . . and that is where the problem must be met head on.

NEW BEDFORD HIGH SCHOOL SCIENCE FAIR

Chairman: William S. Markey

The New Bedford High School Science Fair was held on Friday, February 2. The Grand Prize Winner was Andrew Miller for his work "Hypertension Induced by a Salt Diet".

First Prize Winners:

Biology	George Saulniers	The Amino Acid Content and Regeneration
Chemistry	Louis Silvia	The Spectroscope
Physics	Michael Sheehan	Gas Chromatography
Math	Clara Sylvia	Math Computations through a True-False Proposition
Earth Science	Normand Patnaude	Construction of a Schiefspegler

As with all other departments the Science Department has cooperated with the Assistant Superintendent in the planning of the classroom structure of the new high school.

Recommendations:

1. The sum of \$2500 be appropriated for the purpose of purchasing new and more equipment under N.D.E.A. Title III. To keep pace with rapid advances in both subject matter and methods of teaching, it is necessary that new and more equipment be added "yearly".
2. After a careful study and detailed survey, it is recommended that one of two pilot chemistry programs be introduced as of September, 1969. This pilot course would be designed for those students who are planning a career in nursing or clinical medicine.

French Department

In June the Department lost its dedicated Head of the past seven years in the retirement of Mrs. Cecile Plaud who also supervised the classes in German and Russian. The Department is now in charge of Roger Lemenager who has been designated as Acting Head.

The principal topic of discussion at most language teachers' meetings is the new school. The teachers of Foreign Languages are very interested in the educational goals that will be determined suitable for its department. They are in full agreement that there is a definite need for uniformity as to method and content. New adoptions of books are in order, all along the line. Lack of unification only confuses the students and teachers.

It is therefore recommended that one method of teaching foreign languages be adopted, and that it be flexible enough to be adapted to all tracts. The only method that seems to be appropriate is the ALM (Audio-Lingual Materials) published by Harcourt, Brace & World Company. This method provides continuity at all levels, and also allows us to use present materials as supplementary work. Under this method the language laboratory would be used to its fullest, and we would not be sacrificing the traditional method of teaching the all-important basics of the language; this method teaches all facets of language learning in a progressive manner right from the first level.

The language department has also been working hand in hand with the Guidance Department in such areas as

majoring in foreign languages in colleges, the values of minor languages in scientific fields, and standards of achievement in our own advanced classes. In the process, we have discussed this question of continuity in the teaching of a foreign language, and both departments agree that it is needed.

The language department welcomes the establishment of the Center of Organization and Development (Project COD) as a big step forward in helping all departments to develop continuity in their courses of study. The language teachers are enthused with the prospect that continuity in teaching may become a reality.

The department has also been cooperating with the Assistant Superintendent of Schools in the planning of the classroom structure and other phases in the new school.

Portuguese Department

The Department for a period of one year functioned without a Head. During that year the three members of the Department met informally to discuss their problems. Since September of this year the Department has been meeting with the Head of the French Department. At the present time there are fifteen classes with three full-time teachers.

Recommendations:

1. The establishment of a College Board Examination in Portuguese.
2. The establishment of a definite program for Portuguese I at New Bedford High School for all students taking Portuguese for the first time.
3. Advanced Portuguese Grammar and Literature classes for those students who have already studied Portuguese.
4. Pilot classes in Portuguese.
5. An Acting Head of the Department.

Business Education Department

The Business Education Department continues in its endeavors to train and educate the pupils to take their places in the business world using the occupational skills learned; or to go on to institutions of higher learning to further their education.

In late September a Department meeting was held with the Senior State Supervisor of Business Education regarding new guide lines to be established in 1969.

Several meetings were held during the year with the Assistant Superintendent of Schools regarding the physical layout for the Department and classroom structure in the new high school.

Another scholarship has been donated to the Department which will be awarded to the pupil who earns the highest grades in his three years in Business Education.

Supplementary textbooks have been added in Typewriting classes and additional equipment acquired.

In an area-wide typewriting contest held last spring, a New Bedford High School senior placed third. Because of this achievement, all students are encouraged to enter any similar contests in the future.

The addition of another Bookkeeping teacher has lightened the load in those classes, but the Typewriting classes still maintain large enrollments.

Conclusion

For too many years this annual report has closed with a *call* for more housing and for a comprehensive program of studies to meet the individual needs of *all* our young people as they move into a nation *now* unfortunately more divided, more turbulent, and more perplexed than at any time since the Civil War.

At last the dawn of a new era is upon us. The plans for the new high school are near completion. A curriculum study of approximately eighteen months of research is now underway. It is the hope of all of us that our dreams will soon be fulfilled.

I should like to close this report with a quote by Dr. John H. Fischer, President of Teachers College at Columbia University.

"It is the school's obligation to see that for every pupil three main goals become visible and attainable:

1. It must help him to make the most of his capacities.
2. It must enable him to acquire the intellectual skills necessary for a life of continuous learning.
3. It must prepare him to find for himself a productive, significant role in the world and offer him a reasonable hope of filling it with satisfaction to himself and his fellow men."

Report of the School Committee

STATISTICS

POPULATION AND VALUATION

The population of the city (census of 1968)	103,097
Valuation of taxable property was	\$162,809,300
Schoolhouses and lots	11,235,250
Other school property (furnishings, etc.)	1,587,174.14

APPROPRIATIONS

Rate of taxation (per \$1,000.00)	\$102.00
Amount for general school purposes, not including new buildings	\$7,647,470.62

SCHOOL CENSUS

Number of children between five and sixteen years of age, and illiterates (not having completed Grade 6) between sixteen and eighteen years of age, reported by the Attendance Department in accordance with the census taken October 1, 1968:

Between 5 and 7 years	3,310
Between 7 and 16 years	15,476
Between 16 and 18 years	186

TUITION RATES

Rates for tuition for non-resident pupils for school year beginning September 1, 1968, payable in advance are:

High School	Year	\$500.00
Junior High)		
Sight Saving)	Year	500.00
Special Class)		
Work Shop)		
Elementary	Year	500.00
Kindergarten	Year	250.00
Evening School	Night	.50
Evening High Extension Program	(per class)	18.00

PER CAPITA COSTS

The cost of instruction per scholar for Day Schools is based on the average number belonging and the total amount expended from taxation money, not including expenditures from the Sylvia Ann Howland, Paisler, Bourne Prize, Etta Abbott Smead, Brooks, Campbell or Beatrice Mosgrove Funds:

	Gross Cost	Net Cost (after reimbursement)
High School	\$487.79	\$345.74
Junior High School	539.04	397.97
Elementary Schools	462.18	320.79
Average for Day Schools	482.59	341.15

ANNUAL REPORT
of the
COMMISSIONER
of
PUBLIC WORKS
of the
CITY OF NEW BEDFORD, MASS.
to the
CITY COUNCIL
1968

BRADBURY-WARING DIVISION
REYNOLDS-DEWALT PRINTING, INC.
NEW BEDFORD, MASS.
1 9 6 9

COMMISSIONER'S REPORT

April 24, 1969

Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

In compliance with Chapter 3, Section 58 of the City Code, I herewith submit the annual report of the Department of Public Works for the year ending December 31, 1968.

Appropriations and expenditures are shown in the various tables, together with a chart indicating the comparative Highway expenditures for the period from 1921 through 1968.

NEW TREATMENT OF ROAD SURFACES — During the 1968 construction season this department experimented with the Heater Planer Method of removing the existing Bituminous Concrete wearing surface on various streets in the City of New Bedford to increase the curb reveal. After removal of this wearing surface we applied an asphalt slurry seal to smooth out the rough pavement and seal the remaining Bituminous Concrete material.

I found this method to be satisfactory and economical in certain instances. In the unsatisfactory area the contractor has agreed to return and repair the surface and place it in a satisfactory condition.

I wish to express my appreciation for the cooperation that I have received from His Honor, Mayor Edward F. Harrington, the members of the City Council, the various department heads, and my own capable assistants in carrying on the work of the department.

Respectfully submitted,

EDMUND J. TOOMEY,
Acting Commissioner

ENGINEERING DIVISION — 1968

AIRPORT COMMISSION — Plans were drawn and surveys made in connection with airport boundaries and leases.

ASSESSORS — Real Estate transactions and transfers were filed at the Registry of Deeds. Such transfers were changed on city plots and indexed. Three sets of 208 plots are kept up to date and blueprints made of the same.

BOARD OF APPEALS — Twenty-two surveys and plans were drawn and records kept.

BUILDING DEPARTMENT — Lines and grades were given for 26 new buildings. The buildings were numbered and records kept.

CITY SOLICITOR — Plans and blueprints were made and descriptions were written on request of City Solicitor for the sale of City owned land and acquisition by Eminent Domain.

CURBING — Lines and grades were given for setting 6,110 lineal feet of curbing. Inspection and measurement was made of the same.

HOUSE DRAINS — One hundred and thirty-eight (5053 feet) new house drains and eight relays were laid connecting house sewer and surface pipes with the main sewer. Locations of these drains were measured, records were made of the same and drawn on drain plots.

PLANNING BOARD — (Zoning) Thirteen plans for zoning changes were made and lists of abutters made and reported.

SEWERS — Surveys, plans, lists of abutters, assessments, and specifications were made for two new sewers and three new surface drains. Construction costs, inspection, lines, and grades, were given for 615.52 feet of sewers and 767.33 feet of surface drains. Records of construction, final plans, and final assessments were made and reported.

SIDEWALKS — Surveys, Plans and estimates were made for twenty-six projects under the Betterment Act. Measure-

ments, records, final plans, and assessments were made and reported. Plans and estimates were made for 195 projects laid by bonded private contractors for property owners.

STREETS — Surveys were made and plans drawn for the acceptance of 2 new streets. Lines and grades were given for all street construction and public utilities construction. Surveys were made and points set for the installation of new street bounds.

TRAFFIC COMMISSION — Surveys were made and plans drawn. Traffic counts were made at 23 intersections.

ROUTES 195 and 140 — The Engineering Division cooperated with State and Federal District Engineers, private engineers, and also with private contractors on the proposed projects.

WATER BOARD — Lines, grades, engineering and survey information as required were given for all water main extensions.

MISCELLANEOUS — Lines and grades were given for fences, street lines, and sidewalks. Thirty-five accident or damage sites were surveyed. Plans were drawn and photos taken to prepare for possible court action. Numerous plans were drawn and descriptions prepared for study by the City Council Committees and the City Solicitor.

Weather records were kept daily on rainfall, snowfall, wind velocity, temperature, and tides. This weather information was reported to State and Federal agencies and was made available to the public. Records were kept of street sweeping and ash collections. The area of cuts in pavements and walks were measured and recorded. City maps and plans were kept up to date, blueprinted and indexed.

GENERAL STATISTICS

January 1, 1969

Set off from Dartmouth	1787
Incorporated as a City	1847
Length of City	10.73 miles
Breadth of City (Maximum)	3.10 miles
Highest point	1250 feet north of Rockdale Ave. and Hathaway Road. Elevation 181.50 feet.
City Datum	Based on 0.85 feet above mean high water
State Datum	Based on mean sea level 2.55 feet below City Datum
Geometrical Center of City	Nash Road and Mt. Pleasant Street
Area — Land	12,260 acres
Ponds	193 acres
Land — Ponds	12,453 acres — 19.42 sq. miles
Tidal Water	8,451 acres — 13.21 sq. miles
Length of frontage on tidal waters	10.13 miles
Depth of main channel	30 ft. at low water
Average rise and fall of tide	3.55 ft.
Population — Registrar of Voters estimate	103,097
Assessed valuation	\$162,809,300
Assessed valuation per capita	\$1,579.19
Accepted streets — Area 1,445,823 acres	245.242 miles
Bridges (3)	0.796 miles in New Bedford
Sewers	265.590 miles
Length of Intercepting Sewer:	
Outfall	0.626 miles
Intercepting	9.188 miles
16 Public Parks	288.80 acres
14 Public Playgrounds	31.72 acres
1 Rifle Range	230.35 acres
7 Parking Lots	5.81 acres
30 School Buildings — Area of Ground	116.60 acres
1 Airport — Area of Ground	829.93 acres
Area of Easement	118.67 acres
5 Wharves — and other waterfront land (Harbor Development Comm.)	72.00 acres

WATER BOARD REPORT

March 12, 1969

To the Mayor and City Council
of the City of New Bedford

Gentlemen:

In accordance with the provisions of Chapter 23, Section 3-2312 of the City Code of New Bedford, the Water Board herewith respectfully presents this, its ninety-ninth annual report, covering its operation for the calendar year 1968, and including the reports of the Superintendent and the Water Registrar.

Mr. William McIntosh was reappointed as a member of the Water Board for a term to expire June, 1972.

The average daily consumption for the past year was 19,960,659 gallons, which was approximately 1,506,341 gallons more than 1967.

The total consumption for 1968 was 7,305,601,400 gallons which was approximately 570,337,200 gallons more than 1967.

Bonds in the amount of \$50,000.00 were sold; the proceeds being made available for the purchase of equipment.

The Water Board voted to request the transfer of \$294,296.32 surplus from Water Department receipts to Water Department, New Construction and Improvement Account.

The following abstracts from the Water Registrar's report shows in condensed form the financial operation of this department during the year. Full details will be found in his report, which accompanies this.

FIRST, BASED ON THE BUDGET SYSTEM IN ACCORDANCE WITH CITY AUDITOR'S ACCOUNT

	Salaries & Wages	Labor	General Expense	New Construction	Total
1968 Budget	\$198,726.62	\$249,509.40	\$160,000.00	\$ 56,544.76	\$664,780.78

WATER REPORT

REPORT OF THE WATER REGISTRAR

City of New Bedford
Water Registrar's Office
January 1, 1969

To the New Bedford Water Board:

Gentlemen:

I herewith present to you a detailed statement of the receipts and expenditures of the Water Works Department for the year ending December 31, 1968.

The report is based on Budget vs. Expenditures and also on Receipts and Expenditures as previously.

RECEIPTS

FIRST, Based on the Budget system

Budget Appropriation	\$ 608,236.02	
Refunds	321.81	
1967 Encumbrances	4,950.09	
Transfers to General Expense	1,691.72	
Transfers to Salaries, Wages and Labor	16,800.00	
Transfer to New Construction	268,676.19	
Balance — New Construction — 1967	56,544.76	\$ 957,220.59

EXPENDITURES

Payrolls, from Appropriation	\$ 432,658.29	
Bills, from Appropriation	163,731.60	
New Construction	174,611.06	
1968 Encumbrance Account	2,770.05	
Balance — New Construction account carried over to 1969	150,609.89	
Unexpended balance, reverting to City Funds	32,839.70	\$ 957,220.59

SECOND, Based on Receipts and Expenditures as previously

RECEIPTS

RATES

Town of Acushnet, Special Rate	16,297.38
Town of Dartmouth, Special Rate — Allen St.	5,923.14
Under 10,000 Cu. Ft. per quarter	425,175.39
Over 10,000 Cu. Ft. and less than 100,000 Cu. Ft. per quarter	81,803.11
Over 100,000 Cu. Ft. and less than 1,000,000 Cu. Ft. per quarter	141,557.59
Over 1,000,000 Cu. Ft. and less than 2,000,000 Cu. Ft. per quarter	37,585.63
Over 2,000,000 Cu. Ft. per quarter	266,593.99
Estimated and building purposes	1,462.50

Total receipts for water

REPORT OF THE SUPERINTENDENT

March 12, 1969

To the New Bedford Water Board:

Gentlemen:

The annual report of the Superintendent of operation of the department for the past year 1968 and on general condition of the works is respectfully submitted:

The financial report of the Water Registrar — rainfall — and usual tables showing in detail the work of the Department are incorporated as part of this report:

RAINFALL

Total rainfall for the calendar year, 1968 was recorded at Quittacas Pumping Station, Rochester, Massachusetts at 51.64 inches.

POND LEVELS

The water levels in the Lakeville Ponds reached the following elevations during the year 1968:

	<i>High Level</i>	<i>Low Level</i>
Pocksha Pond	52.48 Mar. 20	49.02 Nov. 6
Little Quittacas Pond	48.95 Mar. 20	47.24 July 24
Big Quittacas Pond	52.74 Mar. 20	48.64 Nov. 6

WATER TREATMENT

All water during the year was sterilized through the addition of liquid chlorine at Quittacas Pumping Station; and, all water traveling through the High Hill Chlorination Station, North Dartmouth, Mass. was again treated. All water leaving Quittacas Pumping Station is also treated with Soda Ash.

Approximately 120 samples per month are being taken from the system and its sources.

State Department of Public Health notified the Department that a hearing would be held pertaining to Cross — Connections.

Mr. John C. Collins, Chief Sanitary Engineer for the State Department of Public Health sent a communication pertaining to the liability for illness caused by contaminated municipal water supply (Civil and Criminal). Liability of Certain Officials.

WATER REPORT

23y

Mr. George Coogan, State Department of Public Health issued a bulletin pertaining to Recreational Use of Reservoirs.

Assistant Superintendent Edward V. Peters began full operation from 1105 Shawmut Avenue effective January 1, 1968. Department employees with the aid of some Youth Corp boys moved all the equipment and material from 213 North Water Street to the new location.

An attempt was made to assist with the installation of a Public Sewer in Shawmut Avenue with a lift station at Nash Road. But no approval has been granted as yet.

Bid prices for cleaning the septic tank ranged from \$2400 to \$2800 per year. So a used 2,000 gallon tank wagon and pump was purchased for \$800 and the department employees handle the matter.

Owen Hackett, Jr. and Associates — Architects informed the Water Board that by taking (3) three double stalls they could make additional office space. Cost \$30,000.

The Preliminary Plan Estimates were as follows:

A) Garage	\$ 79,000.00
B) Storage Building	120,600.00
C) Platform Storage	18,900.00
D) Maintenance Building	119,480.00
E) Pipe Runs	23,700.00
F) Site Work	30,630.00
	<hr/>
Estimated Cost	\$401,310.00

Estimated Project Cost:

A) Land and Rights of Way	City owned
B) Construction	\$401,310.00
C) Equipment	15,000.00
D) Plan Preparation (Preliminary)	6,622.00
E) Boring and Soil Investigation	600.00
F) Topographical Survey	400.00
G) Plan Preparation (final)	13,243.00
H) Supervision of Construction	6,622.00
I) Legal, Administrative and Contingencies	25,000.00
	<hr/>
Project Estimate Cost	\$468,797.00

Total amount spent on New Workshop \$415,590.29

WATER REPORT

1967 SURPLUS

The financial report submitted by the Water Registrar for the year 1968 is shown in detail in various sections of the Water Department's Annual Report. It will be noted that the Department operated with a balance of \$294,296.32, which is to be transferred to the New Construction and Improvement Account. There was an increase in water and miscellaneous receipts over 1967 amounting to \$62,286.27. The number of applications for water during the year was 249 an increase over the previous year of 49. During the year (3) three bonds were matured and the bonded debt of the department at the end of the year was \$1,245,000.00 a decrease from 1967 of \$185,000.00.

WATER REGISTRAR'S OFFICE

Due to new construction and demolition work throughout the city the work load continues to be extra heavy.

The Water Board purchased a new suction feeder attachment for the new billing machine for \$2200.00.

The New Bedford Water Board voted the authorization for signing extension agreements and partial releases as follows:

Voted: That the mayor of the city of New Bedford, Chairman of the New Bedford Water Board, ex-officers, and the Superintendent of the New Bedford Water Department are hereby authorized in the name and on behalf of the New Bedford Water Board to sign extension agreements and partial releases and discharges, thereof when and as determined by the New Bedford Water Board or the Water Registrar of the City of New Bedford.

A (5) five year assessment agreement was signed with the Lord Phillip Trust, Braintree, Mass. pertaining to the installation of a 12" water main on Phillips Road to supply the Lord Phillips Garden Apartments. The request was granted after it was agreed a lien would be placed on the whole property.

DARTMOUTH AGREEMENT

An agreement was reached between the City of New Bedford and the Town of Dartmouth, subject to any changes recommended by their engineers after the Hydraulic Study is completed.

TELEMETER AGREEMENT (Route 140)

An agreement was entered into with the State for \$1300, regarding the relocation of the departments telemetering circuit in the Town of Freetown under Route 140, Southbound Roadway under Federal aid Project #F. 120 - (27).

WATER REPORT

25y

RONNEY & DANNY TICHON AGREEMENT

Due to the fact that their property is to be demolished in the South Terminal Area they were leased the old W.P.A. Building at 213 North Water Street until such a time as to when their new building will be constructed.

HOLIDAY INN AGREEMENT

The water board approved an agreement with the management of Holiday Inn for the installation of a drainage manhole in 42" water main easement.

STATE DEPARTMENT OF PUBLIC WORKS

A meeting was held by the Water Board and a Certified Vote authorizing the Mayor to submit a request to the City Council to appropriate \$11,000.00 as the Water Department share of the Nash Road Extension. City Council voted Sept. 12, 1968 to authorize the Mayor to make the money available.

METER MAINTENANCE

The employees of the Meter Department have done an excellent job in keeping pace with the excessive work load.

The Water Board voted to authorize all meter pits to be installed at the property line.

The Water Board voted to order fire meters installed on any fire supply found to have an illegal service connection.

It was voted by the Board to raise the meter rental rate on a 3" compound meter from \$50 to \$65 per year.

ACUSHNET SYSTEM

The City Solicitor's office and the owner of the property at 54 Bullard Street met and agreed to a portion of the old Water Works Easement be paved and used for a parking lot for his tenants.

Part of the old culvert became exposed to the weather on White's farm across from the present dairy on Middle Road, Acushnet. Considerable fill was hauled in and employees regraded the area.

HIGH HILL RESERVOIR

It is expected that the change over to (1) one ton scales will be made this year.

The department found it necessary to replace the (2) two heating elements before this coming winter.

The area to the rear of the Chlorination Station containing the gate valves was resurfaced.

SOUTH TERMINAL AREA

The Redevelopment Authority awarded the bid to Campanella Construction Co. of Rhode Island and they have installed 8" — 12" — 16" cast iron pipe in the area from Potomska Street to Cannon Street and Acushnet Ave. to the Acushnet River.

Some 12,800' of 4" — 6" — 8" — 10" — 12" old cast iron pipe was removed or abandoned in this area. The Redevelopment Authority will be going out to bid for areas Pine Street to Union Street, and area south of old Howland Way and then on Front Street from Walnut Street to the Fairhaven Bridge.

DISTRIBUTION SYSTEM

The department employees were kept quite busy throughout the year with new extensions, relocations, hydrants and valve installations.

The Water Board was informed that due to sharp increases in prices of various products used by the department will necessitate a higher budget for the coming year.

WATERSHED AREA

The Water Board voted to issue boating and fishing permits again this year on parts of Great Quittacas and Pocksha Ponds for the same fee terms and conditions as last year. Herring began to come up the Nemasket River and enter the Assawompsett Pond on April 19, 1968.

Fish Ladder — was constructed at the Nemasket River Dam, the department contributed labor, material and equipment as its share of the project. Mr. Joseph Di Carlo — Marine Fishery Biologist attached to the State Division of Fishery for the Department of Natural Resources was a big help in the success of this project.

Dam: Continued efforts are constantly being made to secure a new dam and an engineering study for the proper location.

Clarks Farm: The Water Board voted to demolish the existing buildings and plant the area with pine seedlings.

Boat Ramp: City Councillor Anthony Catojo requested that some action be taken to reconstruct the boat landing on the North Side of Long Point Road on the shore of Pocksha Pond.

Rochester Fire Dept: Was granted a (5) five year lease for \$1.00 per year for the use of the brick building on Marion Road a short distance north of Black Brook. Fire Chief Nathan Lawrence stated the equipment would be available for use by the City of New Bedford if and when needed.

Cranberry Bog: A communication was received from Donald Goodhine to amend the agreement dated June 27, 1966 to read (12) twelve additional acres subject to the same conditions and restrictions. Approval was granted including the State Department of Public Health.

FORCE MAINS

The State Department of Public Works paid for the (2) two concrete culverts over the (2) two 48" Water Mains under route 140, Southbound Roadway.

Department employees installed the telemetering circuit under the highway themselves and were reimbursed by the State.

ROCKDALE SYSTEM

A contract was awarded to Pilgrim Tower & Painting Company (\$10,095.00) for sandblasting and painting the inside and outside of the water tank.

Tibbetts Engineering Corp: was awarded a contract for \$1,000 for a new layout for an underground pumping station at the tank.

PUMPING STATION

The employees completed the construction of the new chlorine storage building at Quittacas Pumping Station under the supervision of Assistant Superintendent Edward Begin. It was built from salvage mill bricks. Mr. Green an engineer for the Highway Department designed the building and Mr. Frank Almeida — instructor at the New Bedford Vocational School assisted with the roofing material.

The Water Board authorized the purchasing of (2) two new heating elements for the stations.

A new 2000 gallon gas tank will be installed in the spring of 1969.

Mr. Begin, Assistant Superintendent notified the Water Board effective July 1, 1968 he would be moving from the Negus House owned by the Water Department. It voted to turn it over to the City Property Committee.

WATER REPORT

FAIRHAVEN BRIDGE WATER SUPPLY

The superintendent stated in detail to the Water Board, August 27, 1968 the problems existing with the system supplying Pope's Island.

A meeting was held with the Civil Defense and Planning Department to see if any available funds could be had to assist with the project. The Redevelopment Authority stated they could lay a proposed 16" water main northerly on Front Street to foot of the Bridge.

The Town of Fairhaven requested that a 12" water main be installed if any work is done so they could make an emergency connection.

POLAROID PLANT

The superintendent did considerable research with Mr. Gene Davis, Consulting Engineer. Metcalf & Eddy. All phases of the water system and its sources were discussed.

NORTH TERMINAL BULKHEAD

The Harbor Development Commission obtained bids, November 1, 1968 pertaining to Project F01 - 1 - 00063. The water requirements are as follows:

- 4150' - 16" cast iron class 25 pipe (Tyton)
- 2100' - 12" cast iron class 25 pipe (Tyton)
- 10800 class D fittings (mechanical)
- 8 - 6" mechanical gates — W/boxes
- 4 - 12" mechanical gates — W/boxes
- 9 - 16" mechanical gates — W/boxes
- 1 - 30" x 16" tapping sleeve & gate W/boxes
- 1 - 8" x 8" tapping sleeve & gate W/boxes

DOWNTOWN SHOPPERS MALL

On September 5, 1968 Geometrics Inc. sent the department a preliminary estimate for a Proposed Pedestrian Mall for Downtown New Bedford through the Chamber of Commerce. It was voted to accept the report and to cooperate with them when the Project is under taken.

1968 BOND ISSUE

A (5) five year \$50,000 Bond Issue was approved by the City Council, December 26, 1968 and by the Mayor December 31, 1968 for the purpose of purchasing various pieces of equipment.

PROJECTS PROPOSED

1. Improvements at the watershed — pertaining to the dam, storage, additional property; and, the reallocations of the water rights in the ponds.
2. Water Treatment Plant.
3. Install a 20 million gallon Electric Pump at Quittacas Station.
4. Transmission mains — complete overhaul and replacement of air valves and gate valves; and, the addition of new ones and added cross-overs with a Braley Road transmission main 24" connection for the Industrial Park.
5. Middleboro Rd. — 48" main needs gate valves, air valves and check valves.
6. Cement Lining Program.
7. Cross-over Connection — 24" in size from the Acushnet Ave. 30" — to Park St. 30" water mains.
8. Hathaway Road — connection from 30" at Nauset and Mt. Pleasant Sts. to the 42" (mains) at Rowe St.
9. Brock Avenue — replace 8" main with 16" main from David St. to Rodney French Blvd. (S).
10. Replacement or reinforce with Gunite — the 20" main laid in the 1800's that runs from Cedar Grove St. through the center to Sixth and County Streets.
11. Relocate Pump and increase storage at Hathaway Road Tank.
12. Replacement of a large number of gate valves throughout the system that are in a poor condition.
13. Installation of gates in front of all hydrants.
14. Tie-ins — of a large number or so-called dead-ends.

WATER REPORT

LEAKS

There has been twenty leaks on main pipe during the year as herewith shown.

Date	Size	Location	Cause
Jan. 6	30"	Second St. N. x S. line Coffin St. 7'	Broken Main
Jan. 12	6"	Mott St., S. W. cor. Cleveland St.	Cracked Main
Jan. 16	8"	Orleans St., N. x S. line Branscomb St. 7.4'	Main Leak
Jan. 17	8"	Oliver St. N. x N. line Lynn St. 87.2'	Main Leak
Jan. 21	4"	Pier #3, N. x Darling Hydrant 34'	Cracked Main
Feb. 12	10"	Hawthorn St., W. x W. line Burns St. 214'	Main Leak
Feb 16	6"	Metcalf St. intersection Jarry St.	Joint Leak
Apr. 18	3"	Pier #4	Split Main
June 3	6"	Harvard St., N. x S. line Kenney St. 26'	Broken Main
July 11	6"	Auburn St., W. x W. line Summit St. 50.4'	Joint Leak
July 31	1"	Jason Ct., W. x W. line Crapo St. 103'	Main Leak
Sept. 26	6"	Seabury St., S. x S. line Brooklawn Ave. 275.4'	Cracked Main
Oct. 24	1"	Jason Court, W. x W. line Crapo St. 7.5'	Main Leak
Nov. 14	4"	Front and Center Streets	Joint Leak
Dec. 3	12"	Church St. S. x S. line Carlisle St. 178.7'	Joint Leak
Dec. 10	12"	Church St., S. x Phillips Rd. 24.5'	Cracked Main
Dec. 15	4"	Sherman St. W. x County St. 96'	Cracked Main
Dec. 16	6"	Crapo St., S. x S. line Thompson St. 89'	Cracked Main
Dec. 18	6"	Pierce St., S. x Elm St. 102'	Cracked Main
Dec. 23	8"	Chicopee St., E. x E. line Caswell St. 47'	Cracked Main

20,415.8 feet of distribution pipe, in sizes from 4 inch to 16 inch was added to the system during the year and 12,824 feet was removed.

The total length of distribution pipe less than 4 inches now in use is 11,769 feet.

One hundred twenty-seven stop gates have been set and sixty of these previously set have been removed. The total number now in use is 3,959.

The total of small size stop gates now in use is 94.

Three waste gates have been removed making a total of 206 now in use.

A total of 215 air vent valves are now in use.

Twenty-three private gates have been set and 21 of those previously set have been removed making a total of 1,191 now in use.

Forty-two new hydrants have been set and twenty-seven of those previously set have been removed. The total number now in use is 2,192.

The total of water cart hydrants now in use is 16.

Two hundred and two service pipes have been laid and two hundred seventy-five of those previously laid have been removed. The total number now in place is 23,737. Of this number three hundred and eighty-eight are unmetered fire services, twenty thousand nine hundred and twenty-one are metered, and the balance of two thousand four hundred and twenty-eight are not in use.

Three hundred and sixty-seven service leaks have been repaired.

One hundred fifty-six taps have been cleared as follows:

Blow-offs	97	Trouble Inside	59
-----------	----	----------------	----

One thousand one hundred eight meters have been removed for repairs, nine hundred seventy-eight have been reset. Also two hundred and six new meters have been set for the year making the total number in use 20,921.

WATER REPORT

CONSUMPTION OF WATER

The consumption of water for the year has been as follows:

Month 1968	Monthly Consumption				Daily Average
	New Bedford	Dartmouth	Acushnet	Total	Consumption
	Gallons	Gallons	Gallons	Gallons	
January	540,219,050	536,250	7,479,000	548,234,300	17,684,977
February	512,242,800	526,500	9,825,000	522,594,300	18,020,493
March	553,510,600	477,000	8,452,500	562,440,100	18,143,229
April	557,337,900	645,750	9,714,750	567,698,400	18,923,280
May	587,564,750	966,850	7,731,000	596,262,600	19,234,277
June	584,943,100	1,550,500	11,694,000	598,187,600	19,939,587
July	655,968,850	6,434,200	10,896,750	673,299,800	21,719,348
August	725,042,550	17,997,900	12,159,750	755,200,200	24,361,296
September	621,748,700	9,253,600	21,457,500	652,459,800	21,748,660
October	639,077,350	1,767,650	9,975,000	650,820,000	20,994,193
November	571,528,350	598,500	15,594,750	587,721,600	19,590,720
December	580,742,950	622,500	9,317,250	590,682,700	19,344,603
Totals	7,129,926,950	41,377,200	134,297,250	7,305,601,400	—
Averages	—	—	—	—	19,960,659

Maximum daily consumption — (24 hrs.) — Aug. 15 28,336,500 Gals.

Minimum daily consumption — (24 hrs.) — Mar. 17 11,227,300 Gals.

Average daily consumption — 6 a.m. to 6 p.m. 11,713,177 Gals.

Average night consumption — 6 p.m. to 6 a.m. 8,247,482 Gals.

Amount of water consumed shown on above table includes the supplying of about 143.42 miles of distribution pipes located in the adjoining towns of Dartmouth and Acushnet. Dartmouth supplies 18,060 consumers through 5,160 taps. Acushnet supplies 5,817 consumers through 1,662 taps.

WATER REPORT

33y

COMPARISON OF THE CONSUMPTION OF THE YEAR 1968 WITH THE RECORD OF THE 86 PREVIOUS YEARS

Year	Estimated Population	Estimated number of consumers	Number of taps	Total number of gallons consumed	Average daily consumption	Gallons per day to each inhabitant	Gallons per day to each consumer	Gallons per day to each tap	No. of meters

Town of Dartmouth	4,625,500			961.00		.207
Town of Acushnet — Special Rate	57,022,500		156,236	10,621.75		.186
**City of New Bedford Departments Metered Water Department Use	54,807,750					
	23,293,500					
GRAND TOTALS	6,166,074,250			931,906.88		

*Includes special assessment accounts

**Not charged to City of N. B. Dept.

As superintendent, I wish to express my appreciation for the help received from the Mayor, the Water Board, the members of the City Government, and particularly to the employees of the Water Department for their continued and wholehearted support.

Respectfully submitted,

GEORGE H. BRIGHTMAN,

Superintendent

WATER REPORT

SUMMARY OF STATISTICS

FOR THE YEAR ENDING DECEMBER 31, 1968
IN FORM RECOMMENDED BY THE NEW ENGLAND
WATER WORKS ASSOCIATION

NEW BEDFORD WATER WORKS
NEW BEDFORD
BRISTOL COUNTY, MASS.

GENERAL STATISTICS

Population by census of 1968 — 103,097.

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899 inclusive.

By whom owned, City of New Bedford.

Source of supply. — Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply. — Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40' + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6/10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30') located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154') located 1.879 feet distance, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from Little Quittacas Pond (grade 52'). It is pumped through two 48 inch force mains. 8¼ miles long to a distributing reservoir (capacity 67 million gallons, grade 216') located upon High Hill, in the town of Dartmouth. From this reservoir, it flows into the city's distribution system by gravitation through two 36 inch cast iron pipes averaging 4 1/17 miles in length and one 42 inch per-cast concrete pipe following a different course and approximately the same length. The concrete transmission line was put into operation in 1958.

It is also possible to pump directly to the city through a 48" and 36" main using the reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use.

PUMPING STATISTICS

LITTLE QUITTACAS STATION

1. Builders of Pumping Machinery.

Electric Units

No. 1 10 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, driven electrically by 400 H. P. 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.

No. 2 Duplicate of No. 1.

No. 3 15 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, electrically driven by 600 H. P. 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.

The three foregoing pumps are controlled by switches and automatic starting equipment in a switchboard manufactured by the Electric Machinery Company.

No. 4 30 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, directly driven by 950 H. P. Baldwin locomotive type 6 cylinder supercharged Diesel engine, 600 R.P.M., manufactured by the Baldwin Locomotive Company.

Electric current purchased off New Bedford Gas and Edison Light Company. Total installed capacity, 65 million gallons per day.

LITTLE QUITTACAS STATION — Pump 4 "Diesel"

2. Description of fuel used.

a. No. 2 Diesel oil.

b. Brand of oil — various.

c. Price of oil per gallon — delivered to Little Quittacas Station 12.49 cents.

3. Oil consumed for the year — 19,200 gals.

4. Total pumpage for the year — 380,190,000 gallons by Venturi meter.

5. Average static head against which pumps work — 171.0.

6. Average dynamic head against which pumps work — 190.0.

7. Number of gallons pumped per gallon of fuel oil — 19,801 gals.

8. Number of gallons raised 100 feet per gallons of fuel oil — 37,622 gals.

9.a. Cost per million gallons raised into High Hill Reservoir — \$13.75

9.b. Cost per million gallons raised into High Hill Reservoir — diesel fuel only — \$6.30.

LITTLE QUITTACAS STATION — Pumps 1, 2, 3.

10. Total pumping time for the year — 13,752.00 Hrs.

11. Total current used for the year — 4,840,416 K.W.H.

12. Total Pumpage for the year — 6,925,040,000 gallons

13. Number of gallons pumped per K.W.H. — 1,431

WATER REPORT

14. Number of K.W.H. required to raise one million gallons into High Hill Reservoir — 699.
15. Average cost per K.W.H. — \$.0110. Cost per K.W.H. varies in accordance with amount consumed.
- 16a. Cost per million gallons raised into High Hill Reservoir, (Pumps 1, 2, 3) — \$24.57.
- 16b. Per power only — \$7.71.
Total cost of pumping, figured on pumping station expenses, viz: \$175,404.09.
17. Per million gallons pumped \$24.01.
18. Per million gallons raised one foot (dynamic) — 13 cents.
Cost of pumping figured on total maintenance and interest on bonds (see financial CC+DD) less credits, viz: \$629,145.46.
19. Per million gallons pumped \$86.12.
20. Per million gallons raised one foot (dynamic) — 46 cents.
Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC+DD+EE) less credits, viz: \$814,145.46.
21. Per million gallons pumped \$111.45.
22. Per million gallons raised one foot (dynamic) — 60 cents.

STATISTICS OF CONSUMPTION OF WATER

1. Estimated total population at date (New Bedford)	103,097
Acushnet 8,000; Dartmouth 18,700	*129,797
2. Estimated population on lines of pipe	*127,000
3. Estimated population supplied	*127,000
Year July 1, 1967 through June 30, 1968	
4. Total consumption for the year	6,878,488.700
5. Passed through meters	6,166,074.250
6. Percentage of consumption metered	90%
7. Average daily consumption	18,602.209
8. Gallons per day to each inhabitant	*143
9. Gallons per day to each consumer	*146
10. Gallons per day to each tap (active)	*601
11. Average rate received per million gallons metered	\$151.13
12. Average rate received per million gallons consumed	\$136.87
Year January 1, 1968 through December 31, 1968	
13. Cost of supplying water, per million gallons consumed figured on total maintenance (item CC) less credits	\$ 78.90
14. Cost of supplying water per million gallons consumed figured on total maintenance plus interest on bonds (CC+DD) less credits	\$ 86.11
15. Total cost of supplying water per million gallons consumed figured on total maintenance, plus interest on bonds and bond payments (CC+DD+EE) less credits	\$111.44

* Includes population supplied in the towns of Dartmouth and Acushnet.

STATISTICS RELATING TO DISTRIBUTING SYSTEM

MAINS

1. Kind of pipe cast iron, steel and cement asbestos.
2. Sizes, from 4 inch to 48 inch.
3. Extended 20,415 feet during year.
4. Discontinued 12,824 feet during year.
5. Total now in use 266.0 miles.
6. Cost of ordinary maintenance per mile including flushing and inspecting gates and hydrants — \$139.05
7. Number of leaks per mile .0751.
8. Length of pipes less than 4 inches diam. 2.06 miles.
9. Number of hydrants added during the year 42. Number of hydrants removed 27.
10. Number of hydrants public 2,192.
11. Number of stop gates added during year 67.
12. Number of stop gates now in use, 3,959.
13. Number of stop gates smaller than 4 inch, 94.
14. Number of blow offs (waste gates) 206.
15. Range of pressure on mains, 23 lbs. to 91 lbs.

SERVICES

16. Kind of pipe; lead, cast iron and copper tubing.
17. Sizes, ½ inch to 12 inch.
18. Extended 9,962.7 feet.
19. Discontinued 10,207.9 feet.
20. Total now in use 186.7536 miles.
21. Number of service taps added during year:

New Bedford	202
Dartmouth	170
Acushnet	95
Total added	467
22. Number now laid:

New Bedford	23,737
Dartmouth	5,443
Acushnet	1,736
Total now laid	30,916
Total now in use in N. B.	21,309
23. Average length of service 41.1 ft.
24. Average cost of service for the year:

(a) Gross	\$84.72
(b) Net	\$ 2.38
25. Number of meters to be added 76.
26. Number now in use, New Bedford only 20,921 (See Table Y)
27. Percentage of active service metered 98.1%.
28. Percentage of water receipts from metered water +100.

WATER RATES

For water supplied from Quittacas Pumping Station:

For the first 10,000 cu. ft. per quarter or 3,300 cu. ft. per month	\$2.00 per thousand cu. ft.
For the next 90,000 cu. ft. per quarter or 30,000 cu. ft. per month	\$1.75 per thousand cu. ft.
For the next 900,000 cu. ft. per quarter or 300,000 cu. ft. per month	\$1.50 per thousand cu. ft.
For the next 1,000,000 cu. ft. per quarter or 333,300 cu. ft. per month	\$1.00 per thousand cu. ft.
For all over 2,000,000 cu. ft. per quarter or 666,600 cu. ft. per month	\$.30 per thousand cu. ft.

These rates shall apply only to units of property or to the total amount of water recorded as used, by one or more meters located on the same property or premises.

METER RENTALS

(Within Basement Walls)

Size $\frac{5}{8}$ inch	\$3.00 per year
Size $\frac{3}{4}$ inch	4.00 per year
Size 1 inch	6.50 per year

In boxes, sizes over 1 inch and other special conditions, ten per cent of cost of meter and installation.

The property owner must keep the meter within his premises easily accessible for reading at all times. The owner will be held responsible for proper protection of the meter from all damage which may occur to freezing or from hot water backing from overheated house boiler or other causes.

The owner of property shall pay at the established meter rate for amount registered whether used or wasted.

Should a meter fail to register for any cause, the quantity shall be determined and the charge made based on average amount registered by meter when in order.

No meter shall be disconnected from the pipe, moved or disturbed without permission from the Water Registrar who will send a properly authorized person to attend to any change needed.

If a house becomes unoccupied the owner or agent may have the water shut off and the meter removed during the period of non-occupancy by making a request therefor to the Water Department and paying one (1) dollar to cover expenses.

Zoning Change No. 49**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Extending the Business Zone at the northeast corner of DUFEE STREET and ROCKDALE AVENUE to include the entire block of land bounded by DUFEE STREET, ROCKDALE AVENUE, POTTER and ROWE STREETS

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That the Business Zone at the northeast corner of Durfee Street and Rockdale Avenue be extended to include the entire block of land bounded by DUFEE STREET, ROCKDALE AVENUE, POTTER and ROWE STREETS, changing the zoning classification of the property from Residence B to BUSINESS; all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

IN CITY COUNCIL, February 27, 1969

Passed to a second reading.

Zoning Change No. 50**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of land bounded by PHILLIPS ROAD, BRALEY ROAD and the INDUSTRIAL PARK ACCESS ROAD, from Residence B to Business

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows: Beginning at a point in the northeasterly line of relocated Phillips Road and the northwesterly line of an unnamed access road leading to Theodore H. Rice Boulevard;

thence northwesterly in said northeasterly line of relocated Phillips Road, a distance of five hundred twenty-six and 29/100 (526.29) feet to a point;

thence northeasterly in a straight line, a distance of fifty-four and 89/100 (54.89) feet to a point in the southwesterly line of Braley Road;

thence southeasterly in said southwesterly line of Braley Road, a distance of five hundred eighty-two (582) feet more or less to a point in the northwesterly line of the above unnamed access road;

thence southwesterly in said northwesterly line of an unnamed access road, a distance of one hundred fifty-one (151) feet more or less to the point of beginning;

all of which is now zoned as Residence B, be reclassified and zoned Business;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford, is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Nine
AN ORDINANCE

AMENDING THE BUILDING CODE RELATIVE TO
APPLICATION OF METAL SIDING AND BONDING
AND GROUNDING OF METAL-CLAD BUILDINGS

Be it ordained by the City Council of the City of New Bedford
as follows:—

SECTION 1. That Chapter 1 of Title 8, Section 8-101 of the Code of the City of New Bedford, be amended by inserting the words, "Metal siding" following the words, "hearing system" and before the word, "elevator" in the first paragraph.

That Chapter 1 of Title 8 of the City Code, Section 8-114, Definitions be amended by adding the following sentence to the paragraph defining ordinary repairs: "The replacement of wood siding with metal siding shall not be considered ordinary repairs."

That Chapter 1 of Title 8 of the City Code be amended by adding the following new section:

Section 8-164; Bonding and Grounding of Metal-clad Buildings. (Roofing and Siding)

All metal veneer panels shall be provided with adequate electrical current carrying capacity one with the others by methods of fastenend contact, interlocking joints, wire or strap connectors, interconnecting clips, etc. All such contacting surfaces shall be electrically continuous. The electrically interconnected panels shall then be grounded to the electrical service ground (usually metal pipe water lines). If an electrical service ground isn't available, ground according to alternate methods in the Massachusetts Electric Code, Article No. 250. Methods employed shall conform to generally acceptable electrical engineering practices, and shall be subject to approval by the Inspector of Wires.

Adequate current carrying capacity for any method of bonding and grounding as described above shall be the ability to carry a minimum of 30 amperes when a potential of 110 volts AC to ground is impressed on the panel so as to cause the ordinary (30 ampere maximum) building circuit overcurrent protection device to open. A continuity test between any point of the metal siding and the metal water piping system shall show a resistance of not over 15 ohms. Where plate, pipe or rod electrodes are necessary to be used, a continuity test between any point of the metal siding and the made electrode shall show a resistance of not over 20 ohms.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

IN CITY COUNCIL, April 24, 1969

AN ORDINANCE

AMENDING THE BUILDING CODE TO REGULATE
THE INSTALLATION OF SWIMMING POOLS

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That Title 8 of the Code of the City of New Bedford, be amended by adding the following new section.

Section 8-164 A Swimming Pools

It shall be unlawful to commence the construction, installation or enlargement of any swimming pool without first obtaining a Building Permit, excepting, swimming pools incapable of containing a depth of water exceeding twenty-four inches at any point. The owner or his agent shall submit plans, in duplicate showing construction and location of such pool, when applying for the permit.

No swimming pool shall be located within a required side or front yard nor less than six feet from any lot line and three feet to any building wall or fence.

No swimming pool shall be constructed or maintained unless such pool is entirely enclosed by a building wall and/or fence of not less than four feet in height, including gates thereto. Any gate shall be equipped with a secure lock. Said fence shall be designed and constructed so as to make the pool inaccessible to children by climbing or entering through fence openings. Wire fences with mesh openings exceeding two inches and any other fencing material that would provide ready footing for climbing shall be prohibited.

All swimming pools, pool equipment and appurtenances shall be properly maintained and shall not create a safety hazard or a public nuisance.

No swimming pool or pool appurtenances shall be located under electric service drop conductors or any other open overhead wiring unless wiring is a minimum of ten feet horizontally from the pool edge and from any diving structure.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

IN CITY COUNCIL, April 24, 1969

Zoning Change No. 52**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine
AN ORDINANCE

Changing the zoning classification of land at the southeast corner of SECOND and MADISON STREETS, from Industrial A to Residence C (LAND IN SOUTH TERMINAL URBAN RE-NEWAL PROJECT)

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows:

Beginning at the intersection of the east line of Second Street with the south line of Madison Street;

thence easterly in said south line of Madison Street, a distance of one hundred sixty-eight and 73/100 (168.73) feet to the west line of John F. Kennedy Memorial Highway;

thence southerly in said west line of John F. Kennedy Memorial Highway, a distance of seven hundred seventy-four and 36/100 (774.36) feet to land now or formerly of the City of New Bedford;

thence westerly in line of last named land, a distance of two hundred sixteen and 49/100 (216.49) feet to the easterly line of Second Street;

thence northerly in said easterly line of Second Street, a distance of two hundred fifteen and 85/100 (215.85) feet to land now or formerly of the New Bedford Gas and Edison Light Company;

thence easterly in line of said land, a distance of one hundred (100) feet;

thence northerly in line of said land, a distance of eighty (80) feet;

thence westerly in line of said land, a distance of one hundred (100) feet to the east line of Second Street;

thence northerly in said east line of Second Street, a distance of four hundred eighty-two and 98/100 (482.98) feet to the south line of Madison Street, said point being the point and place of beginning;

all of which is now zoned as Industrial A, be reclassified and zoned as Residence C;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

IN CITY COUNCIL, June 26, 1969

Passed to a second reading.

Zoning Change No. 53**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of land bounded by MAC ARTHUR DRIVE, WRIGHT and HASSEY STREETS; and in the block bounded by MAC ARTHUR DRIVE, SOUTH, HASSEY and WRIGHT STREETS, from unzoned area to Industrial B (LAND IN SOUTH TERMINAL URBAN RENEWAL PROJECT)

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows:

Parcel 1. Beginning at a point in the south line of Wright Street at the end of a curve forty-six and 27/100 (46.27) feet long which begins in the east line of MacArthur Drive;

thence easterly in said south line of Wright Street, a distance of seven hundred eighty-two and 79/100 (782.79) feet to a point;

thence northeasterly in line of a curve two hundred forty-eight and 17/100 (248.17) feet to a point in the east line of Hassey Street.

thence northerly in said east line of Hassey Street, a distance of one hundred ninety-nine and 58/100 (199.58) feet to a point;

thence northeasterly in the line of a curve thirty-five and 22/100 (35.22) feet to a point;

thence easterly, a distance of two hundred seventy-seven and 46/100 (277.46) feet to the combined Pierhead and Bulkhead Line;

thence southeasterly in line of said Pierhead and Bulkhead Line, a distance of five hundred ninety-three and 42/100 (593.42) feet to land now or formerly of New Bedford Radio, Inc.;

thence westerly in line of said last named land and land of Ottaway Newspaper and Radio, Inc. and land of the New Bedford Seafood Cooperative, a distance of one thousand four hundred thirty-three and 37/100 (1433.37) feet to a point in the southerly line of Potomska Street;

thence northerly in the southeasterly line of Potomska Street and MacArthur Drive, a distance of two hundred thirty-six and 40/100 (236.40) feet to a point;

thence northerly in the east line of MacArthur Drive, a distance of sixty-eight and 66/100 (68.66) feet to a point;

thence northeasterly in line of a curve forty-six and 27/100 (46.27) feet to a point in the south line of Wright Street, the point and place of beginning.

Parcel 2. Beginning at a point in the southeasterly corner of MacArthur Drive and South Street;

thence easterly in said southerly line of South Street, a distance of eight hundred fifty and 10/100 (850.10) feet to a point;

thence southeasterly in a radius, a distance of thirty-three and 89/100 (33.89) feet to a point in the westerly line of proposed Hassey Street;

thence southerly in said westerly line of proposed Hassey Street, a distance of two hundred sixty-two and 76/100 (262.76) feet to a point;

thence southwesterly in a radius, a distance of one hundred fifty-two and 10/100 (152.10) feet to a point in the northerly line of Wright Street;

thence westerly in said northerly line of Wright Street, a distance of seven hundred eighty and 67/100 (780.67) feet to a point;

thence northeasterly in a radius, a distance of fifty and 81/100 (50.81) feet to a point in the easterly line of MacArthur Drive;

thence northerly in said easterly line of MacArthur Drive, a distance of three hundred twenty-seven and 72/100 (327.72) feet to a point;

thence northeasterly in a radius, a distance of thirty-four and 18/100 (34.18) feet to the point of beginning;

all of which is now unzoned, be classified and zoned as Industrial B;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said classification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

Zoning Change No. 54**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of land bounded by HASSEY, CONWAY and CAPE STREETS; and land in the block bounded by MAC ARTHUR DRIVE, CONWAY, HASSEY and SOUTH STREETS, from Residence C. and Industrial A, to Industrial B. (LAND IN SOUTH TERMINAL URBAN RE-NEWAL PROJECT)

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows:

Parcel 1. Beginning at a point in the north side of Conway Street, said point being the terminus of a curve thirty-four and 56/100 (34.56) feet long beginning on the east side of Cape Street;

thence easterly along the north side of Conway Street, a distance of two hundred thirty-four and 7/100 (234.07) feet;

thence southeasterly along a curve one hundred fifty-two and 10/100 (152.10) feet to a point on the east side of Hassey Street;

thence southerly on the easterly side of Hassey Street, a distance of two hundred eighty-eight and 50/100 (288.50) feet to a point;

thence southeasterly in a curve thirty-three and 89/100 (33.89) feet to a point;

thence easterly, a distance of two hundred seventy-eight and 79/100 (278.79) feet to the Combined Pierhead and Bulkhead Line;

thence northerly along said Pierhead and Bulkhead Line, a distance of eight hundred seventy-eight and 17/100 (878.17) feet to a point;

thence westerly along land now or formerly of Ell Vee Dee Corporation, New Bedford Gas and Edison Light Company, Harbor Development Commission, a distance of six hundred sixty-two and 78/100 (662.78) feet to the easterly line of Cape Street;

thence southerly along the easterly line of said Cape Street, a distance of fifty-three and 99/100 (53.99) feet to a point;

thence continuing southwesterly in a curve fifty-eight and 80/100 (58.80) feet to a point;

thence continuing southerly in another curve twelve and 17/100 (12.17) feet;

thence southerly along said easterly line of Cape Street, a distance of three hundred thirty-one and 65/100 (331.65) feet to a point;

thence southeasterly in line of a curve thirty-four and 56/100 (34.56) feet to the north line of Conway Street, the point and place of beginning.

Parcel 2. Beginning at a point in the south side of Conway Street, said point being the terminus of a fifty-five and 15/100 (55.15) foot curve from MacArthur Drive;

thence easterly, a distance of eight hundred twenty-two and 43/100 (822.43) feet to a point;

thence southeasterly, a distance of one hundred forty- six and 35/100 (146.35) feet following a radius to the westerly side of Hassey Street;

thence southerly, a distance of three hundred forty-five and 37/100 (345.37) feet to a point;

thence southwesterly following a radius to the north side of South Street, a distance of thirty-five and 22/100 (35.22) feet to a point;

thence westerly in the north line of South Street, a distance of eight hundred fifty-three and 47/100 (853.47) feet to a point;

thence northwesterly, a distance of thirty-one and 20/100 (31.20) feet following a curve to a point on the east side of MacArthur Drive;

thence northwesterly in the easterly line of MacArthur Drive, a distance of four hundred nine and 25/100 (409.25) feet to a point;

thence, following a radius, a distance of fifty-five and 15/100 (55.15) feet to a point on the south side of Conway Street, being the point and place of beginning;

all of which is now zoned as Residences C or Industrial A, be reclassified and zoned Industrial B;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

Zoning Change No. 56

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of land at the southeast corner of MAC ARTHUR DRIVE and PINE STREET; also, on PINE STREET, north side; also, on MACARTHUR DRIVE, east side, from Residence C and Industrial A, to Industrial B. (LAND IN SOUTH TERMINAL URBAN RENEWAL PROJECT)

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows:

Parcel 1. Beginning at a point in the south side of Pine Street, said point being the terminus of a thirty-nine and 36/100 (39.36) foot curve from MacArthur Drive;

thence easterly in said southerly line of Pine Street, a distance of eighty-one and 7/100 (81.07) feet to a point;

thence southerly following a curve eighty-nine and 83/100 (89.83) feet to a point;

thence southeasterly following a curve fifty-six and 63/100 (56.63) feet to a point;

thence easterly, a distance of fifty-seven and 4/100 (57.04) feet to land now or formerly of the New Bedford Gas and Edison Light Company;

thence southerly in a line of said last named land, a distance of one hundred sixty-nine and 90/100 (169.90) feet to a point;

thence westerly, a distance of twenty and 56/100 (20.56) feet to a point;

thence southerly in a line of said last named land, a distance of one hundred twenty-three and 91/100 (123.91) feet to a point;

thence westerly again, a distance of one hundred two and 2/100 (102.02) feet to a point;

thence southerly again still in line of said land, a distance of one hundred ninety-five and 96/100 (195.96) feet to land now or formerly of the New Bedford Redevelopment Authority;

thence westerly, a distance of forty-three and 30/100 (43.30) feet to the east line of MacArthur Drive;

thence northwesterly in said easterly line a distance of five hundred forty-two and 2/100 (542.02) feet to a point;

thence northeasterly in line of a curve thirty-nine and 36/100 (39.36) feet to a point in the south side of Pine Street, being the place and point of beginning.

Parcel 2. Beginning at a point in the easterly line of MacArthur Drive, said point being eighty-nine and 42/100 (89.42) feet northerly therein from the north line of Pine Street;

thence easterly in line of land now or formerly of the New Bedford Gas and Edison Light Company, a distance of two hundred eighty (280) feet to a point;

thence northerly, a distance of twenty-five (25) feet, more or less;

thence westerly, a distance of two hundred eighty (280) feet to the said easterly line of MacArthur Drive;

thence southerly in said easterly line of MacArthur Drive, a distance of twenty-five (25) feet, more or less, to the point and place of beginning.

Parcel 3. Beginning at a point in the north line of Pine Street, distant easterly therein, one hundred twenty (120) feet from the easterly line of MacArthur Drive;

thence northerly in line of land now or formerly of the New Bedford Gas and Edison Light Company, a distance of forty-four (44) feet;

thence easterly in line of other land of said New Bedford Gas and Edison Light Company, a distance of sixty (60) feet;

thence southerly, a distance of forty-four (44) feet to the north line of Pine Street;

thence westerly in said northerly line of Pine Street, a distance of sixty (60) feet to the point and place of beginning;

all of which is now zoned as Residence C and Industrial A, be reclassified and zoned as Industrial B;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

Zoning Change No. 61**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of land in the block bounded by SCHOOL, SECOND and WALNUT STREETS and ACUSHNET AVENUE; and land bounded by SECOND and SCHOOL STREETS and the JOHN F. KENNEDY MEMORIAL HIGHWAY, from Industrial A and Business, to Residence C (LAND IN SOUTH TERMINAL URBAN RENEWAL PROJECT)

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows:

Parcel 1. Beginning at a point in the south line of School Street at the end of an eighteen and 74/100 (18.74) foot curve beginning in the east line of Acushnet Avenue;

thence easterly in said south line of School Street, a distance of one hundred forty-two and 53/100 (142.53) feet to a point;

thence southeasterly in line of a curve nineteen and 2/100 (19.02) feet to a point in the west line of Second Street;

thence southerly in said west line of Second Street, a distance of two hundred ninety and 14/100 (290.14) feet to a point;

thence southwesterly, a distance of thirty-four and 43/100 (34.43) feet in line of a curve to a point in the north line of Walnut Street;

thence westerly in said north line of Walnut Street, a distance of one hundred one and 3/100 (101.03) feet to a point;

thence northwesterly in line of a curve sixty-six and 1/100 (66.01) feet to a point in the east line of Acushnet Avenue;

thence northerly in said east line of Acushnet Avenue, a distance of two hundred sixty-eight and 89/100 (268.89) feet to a point;

thence northeasterly in line of a curve eighteen and 74/100 (18.74) feet to a point in the south line of School Street, the point and place of beginning;

Parcel 2. Beginning at the intersection of the east line of Second Street with the south line of School Street;

thence easterly in the south line of School Street, a distance of one hundred fifty-three and 15/100 (153.15) feet to a point;

thence northeasterly in a curve one hundred fifty-six and 67/100 (156.67) feet to a point in the west line of John F. Kennedy Memorial Highway;

thence southerly in said west line of John F. Kennedy Memorial Highway, a distance of three hundred twenty-three and 11/100 (323.11) feet to a point;

thence westerly, a distance of one hundred seventy-nine and 14/100 (179.14) feet to the east line of Second Street;

thence northerly in said east line of Second Street, a distance of two hundred ten and 10/100 (210.10) feet to the south line of School Street, said point being the point and place of beginning;

all of which is now zoned as Industrial A and Business, be reclassified and zoned as Residence C;

all as shown on a plan on file in the Office of the City Clerk and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

AN ORDINANCE

ESTABLISHING A COMMISSION WHICH SHALL BE KNOWN
AS THE NARCOTICS INFORMATION COUNCIL AND
CENTER.

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Title 3 of the Code of the City of New Bedford is hereby amended by adding the following new chapter:

CHAPTER 30

Section 3-3001 DECLARATION OF POLICY.

The City Council hereby finds and declares that there is a widespread use of narcotics and drugs moving in and otherwise affecting the City of New Bedford which poses a threat to public health and welfare. It is further declared that whereas there exist numerous laws and regulations at all levels of government there are certain persons addicted to or dependent upon narcotics and drugs that should be afforded the opportunity for treatment and rehabilitation in order that they may be returned to and become useful members of this community and in order that this community may be afforded greater protection from crime and delinquency which result from such narcotic addiction.

NOW, THEREFORE, there is hereby established a commission which shall be known as the Narcotics Information Council and Center consisting of nine members selected from the general public including at least one medical physician, one psychiatrist or psychologist and one clergyman.

Section 3-3002 TENURE AND COMPENSATION.

The members shall be selected and hold office as follows: Each member shall be selected by the Mayor with the advice and consent of the City Council. Three shall be appointed for one year, three for two years, and three for three years. Members thereafter appointed or reappointed shall hold office for a term of three years from the date of their appointments and until their successors shall be appointed and qualified. They shall serve without compensation but may be reimbursed for any personal expense incurred in the performance of their duties. The members shall appoint from within their number a chairman who shall preside at all meetings.

Section 3-3003 DUTIES AND FUNCTIONS.

The Council shall cooperate and render advice to the Mayor, City Council, city departments, agencies and officials on matters relating to narcotic and drug addition or dependency, and coordinate all efforts in the City of New Bedford to assist addicts or drug users in securing care and rehabilitation in conjunction with medical agencies at the Federal, State and local levels. The services of all city departments and agencies shall be made available by their respective heads to the Council at its request, and

information in the hands of any department or agency shall be furnished to the Council when requested. Upon receipt of any recommendation in writing from the Council each department or agency shall submit a reply in writing indicating the disposition of any action taken with regard to such recommendations.

Section 3-3004 COOPERATION WITH CIVIC GROUPS.

The Council shall invite and enlist the cooperation of racial, religious or ethnic groups, community organizations, labor and business organizations, fraternal and benevolent societies, veterans' organizations, professional organizations, and other groups in the City in carrying out its work. The Council may aid in the formation of local community groups in such neighborhoods as it may deem necessary or desirable to carry out specific programs designed to aid addicts or drug users. The Council shall also cooperate with State and Federal agencies whenever it deems such action appropriate in effectuating the policy of this ordinance.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

CHANGING THE RESIDENCY REQUIREMENT FOR CITY
SOLICITOR AND HIS ASSISTANTS AND TO DESIGNATE
THE ASSISTANTS BY NUMBER

Be it ordained by the City Council of the City of New Bedford
as follows:—

SECTION 1. Section 1-202 of the Code of the City of New Bedford be and hereby is amended by deleting the words "a resident of the City, and" after the words "The city solicitor shall be" in line one of said section so that said Section 1-202 shall read as follows:

Section 1-202. Qualifications

The city solicitor shall be an attorney and counsellor at law of the courts of the Commonwealth, and a resident of greater New Bedford. He shall not hold any other office under the city government.

SECTION 2. Section 1-207 of the Code of the City of New Bedford be and hereby is amended by adding the following paragraph after the second paragraph of Section 1-207. "The assistant city solicitors as appointed by the mayor shall be designated first, second, and third," so that said Section 1-207 shall read as follows:

Section 1-207. Assistants

The mayor, subject to confirmation by the city council, may appoint three assistant city solicitors, each of whom shall hold office until December 31 of the year in which he is appointed. The assistant city solicitors shall be residents of the City of New Bedford, admitted as Attorneys and Counsellors-at-Law of the courts of the Commonwealth of Massachusetts and they shall not hold any other office under city government.

The assistant city solicitors shall assist the city solicitor and perform such duties as he may require in the conduct of his office; and during the absence or disability of the city solicitor or when requested by him to do so, the assistant designated by the city solicitor shall perform the duties of the city solicitor.

The assistant city solicitors, as appointed by the mayor, shall be designated first, second, and third.

SECTION 3. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the Massachusetts General Laws (Ter. Ed.)

IN CITY COUNCIL, November 25, 1969

As amended, passed to a second reading.

AN ORDINANCE

PROVIDING FOR NOTIFICATION OF CERTIFICATION
AND/OR APPROVAL OF EXPENDITURES

Be it ordained by the City Council of the City of New Bedford
as follows:—

SECTION 1. Chapter 1 of Title 4 of the City Code is hereby
amended by adding a new section to be known as Section 4-109A
which shall read as follows:

Section 4-109A Notification of Certification and/or
Approval of expenditures

The City Clerk shall notify the Mayor, head of the Department, or other official in writing with a copy to the City Auditor, whenever the terms of an order authorizing an appropriation requires the certification or approval of said official prior to incurring any liability against the appropriation. No claim against such appropriation shall be allowed or approved by the City Auditor unless all the necessary certifications and/or approvals have been secured from the officials required by the order authorizing the appropriations.

SECTION 2. This ordinance shall take effect in accordance
with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

AN ORDINANCE

PROVIDING FOR CERTIFICATION OF THE PAYMENT OF
BILLS FOR PURPOSES AUTHORIZED

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Chapter 1 of Title 4 of the Code of the City of New Bedford is hereby amended by adding a new section to be known as Section 4-111A which shall read as follows:

Section 4-111A Certification of the payment of bills for purposes authorized.

Notwithstanding the provisions of Section 4-111, whenever in the judgment of the City Auditor the liabilities incurred against any appropriation appear to be for purposes other than those set forth in the appropriation, he shall immediately give written notice to the Mayor, head of the department, or other responsible official of such an appearance. No claim against such appropriation shall be allowed or approved nor any further liability for the purpose be incurred until the Mayor, head of department or other official certifies in writing that the liability incurred is for purposes authorized in the appropriation. The City Auditor shall notify the Committee on Audit in writing whenever he has given the above referenced notice to the Mayor, head of the department, or other official together with a copy of the certification approving the expenditure by said official.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

Zoning Change No. 69**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of property on the south side of VICTORIA STREET, west of Ashley Boulevard, from Residence B to Business

Be it ordained by the City Council of the City of New Bedford as follows;—

SECTION 1. That all of the property bounded and described, as follows:

Beginning at a point in the southerly line of Victoria Street, distant westerly therein one hundred thirty-one (131) feet more or less from its point of intersection with the westerly line of Ashley Boulevard;

thence southerly in the westerly line of land now or formerly owned by Emile J. and Irene L. Corando, a distance of eighty-seven and 58/100 (87.58) feet to a point in the northerly line of land now or formerly belonging to Thaddeus Irzyk;

thence westerly in the northerly line of said land, a distance of two hundred forty (240) feet more or less to a point in the easterly line of other land now or formerly owned by Thaddus Irzyk;

thence northerly in said easterly line, a distance of eighty-four and 50/100 (84.50) feet to a point in the southerly line of Victoria Street;

thence easterly in said southerly line of Victoria Street, a distance of two hundred forty (240) feet more or less to the point of beginning;

all of which is now zoned as Residence B, be classified and zoned Business;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

Zoning Change No. 70**CITY OF NEW BEDFORD**

In the Year One Thousand Nine Hundred and Sixty-Nine

AN ORDINANCE

Changing the zoning classification of property on the east side of PHILLIPS ROAD and west side of ROUTE 140, north of Pembroke Street, from Residence B to Residence C.

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That all of the property bounded and described, as follows:

Beginning at a point in the easterly line of Phillips Road, distant northerly therein one hundred twenty-eight and 7/10 (128.7) feet from its point of intersection with a northerly line of proposed Pembroke Street; said point being the northwesterly corner of land now or formerly belonging to Blanche Mott;

thence northerly in said easterly line of Phillips Road, a distance of eight hundred thirty-three (833) feet more or less to a point at the southwesterly corner of land now or formerly belonging to Marvin Kosow and David Dickerman;

thence easterly in the southerly line of said land, a distance of thirty (30) feet more or less to an angle;

thence again easterly in said line, a distance of sixty-two (62) feet more or less to an angle;

thence again easterly in said line, a distance of two hundred ninety-four (294) feet more or less to an angle;

thence northerly in an easterly line of said land, a distance of thirty-six (36) feet more or less to an angle;

thence northerly in an easterly line of said land, a distance of thirty-six (36) feet more or less to an angle;

thence again easterly in the southerly line of said land, a distance of four hundred fifty-eight (458) feet more or less to a point in the westerly line of Alfred M. Bessette Memorial Highway;

thence southerly in said westerly line of Alfred M. Bessette Memorial Highway, a distance of five hundred ninety-seven (597) feet more or less to a point at the northeast corner of land now or formerly belonging to Mary S. Bettencourt;

thence westerly in the northerly line of said land and continuing in a straight line, a distance of one thousand two hundred and forty (1,240) feet more or less to the point of beginning;

all of which is now zoned as Residence B, be reclassified and zoned Residence C;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).
